DRAFT

Executive Summary

ES-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

The City of Alexandria receives annual grant allocations from HUD through the Community Development Block Grant (CDBG) and HOME Investment Partnership Program (HOME). The overarching purpose of the CDBG and HOME programs is to assist low- and moderate-income families and households, which are those that earn less than 80% of the area median income. The funds are used to pursue three goals:

- (1) Provide decent, affordable housing
- (2) Create suitable living environments, and
- (3) Expand economic opportunities.

In order to access these federal funds, the City must carry out a planning process to identify the scope of housing and community development needs in its jurisdiction and how the available funding can best be used to meet those needs. This document, the City's Consolidated Plan, is the result of the planning process. The term of the Consolidated Plan will begin May 01, 2020 and end April 30, 2024. The contents of the plan are guided by the federal regulations set forth by HUD in 24 CFR Part 91. The plan includes the following sections:

- Process
Outreach is a key component of any planning effort. This section describes the City's efforts to gather input from residents, especially those that may benefit from the plan, and from service providers, non-profits, and other government agencies that work within the areas of affordable housing and community development.
- Needs Assessment
The Needs Assessment details the City's levels of need for affordable housing by household type, income level, and race and ethnicity. It also includes a review of the needs of public housing, the homeless population, non-homeless populations that require supportive housing and services, and non-housing community development needs such as public facilities, public services, and infrastructure.
- Market Analysis
The Market Analysis reviews the current condition of the local housing market and economy. This information will help the City formulate the types of programs that will be effective given the current market conditions.

Strategic Plan

The Strategic Plan describes how the City will use the resources available to meet the most pressing needs identified through the planning process. It includes a summary of the City's priority needs, an estimate of available funding, a summary of who will be undertaking the actions called for in the plan, and a set of numeric goals the City hopes to accomplish over the course of the five year plan.

- FY2020 Annual Action Plan

The first year Annual Action Plan describes the resources available and the planned actions that the City will undertake in the first year of the plan, from May 01, 2020 to April 30, 2021.

COVID-19: While completing the draft of this Consolidated Plan, a new coronavirus known as SARS-CoV-2 was first detected in Wuhan, Hubei Province, People's Republic of China, causing outbreaks of the coronavirus disease COVID- 2 19 that has now spread globally (COVID-19). The first case was reported in the United States in January 2020. In March 2020, the World Health Organization declared the coronavirus outbreak a pandemic and President Trump declared the outbreak a national emergency. During this time, the majority of states have declared states of emergency with most shutting down large gathering places and limiting the movement of their residents.

Congress passed the Coronavirus Aid, Relief, and Economic Security (CARES) Act in response to the crisis. It was signed into law by President Trump on March 27th, 2020. This over \$2 trillion economic relief package provides fast and direct economic assistance for American workers, families, and small businesses, and preserves jobs for industries. As part of the CARES Act, additional assistance is provided for HUD grantees, and the City is receiving a special CARES Act allocation of CDBG funds (CDBG-CV funds). Those funds are contemplated under this plan and the 2020 Annual Action Plan.

SLUM & BLIGHT AREA: As part of this Consolidated Plan the City is submitted for the designation of a slum and blight area. This area is also being made a target area under this Consolidated Plan.

2. Summary of the objectives and outcomes identified in the Plan Needs Assessment Overview

After reviewing and analyzing the data gathered through the consultation, citizen outreach, needs assessment, and market analysis, the City developed a set of goals and strategies to make the best use of its limited resources to address its most pressing affordable housing, community development, and homeless problems. The City developed six broad goals to meet its most pressing needs

(1) Create New Affordable Housing

Under this goal, the City estimates it will subsidize the development of up to 15 affordable units, provide financial assistance to eligible homebuyers, and provide homebuyer education services.

(2) Improve Condition of Existing Housing Stock

The City estimates it will assist approximately 75 units through the CDBG Minor Rehab program.

(3) Eliminate Blighted Conditions

The City will fund three initiatives to address and eliminate blighted conditions within the City. First, the City will support code enforcement efforts to identify and cite blighted properties. The City will provide funding for the demolition and clearance of an estimated 50 blighted structures. Finally, if necessary, the City will work with property owners to address clouded title issues as part of any acquisition efforts under its programs.

(4) Provide Emergency Assistance

In response to the COVID-19 crisis, the City will assist an estimated 500 households with emergency assistance, which may include utility or rental payments, for up to 90 days.

3. Evaluation of past performance

In recent years, the City has focused the use of its CDBG funds on minor repair, code enforcement, and clearance. A summary of each program is provided below:

- Demolition and clearance of blighted properties is often identified as their highest priority by neighborhood residents. The City averages 10 demolitions per year. While the demolition of the blighted structures improves the neighborhood, the next step would be to identify a re-use of the property. Unfortunately, the City has had a difficult time in the past in acquiring “heir properties” where more than one party has an interest in the property.
- The CDBG Minor Repair program provided up to \$5,000 of rehabilitation to homeowners to address deferred maintenance to help owners maintain independent living. Some properties may qualify for up to \$15,000 of roof repairs under this program. This program was a result of the previous Senior Minor Repair Program and the Weatherization Programs in effect to better to respond to applicants needs and marketing efforts.

Since 1992, the City has used HOME funds to assist with the development of 123 rental units and 34 homebuyer units, and rehabilitated 178 units of owner-occupied housing. In recent years, the City’s HOME allocation has been drastically reduced to a point where the City has only been able to fund rehabilitation projects during a project per year. The City is in the process of expanding this program to address rehabilitation for structures in need of greater assistance in order to comply with local and state building codes.

4. Summary of citizen participation process and consultation process

CITIZEN PARTICIPATION

The City will focus the use of its funds in its five designated target neighborhoods. As such, the City held

Demo

neighborhood meetings in the target areas to discuss potential uses of funds, recent accomplishments, current priority needs, and how to best use future allocations. The target areas include North Alexandria, Central Business District, Samtown/Woodside, Lower Third, and South Alexandria.

The City also convened a Citizen Advisory Group. The group members include residents from each target area as well a representative for different advocacy groups, including Elderly and Disabled, Youth, persons with HIV/AIDS, Mentally Disabled, and Homeless.

The City follows its Citizen Participation Plan (CPP) for all community outreach. The CPP has been amended 2020 in accordance with HUD-provided guidance and is attached to this Consolidated Plan.

The City conducted a public hearing on June 11, 2020 to collect community input. Before the public hearing, the City published the proposed plan for citizen comment from May 15, 2020 to June 15, 2020 at 4:30 pm.

A summary of all comments and feedback received through the public participation process is included as an attachment to the plan.

CONSULTATION

To assess the different needs within the community and in an effort to reach out and better coordinate with other service providers in the area, the City conducted a number of consultations with local non-profits, assisted housing providers, and other governmental agencies and departments. For a complete list of organizations contacted, please refer to section PR-10 Consultation.

5. Summary of public comments

A summary of all comments and feedback received through the public participation process is included as an attachment to the plan.

6. Summary of comments or views not accepted and the reasons for not accepting them

All comments and feedback were accepted and considered when developing the plan.

7. Summary

To develop this Consolidated Plan, the City analyzed the level of need through citizen outreach, consultations with service providers, and a review of needs-related data and the local market. The results of the needs assessment indicate the needs of the community have not significantly changed from the last five year plan. The most pressing needs continue to be a large number of blighted properties and substandard condition of housing, especially within the neighborhoods identified as CDBG target areas. As such, the resources available to the City through the programs covered by this plan, including the Community Development Block Grant (CDBG) and the HOME Investment

Demo

Partnerships Grant (HOME), will focus on the elimination of blighted properties and the improvement of the condition of existing housing stock. The City will also work to better serve its homeless populations and non-homeless populations with special needs. CDBG-CV funds will be targeted to assist households with emergency utility or rent payment needs for up to 90 days.

DRAFT

The Process

PR-05 Lead & Responsible Agencies 24 CFR 91.200(b)

1. Describe agency/entity responsible for preparing the Consolidated Plan and those responsible for administration of each grant program and funding source

The following are the agencies/entities responsible for preparing the Consolidated Plan and those responsible for administration of each grant program and funding source.

Agency Role	Name	Department/Agency
CDBG Administrator	ALEXANDRIA	Community Development
HOME Administrator	ALEXANDRIA	Community Development
CDBG-CV	ALEXANDRIA	Community Development

Table 1 – Responsible Agencies

Narrative

The City of Alexandria is the lead agency for this Consolidated Plan. Specifically, the Community Development Department administers the Consolidated Plan and all of its funded programs on behalf of the City. Some programs are administered directly by the City. For others, the Community Development Department relies on a number of partners, including non-profit organizations, contractors, and other public agencies to undertake the projects.

PR-10 Consultation – 91.100, 91.110, 91.200(b), 91.300(b), 91.215(I) and 91.315(I)

1. Introduction

When developing the plan, the City reached out to local service providers and other government agencies to gather information on housing, homeless, and community development needs and to determine how the available federal resources should best be used to meet the City's priority needs. At this time, the City also sought to build better working relationships with service providers in the spirit of increasing coordination between the City's efforts and those of the service providers. This section summarizes the consultation efforts made by the City and details specific information required by HUD in regard to coordination on homeless efforts.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(I)).

The City reached out to public and assisted housing and service providers as part of the consultation process. The main purpose of the consultation process was to collect input from area stakeholders in terms of community needs and priorities. However, the City used the opportunity to better understand the nature and scope of services provided by the agencies and looked for new ways to partner. The City will continue to work with the Continuum of Care, local churches, and nonprofits to address community needs.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness

The City met with the Executive Director and members of the Central Louisiana Homeless Coalition, the lead member of the Continuum of Care, to determine priority homeless needs and discuss potential strategies for meeting those needs. The City participates in the Coalition on a regular basis.

Further, the Volunteers of America of North Louisiana, a continuum of care member, is addressing homeless persons and those at risk of homelessness through street outreach efforts and permanent housing options. For individuals with a diagnosed mental illness, there are one-time assistance opportunities for rent and/or utilities. Permanent Supportive Housing options are available for up to 15 individuals deemed chronically homeless with a diagnosed mental illness. For families with children, those fleeing domestic violence, and Veterans, there are Rapid Rehousing opportunities for financial assistance with rent and utilities as well as in-home case management services for up to 2 years per individual. Lastly, Volunteers of America has housing financial assistance for up to 6 months for ex-offenders being released from jail/prison into Rapides Parish.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards and evaluate outcomes, and develop funding, policies and procedures for the administration of HMIS

Members of the Continuum of Care work independently and collectively to address community needs.

2. Describe Agencies, groups, organizations and others who participated in the process and describe the jurisdictions consultations with housing, social service agencies and other entities

Name of Plan	Lead Organization	How do the goals of your Strategic Plan overlap with the goals of each plan?
2009 Revitalization Master Plan with Addendum	City of Alexandria	In the 2009 Revitalization Master Plan, as amended in 2020, the City identified a number of neighborhoods in need of revitalization. The proposed actions called for removal of blighted properties, reclamation of vacant and abandoned properties, and the development of new housing. The goals and strategies of this Strategic Plan continue to address the same issues identified in the 2009 Revitalization Master Plan.
2014 ThinkAlex Resiliency Plan	City of Alexandria	In 2014, the city completed a community planning effort that included transportation, land use, housing, zoning, and a revision of the municipal development code. The goals of this Strategic Plan will be guided and influenced by the findings and recommendations of the ThinkAlex plan.
2014 Comprehensive Economic Development Strategy	Kisatchie Delta Planning Development District	This plan used as a source of data used to determine priorities and needs related to economic development.

Table 3 – Other local / regional / federal planning efforts

Describe cooperation and coordination with other public entities, including the State and any adjacent units of general local government, in the implementation of the Consolidated Plan (91.215(l))

The City consulted with Rapides Parish, the City of Monroe, and Calcasieu Parish in the development of this Consolidated Plan.

Narrative (optional):

PR-15 Citizen Participation – 91.105, 91.115, 91.200(c) and 91.300(c)

1. Summary of citizen participation process/Efforts made to broaden citizen participation
Summarize citizen participation process and how it impacted goal-setting

As part of the planning process, the City conducted a number of public meetings and hearings in order to gauge the needs of the community, especially those of residents within the identified target area described in SP-10.

In addition to the public meetings, the City also convened a Citizen's Advisory Committee. The citizen advisory committee meetings are posted on the official bulletin board of the City and published in the legal section of the official journal for the City. All meetings are held in accessible locations. The committee includes two representatives from the targeted, plus one representative for each of the five following constituencies: Elderly/Handicapped, Youth, Persons with HIV/AIDS, Mentally Disabled, and Homeless. No comments were received.

The City also conducted a public hearing on June 11, 2020 to collect public input on the draft Consolidated Plan. Before the public hearing, the City published a notice stating the plan was available for review and a thirty day comment period.

Citizen Participation Outreach

2	Public Hearing	Non-targeted/broad community	A public hearing was held on June 11, 2020 to gather comments from the public.	[SUMMARIZE ANY COMMENTS]	All comments were accepted.	
4	Citizen Advisory Meeting	Targeted Outreach	Citizen Advisory meetings were held to collect targeted stakeholder input.	Comments were received on community needs	All comments were accepted.	
5	Community Focus Groups	Targeted Outreach	Four community focus groups were held on the topics of affordable housing, services, landlord relations, and the real estate market between March 4 and 6, 2020.	Affordable housing that is decent and safe is top of mind for many of the participants across all of the focus groups. Substandard rental properties, vacant lots, dilapidated structures was a common theme	All comments were accepted.	

Demo

Sort Order	Mode of Outreach	Target of Outreach	Summary of response/attendance	Summary of comments received	Summary of comments not accepted and reasons	URL (If applicable)
6	Community Online Survey	Non-targeted outreach.	An online community survey was open from February 10 – March 10, 2020. The survey was available in English and Spanish.	A total of fifty-four (54) responses were received. The survey explored issues related to housing choice, barriers and challenges facing respondents related to housing, and explored the ways in which people had experienced discrimination. The priority challenge for those responding to the survey was the cost of housing at 69%. The physical condition of their neighborhoods and the crime that often comes with abandoned buildings was also something that was of concern for over half of respondents (58%).	All comments were accepted.	

Demo

Sort Order	Mode of Outreach	Target of Outreach	Summary of response/attendance	Summary of comments received	Summary of comments not accepted and reasons	URL (If applicable)
7	Stakeholder Interviews	Targeted outreach	The City contacted ten stakeholders for their local perspective on issues address in the Consolidated Plan.	The interviews explored issues related to housing, public services, economic development, infrastructure, community revitalization, fair housing, and fair housing housing choice.	All comments were accepted.	

Table 4 – Citizen Participation Outreach

Needs Assessment

NA-05 Overview

Needs Assessment Overview

In order to ensure the most efficient and effective use of resources the City of Alexandria must first assess the needs of the community. In this section, the City's various demographic and economic indicators will be described and analyzed to provide the foundation needed for grant management.

Developing a picture of the current needs in the City begins by looking at broad trends in population, income, and household demographics. Once that data has been gathered, they can be examined with a more nuanced analysis of variables, such as how family and household dynamics relate to race and housing problems.

A key goal of the Needs Assessment section is to identify the nature and prevalence of housing problems experienced by the City's residents. Per HUD's definition, there are four housing problems that are assessed:

- Cost-Burden, which is defined as households who spend 30% or more of their income on housing costs
- Lack of Complete Plumbing
- Lack of Complete Kitchen Facilities
- Overcrowding

In addition to the demographics analyzed, this section also looks at factors that impact or are impacted by the housing market. The City's public housing needs of those facing homelessness, and non-homeless special needs are also discussed. Finally, non-housing development needs like public services and infrastructure are also analyzed to assist in determining where resources should be allocated.

Whenever possible, each of these issues is juxtaposed with economic and demographic indicators to determine if certain groups carry a disproportionate burden. Understanding the magnitude and prevalence of these issues in the City of Alexandria is crucial to setting evidence-based priorities for entitlement programs.

Data Note: Many fields in this document are populated automatically by the IDIS system. In order to provide the most accurate and up-to-date analysis, additional data sources are often used.

NA-10 Housing Needs Assessment - 24 CFR 91.205 (a,b,c)

Summary of Housing Needs

The housing needs of a community are, like all items in the market economy, a product of supply and demand. However, determining the factors that impact supply and demand is much more complicated than building one house for one household. Changes in population, household size, availability of rental housing, income, and the condition of a property all work to shift the community's housing needs.

Demographics	Base Year: 2000	Most Recent Year: 2017	% Change
Population	46,342	47,954	3%
Households	17,856	17,983	1%
Median Income	\$26,097.00	\$36,997.00	42%

Table 5 - Housing Needs Assessment Demographics

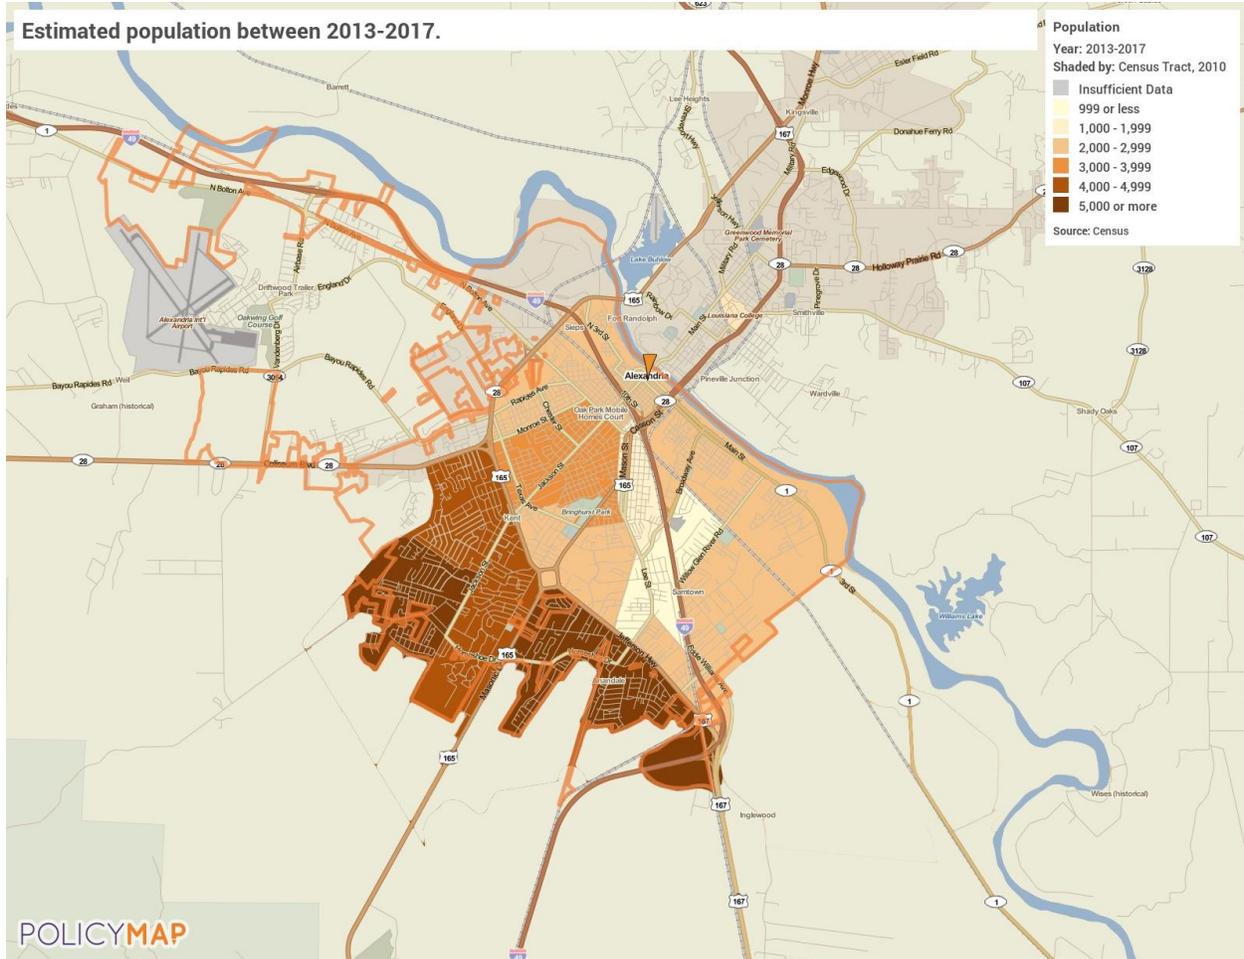

Alternate Data Source Name:
2000 Census, 2013-2017 ACS
Data Source Comments:

Since 2000, the population of Alexandria has grown slightly. In nearly two decades it has grown by approximately 1,500 people, which represents approximately 3.5% growth. The number of households has grown by less than 150, or 0.7%. This points to an increasing average household size in the City.

Residents have a 41.8% higher median household income than they did in 2000. Unfortunately, due to inflation residents actually have less buying power. In 2000, the median household income of \$26,097 had a buying power of \$37,544 in 2017 dollars. Financially, residents are, on average, worse off now than they were, which can lead to increases in poverty and substandard living.

Population

The following map displays the population density throughout the City. Overall, there appears to be a concentration of residents in the southwest tracts of the City. These tracts have 4,000 or more people. Every ten years the US Census Bureau redraws the census tract boundaries with the intention of putting approximately 4,000 people in each tract. The high and low tracts may represent population shifts since 2000.

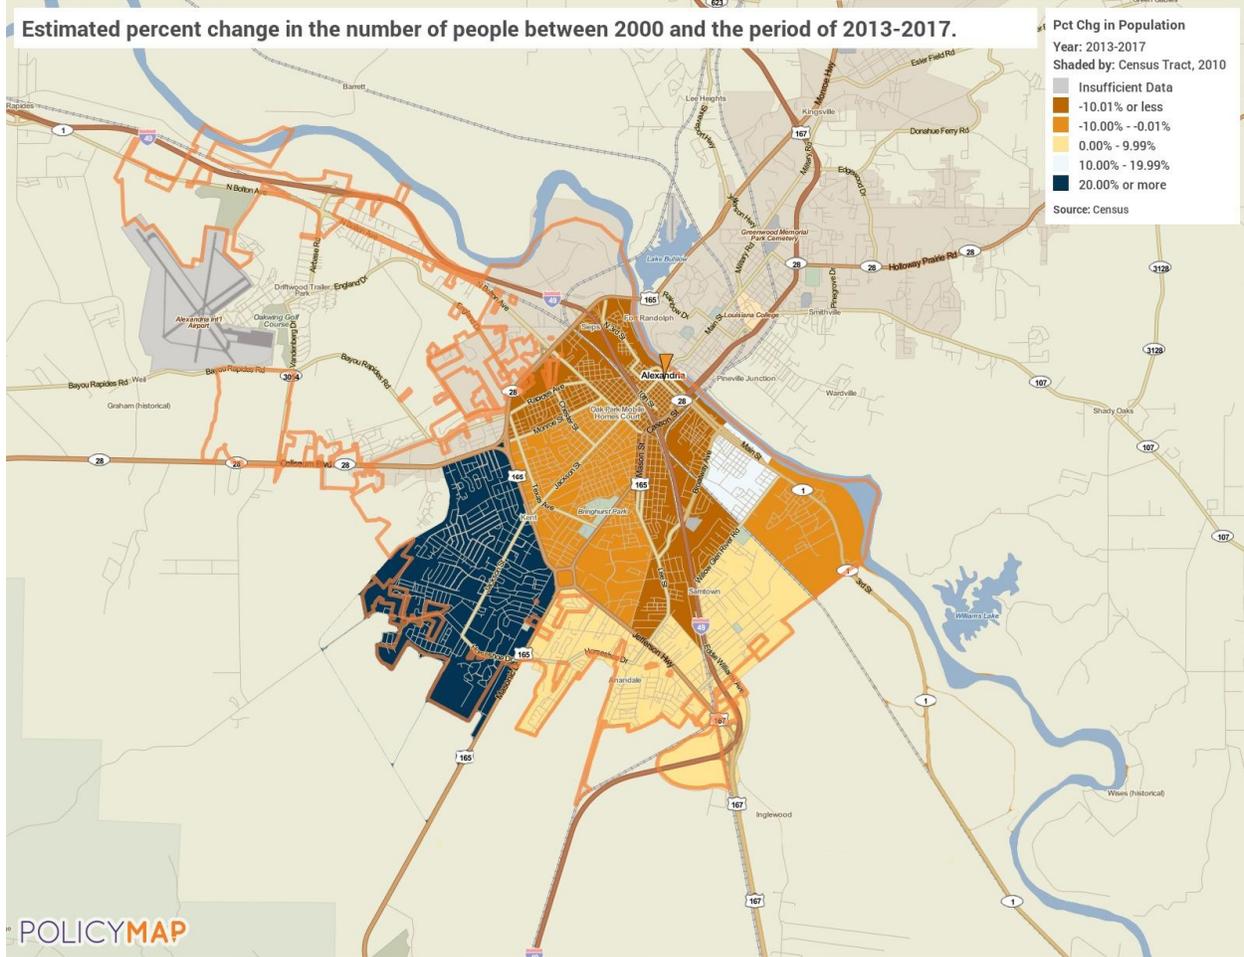

Population

Change in Population

As noted above, the City's population grew by approximately 3.5% since 2000. That growth was not uniform throughout the City. Nearly all the City's growth happened in one area, the southwestern tracts, where the population grew by over 20%.

Demo

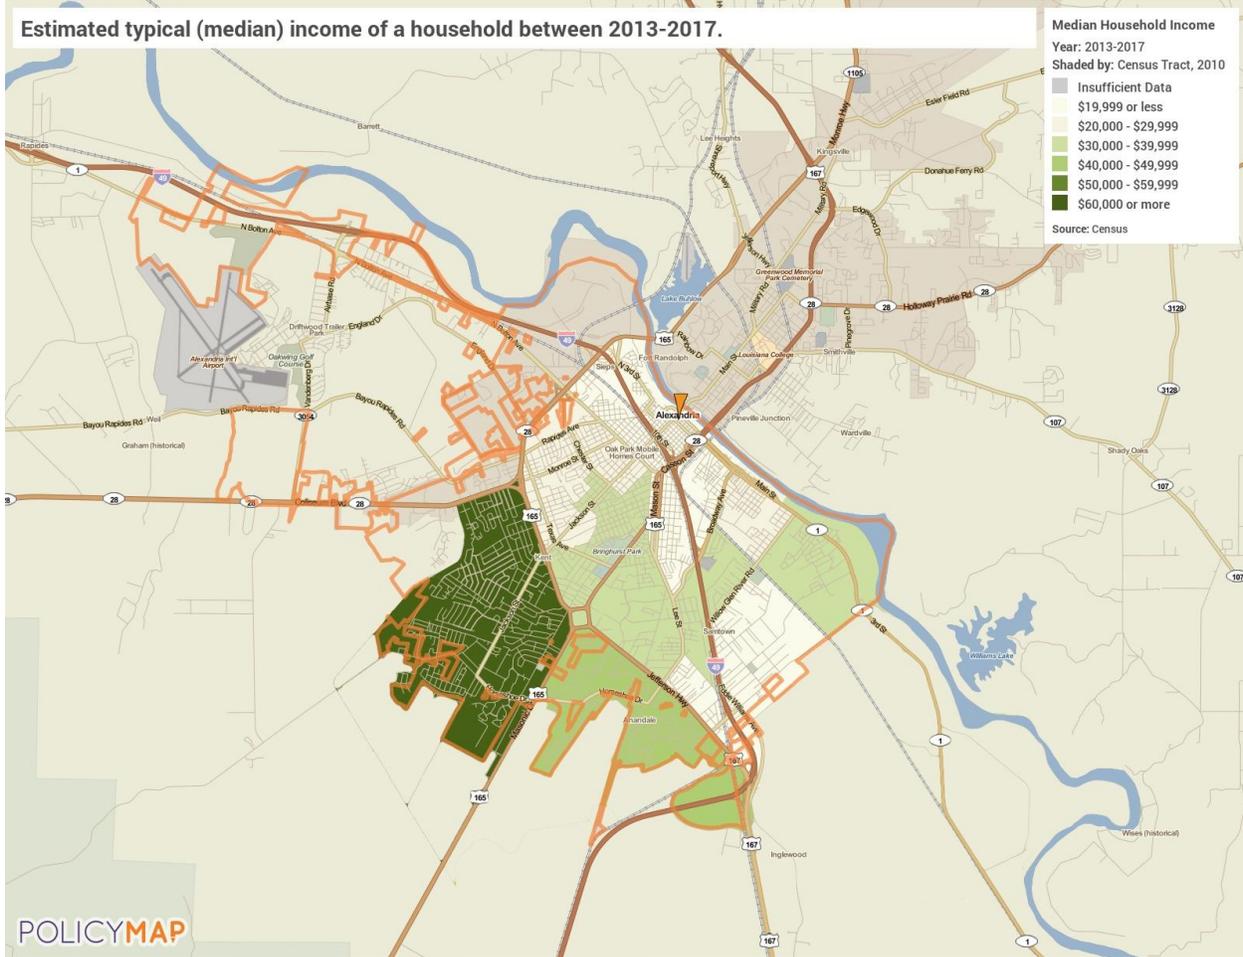

Change in Population

Median Household Income

In the City of Alexandria, a household's income appears to be linked to where that person lives. Tracts in the southwestern part of the City have a significantly higher median household income than those in other parts. These tracts have an MHI is \$60,000 or more and are the same areas that saw the most significant population growth since 2000. These high-income tracts are geographically close to low-income tracts where the MHI is less than \$30,000.

Demo

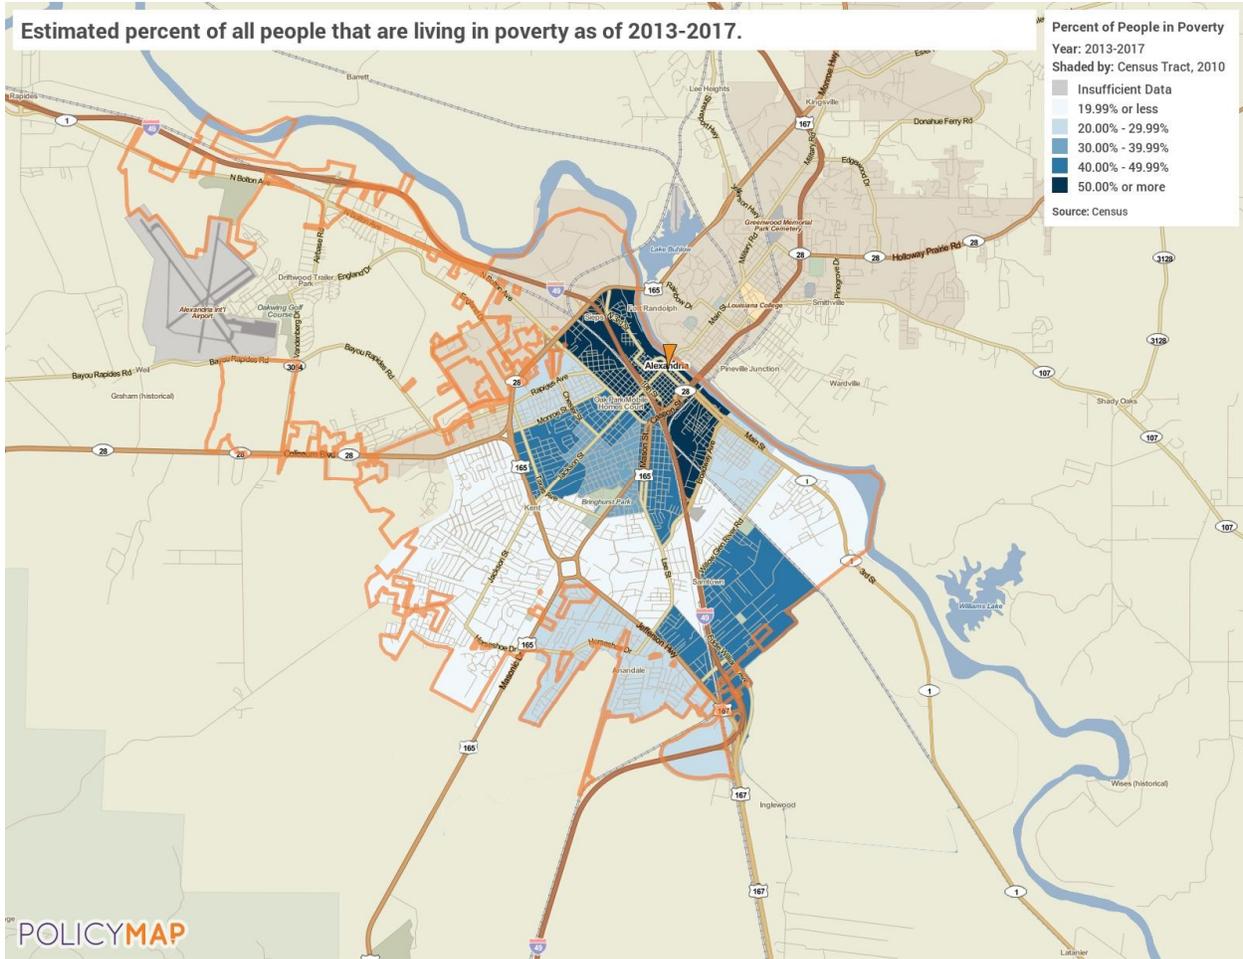

Median Household Income

Poverty

Unsurprisingly, the following map shows that many of the areas with high poverty are also those that were identified above as having a low median household income. The poverty rate in several lower MHI tracts is over 50%, which is significantly higher than the northern tracts where the poverty rate is less than 20%.

Demo

Comments:

Housing Needs Summary

The table above gives an overview of housing problems in the City. Using 2016 CHAS data, it provides the numbers of households experiencing each category of housing problem, broken down by income ranges (up to 100% AMI), and owner/renter status.

Cost burden is clearly the biggest housing problem in Alexandria in terms of sheer numbers – a common trend in many communities across the state and nation today. According to the above data there were over 4,000 renters and 1,400 homeowners in the 0% to 100% AMI range spending more than 30% of their income on housing costs (100% AMI is the area median income).

2. Housing Problems 2 (Households with one or more Severe Housing Problems: Lacks kitchen or complete plumbing, severe overcrowding, severe cost burden)

	Renter					Owner				
	0-30% AMI	>30-50% AMI	>50-80% AMI	>80-100% AMI	Total	0-30% AMI	>30-50% AMI	>50-80% AMI	>80-100% AMI	Total
NUMBER OF HOUSEHOLDS

2012-2016 CHAS
Data Source
Comments:

Housing Cost-Burdened

The table above displays 2016 CHAS data on cost-burdened households in the Alexandria for the 0% to 80% AMI cohorts.

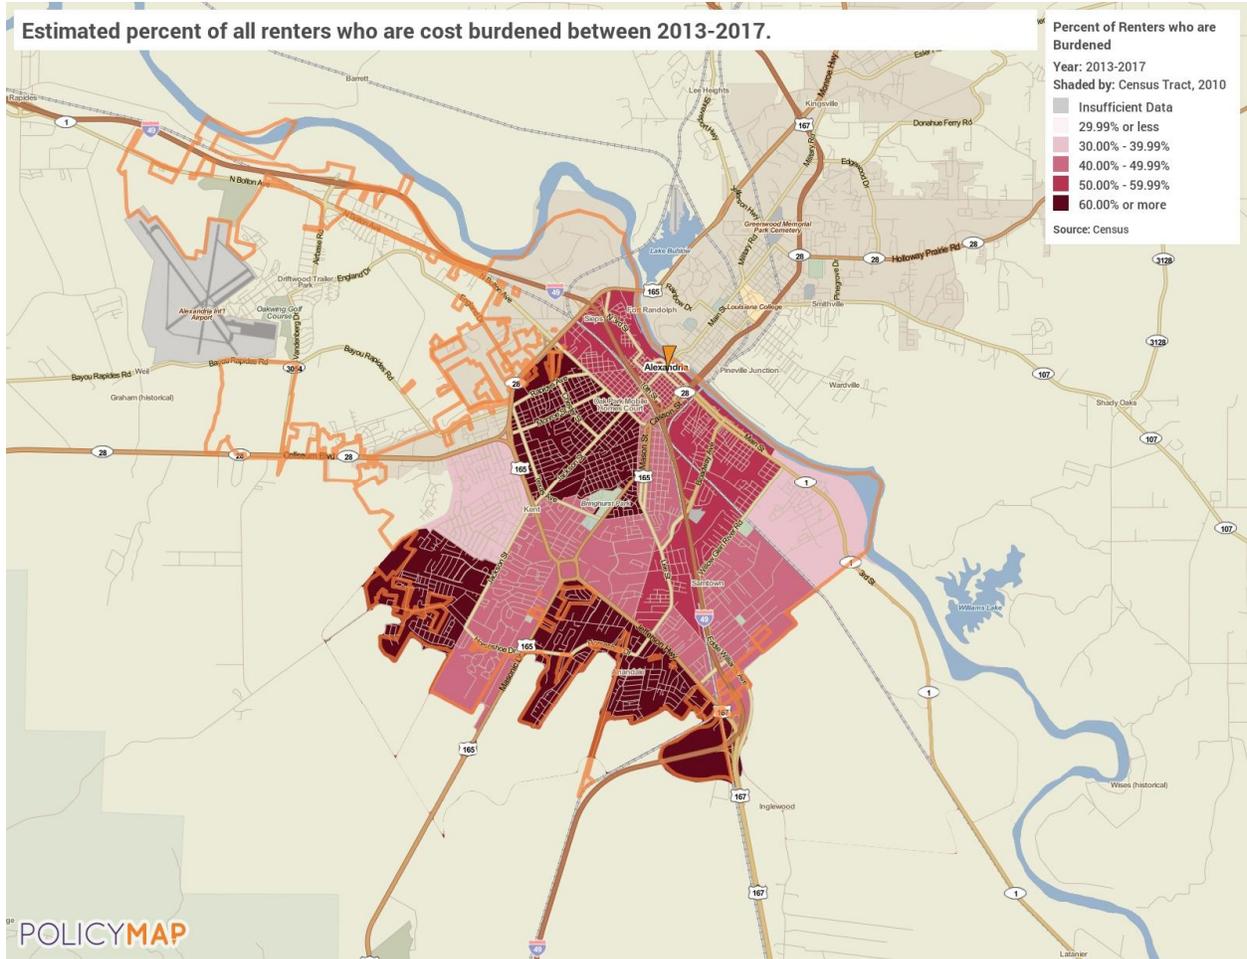

The maps and data above showed that income and poverty appear to be closely tied to geography, which includes clear concentrations in certain areas. There is a similar pattern for cost burdened homeowners. Tracts with high homeowner cost burden rates (40% or more) are in the northern tracts of the City.

Cost-Burdened Homeowner

Cost-Burdened Renter

Cost burdened renters are found throughout the City. Areas with a concentration are found distributed more than cost burdened renters. Several tracts have a high renter cost burden rate with over 60% while very few have less than 40%.

Cost-Burdened Renter

4. Cost Burden > 50%

Table 10 – Cost Burden > 50%

Alternate Data Source Name:
2012-2016 CHAS
Data Source
Comments:

Severe Cost Burden

The data presented above show the severe cost burden in the City, which is defined as paying more than 50% of household income on housing costs. While it is less likely that a household would be severely cost burdened, there are still a significant number of residents who pay over half their income to housing costs alone.

5. Crowding (More than one person per room)

	Renter					Owner

Table 11 – Crowding Information – 1/2

Alternate Data Source Name:
2012-2016 CHAS
Data Source
Comments:

Overcrowding

HUD defines an overcrowded household as one having from 1.01 to 1.50 occupants per room and a severely overcrowded household as one with more than 1.50 occupants per room. This type of condition is rare but can be seen in both renter and homeowner households. There are approximately 238 renters and 220 owner-occupied households, mostly single-family households, that are overcrowded.

Describe the number and type of single person households in need of housing assistance.

According to the 2013-2017 ACS 5 Year Estimates, 33.9% of occupied housing units in Alexandria are single person households. This equates to approximately 6,100 households. Renters are more likely to be single-person households than homeowners. Approximately 39.1% of renters live alone and 29.0% of

homeowners live alone. Residents in this group, who are most at risk of needing housing assistance, are elderly residents. Elderly residents are often on a fixed income and any increase in housing costs puts them at risk of becoming cost burdened or severely cost burdened. In Alexandria, there are approximately 2,425 residents that are 65 years old or older and live alone.

Estimate the number and type of families in need of housing assistance who are disabled or victims of domestic violence, dating violence, sexual assault and stalking.

Disability

As noted above, based on ACS 2013-2017 data, it is estimated that 7,881 people, or 17%, in Alexandria have a disability. Unsurprisingly, age is closely related to the presence of a disability. Over 55% of residents over the age of 75 report dealing with a disability while only 18.9% of residents aged 35-64 years old do. It is likely that all or nearly all of the approximately 3,200 residents over the age of 65 with a disability need housing assistance.

Victims of Violent Crime

It is incredibly difficult to accurately estimate the needs of victims of domestic violence, dating violence, sexual assault, and stalking. These crimes are significantly underreported, particularly when the victim is in a relationship with or related to the offender. These unknowns are why it is imperative for there to be a robust support structure for those that may need assistance.

According to the FBI Uniform Crime Report of 2018, there were a number of crimes reported that may involve residents in need of housing support. Specifically, there were 17 rapes and 528 aggravated assaults reported. Data gathered by the FBI found that over 58% of violent crimes occurred in a home. The City of Alexandria reported 685 violent crimes in 2018, for a violent crime rate of 1,450 per 100,000. That amounts to 1.5% of the population that may need assistance due to being victims of violent crime.

What are the most common housing problems?

Housing Cost Burden is the most common housing problem throughout the City of Alexandria. According to the 2013-2017 American Community Survey 5-Year Estimates, there are 6,505 households that are cost burdened in the City, representing 38.2% of the households. This issue is more prevalent among renters than homeowners with 59.9% of renters cost burdened. Additionally, 47% of all renters pay over 35% of their income to housing costs. By comparison, only 10.4% of homeowners without a mortgage and 27.6% of homeowners with a mortgage are cost burdened.

The other three housing problems are significantly less common. Only 2.5% of households are overcrowded, less than 0.5% lack complete plumbing and less than 2% lack completed kitchen facilities.

Are any populations/household types more affected than others by these problems?

Renters are much more likely to be affected by housing problems than homeowners, particularly cost burden.

The relationship between race, ethnicity, and low-income households with housing problems is discussed later in this document in section MA-50.

Describe the characteristics and needs of Low-income individuals and families with children (especially extremely low-income) who are currently housed but are at imminent risk of either residing in shelters or becoming unsheltered 91.205(c)/91.305(c)). Also discuss the needs of formerly homeless families and individuals who are receiving rapid re-housing assistance and are nearing the termination of that assistance

Nearly sixty percent of the renters in City have rental obligations that consume more than 30% of their household income. This presents an unreasonably large burden on such households; one for which increasing income is the most likely cure. Rents will continue to raise across the country, including Alexandria. Homelessness prevention programs, that assist at-risk renters before they reach an unresolvable impasse with their landlords, needs sufficient support.

According to a study funded by the twelve United Way organizations in Louisiana, "ALICE: Asset Limited, Income Constrained and Employed," 19% of the households in Rapides Parish had incomes at or below the poverty level, but another 28 percent reported incomes above poverty but below the ALICE threshold. For the city of Alexandria, a total of 17,837 households – 55 percent – fell below the ALICE and poverty thresholds.

If a jurisdiction provides estimates of the at-risk population(s), it should also include a description of the operational definition of the at-risk group and the methodology used to generate the estimates:

There is no data for at-risk populations available at this time.

Specify particular housing characteristics that have been linked with instability and an increased risk of homelessness

The factors that contribute to an increased risk of homelessness are as varied as the populations served by the programs available to address them. Lack of sufficient income or the employment stability needed to generate adequate income is a key element. Health issues (both mental and physical) and the lack of education or having job skills that aren't valued or needed by employers can heavily influence the amount of income available to pay for a family's housing. Substance abuse, criminal background, prior evictions, high levels of debt and the loss of benefits (such as housing vouchers or Temporary Assistance for Needy Families (TANF)) can adversely impact the stability of a family's housing

situation. Incidences of domestic violence or human trafficking can also greatly diminish one's ability to afford housing, especially when children are involved.

Discussion

DRAFT

NA-15 Disproportionately Greater Need: Housing Problems – 91.205 (b)(2)

Assess the need of any racial or ethnic group that has disproportionately greater need in comparison to the needs of that category of need as a whole.

Introduction

This section compares the existence of housing problems amongst racial groups against that of the jurisdiction as a whole in an effort to determine if any group(s) share a disproportionate burden of the area's housing problems. For this section, the definition of disproportionately greater need from "Using IDIS to Prepare the Consolidated Plan, Annual Action Plan and CAPER/PER" published May 2018 is used. It states "A disproportionately greater need exists within the members of racial or ethnic group at a given income level experience housing problems at a greater rate (10 percentage points or more) than the income level as a whole.

The following series of tables looks at the existence of housing problems amongst different racial and ethnic groups across the 0%-30%, 30%-50%, 50%-80%, and 80%-100% AMI cohorts.

0%-30% of Area Median Income

Discussion

Extremely Low-Income Households

Residents of the City of Alexandria who earn 30% HUD Area Median Family Income (HAMFI) or less are considered extremely low income. Housing problems for this demographic are incredibly common. Citywide, approximately 65.8% of all extremely low-income households have at least one housing problem, the most common being cost burden.

According to the available data, there are two racial groups that disproportionately have a housing problem. One hundred percent of American Indian or Alaska Native households and 87.3% of Asian households have a housing problem. However, both these populations are relatively small. There are only four American Indian or Alaska Native households and 55 Asian households.

Very Low-Income Households

A household that earns between 30% and 50% HAMFI is classified as very low income. Housing problems are slightly less common for this group than extremely low-income households with 60.4% of the population with a problem.

For this population, there is one group that presents a disproportionate housing problem. Over 81% of Black or African American households have a housing problem, nearly 20% higher than the Citywide rate.

Low Income Households

Housing problems are significantly less common in households that earn between 50% and 80% HAMFI. Citywide, nearly 50% of households in this group have a housing problem. There is one racial group that is disproportionately affected by housing problems. Nearly 80% of American Indian or Alaska Native households in this group have a housing problem. Again, this group is relatively small with only 19 households.

Moderate Income Households

Housing problem rates decline further for this group with only 25% of households who earn 80% to 100% HAMFI having a housing problem. One group, Asian households, is disproportionately impacted by housing problems in this group. According to the available data, 100% of the Asian households in this group have a housing problem. This includes 4 total households.

NA-20 Disproportionately Greater Need: Severe Housing Problems – 91.205 (b)(2)

Assess the need of any racial or ethnic group that has disproportionately greater need in comparison to the needs of that category of need as a whole.

Introduction

This section compares the existence of severe housing problems amongst racial groups against that of the jurisdiction as a whole in an effort to determine if any group(s) share a disproportionate burden of the area's housing problems.

For this section, the definition of disproportionately greater need from "Using IDIS to Prepare the Consolidated Plan, Annual Action Plan and CAPER/PER" published May 2018 is used. It states "A disproportionately greater need exists within the members of racial or ethnic group at a given income level experience housing problems at a greater rate (10 percentage points or more) than the income level as a whole.

The following series of tables looks at the existence of housing problems amongst different racial and ethnic groups across the 0%-30%, 30%-50%, 50%-80%, and 80%-100% AMI cohorts.

0%-30% of Area Median Income

Severe Housing Problems*	Has one or more of four housing problems	Has none of the four housing problems	Household has no/negative income, but none of the other housing problems
Jurisdiction as a whole	1,449	775	408
White	250	170	65
Black / African American	1,130	605	335
Asian	55	0	8
American Indian, Alaska Native	4	0	0
Pacific Islander	0	0	0
Hispanic	10	0	0

Discussion

Extremely Low-Income Households

Residents of the City of Alexandria who earn 30% HAMFI or less are considered extremely low income. Severe housing problems for this demographic are common Citywide, approximately 55.1% of all extremely low-income households have at least one severe housing problem, the most common being cost burden.

Similar to the previous section that analyzed housing problems, there are two racial groups in this income group that are disproportionately impacted by severe housing problems. One hundred percent of American Indian and Alaska Native households have a severe cost housing problem and 87.3% of Asian households. These groups are relatively small with only four and 63 households, respectively.

Very Low-Income Households

Severe housing problems are less common for very low-income households than extremely low-income households with 43.5% of the population with a problem. Asian households face severe housing problems at a disproportionate rate, 100%. This population is relatively small, though. There are only approximately 55 Asian households in this income group.

Low Income Households

For low income households having a severe housing problem is relatively rare. Only 11.0% of households in the City have a severe housing problem. Again, American Indian and Alaska Native Households severe housing problems at a disproportionately high rate, 78.9%, and are a relatively small population, 19 households.

Moderate Income Households

Severe housing problems are very rare for moderate income households. Approximately 4.8% of the households in this group have a severe housing problem. There are no racial or ethnic groups that are disproportionately affected by housing problems for this income group.

DRAFT

NA-25 Disproportionately Greater Need: Housing Cost Burdens – 91.205 (b)(2)

Assess the need of any racial or ethnic group that has disproportionately greater need in comparison to the needs of that category of need as a whole.

Introduction:

HUD defines a disproportionately greater need - housing cost burden when the members of a racial or ethnic group at a given income level experience a housing cost burdens at a greater rate (10% or more) than the income level as a whole. Households who pay more than 30% of their income for housing are considered cost burdened. Households paying more than 50% of their income are considered severely cost burdened.

Housing Cost Burden

Housing Cost Burden	<=30%	30-50%	>50%	No / negative income (not computed)
Jurisdiction as a whole	11,225	3,175	2,825	423
White	5,465	1,135	525	65
Black / African American	5,240	1,930	2,185	350
Asian	240	110	85	8
American Indian, Alaska Native	100	0	20	0
Pacific Islander	10	0	0	0
Hispanic	170	0	10	0

Table 20 – Greater Need: Housing Cost Burdens AMI

Alternate Data Source Name:
2012-2016 CHAS
Data Source Comments:

Discussion:

Housing cost burden is a significant problem in the City of Alexandria. According to the CHAS data, there are nearly 6,000 households that are cost burdened, nearly half of which pay 50% or more of their income to housing cost. Approximately 18.4% of all households, in the City, pay between 30% and 50% and 16.4% pay over 50% of their income to household costs. There are no groups disproportionately impacted by cost burden due to race or ethnicity.

NA-30 Disproportionately Greater Need: Discussion – 91.205(b)(2)

Are there any Income categories in which a racial or ethnic group has disproportionately greater need than the needs of that income category as a whole?

Overall, there is not a significant disproportionate need based on race or ethnicity by income category. When the available data identifies groups that are disproportionately impacted the sample size is small and may have a high margin of error.

Disproportionate Housing Problems:

- Extremely Low Income: Asian and American Indian or Alaska Native
- Very Low Income: Black or African American
- Low Income: American Indian or Alaska Native
- Moderate Income: Asian

Disproportionate Severe Housing Problems:

- Extremely Low Income: Asian and American Indian or Alaskan Native
- Very Low Income: Asian
- Low Income: American Indian or Alaska Native
- Moderate Income: None

Cost Burden: None

Extreme Cost Burden: None

If they have needs not identified above, what are those needs?

No additional needs have been identified.

Are any of those racial or ethnic groups located in specific areas or neighborhoods in your community?

Race and ethnicity are often linked to economic opportunities and the area of a jurisdiction where people live. This issue is discussed in detail in Section MA-50.

NA-35 Public Housing – 91.205(b)

Introduction

Public housing was established to provide decent and safe rental housing for eligible low-income families, the elderly and persons with disabilities. Public housing comes in all types and sizes from scattered single-family homes to high-rise apartment developments for elderly families. The US Department of Housing and Urban Development (HUD) administered Federal aid to manage public housing for low-income families at affordable rates.

The Alexandria Housing Authority (AHA) is the local public housing authority in the City of Alexandria. The ARHA receives allocations from the City, as well as funding from HUD to administer affordable housing programs. These programs include Housing Choice Vouchers and development and modernization of new public housing units.

Table 24 – Ethnicity of Public Housing Residents by Program Type

Data Source: PIC (PIH Information Center)

Section 504 Needs Assessment: Describe the needs of public housing tenants and applicants on the waiting list for accessible units:

As a PHA receiving federal funding by HUD, AHA is by law, obligated to protect the rights of persons with disabilities. AHA is compliant with federal and state laws that provide protection to persons with disabilities, including Section 504 of the Rehabilitation Act of 1973 and in particular, 24 CFR Part 8 implementing Section 504, and 24 CFR Part 100 implementing the Fair Housing Act. Further, AHA will make any reasonable accommodation to its public housing apartments when it is necessary to allow for a person with any disability to live and enjoy housing through AHA. AHA will also make reasonable accommodations to its policies, programs and services, when they are necessary to allow persons with a disability to enjoy, participate or have access to the housing authority's programs and services.

Most immediate needs of residents of Public Housing and Housing Choice voucher holders

The most immediate need of residents of Public Housing and Housing Choice voucher holders is availability of affordable units. Without a sufficient supply of these units, beneficiaries face immediate hardship finding housing.

How do these needs compare to the housing needs of the population at large

There is a much greater and ongoing need for affordable housing for residents in public housing than in the general population. Residents in public housing are more likely to be very low-income and therefore more severely cost burdened than the general population.

The elderly may require housing accommodations due to the nature of elderly persons being more likely to be disabled than the general population. Elderly are also more likely to be living on fixed incomes, which means any change in housing costs affects affordability to them more than the general population.

NA-40 Homeless Needs Assessment – 91.205(c)

Introduction:

Homelessness is a particularly troublesome and complex issue that most communities across the United States must address. A major reason that homelessness is difficult to address is that it has many causes with overlapping and interrelated variables. The cause of any single person's homelessness often lies, not in a single factor, but at the convergence of many events and conditions. From one perspective, homelessness is an economic problem caused by unemployment, lack of affordable housing options, or poverty. From another perspective, homelessness is a health issue because many homeless persons struggle with mental illness, physical disabilities, HIV/AIDS, substance abuse, or a combination of those health factors. A third perspective is to view homelessness as a social problem with factors such as domestic violence, educational attainment, and race lying at the root. In reality, homelessness can be caused by all of these issues and they are often interrelated. Due to this complexity, addressing homelessness requires a collaborative and community-based approach.

The Stewart B. McKinney Homeless Assistance Act defines the "homeless" or "homeless individual" or "homeless person" as an individual who lacks a fixed, regular, and adequate night-time residence; and who has a primary night-time residence that is:

- A supervised publicly or privately-operated shelter designed to provide temporary living accommodations (including welfare hotels, congregate shelters, and transitional housing for the mentally ill);
- An institution that provides a temporary residence for individuals intended to be institutionalized; or
- A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

The data below is from the 2018 Point-in-Time (PIT) Count, which was taken on the night of January 22, 2018. The PIT count shows a snapshot of people experiencing homelessness on any given night in the jurisdiction, of which on that night was 177 people. In the table below, the first three rows categorize the sheltered and unsheltered homeless count, and the rest of the rows are sub-categories of the homeless count.

Homeless Needs Assessment

Population	Estimate the # of persons experiencing homelessness on a given night		Estimate the # experiencing homelessness each year	Estimate the # becoming homeless each year	Estimate the # exiting homelessness each year	Estimate the # of days persons experience homelessness
	Sheltered	Unsheltered				
Persons in Households with Adult(s) and Child(ren)	25	0	0	0	0	0
Persons in Households with Only Children	0	0	0	0	0	0
Persons in Households with Only Adults	99	53	0	0	0	0
Chronically Homeless Individuals	10	18	0	0	0	0
Chronically Homeless Families	0	0	0	0	0	0
Veterans	24	2	0	0	0	0
Unaccompanied Child	1	1	0	0	0	0
Persons with HIV	0	0	0	0	0	0

Table 25 - Homeless Needs Assessment

Data Source Comments: 2018 Point-in-Time (PIT) Count, January 22, 2018.

Indicate if the homeless population is: Has No Rural Homeless

Demo

If data is not available for the categories "number of persons becoming and exiting homelessness each year," and "number of days that persons experience homelessness," describe these categories for each homeless population type (including chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth):

Chronically Homeless Individuals and Families:

The chronically homeless are more likely to be experiencing a disability (physical and cognitive), have a history of substance abuse, and be unsheltered. According to the 2018 PIT Count, there were 28 total persons reported as chronically homeless, none of whom were in a family. Approximately 65% of the chronically homeless were unsheltered.

Households with Adults and Children:

There were 9 households with adults and children comprising of a total of 25 persons. Working to get children out of homelessness will greatly improve the future success of the children in the area. Increased exposure to homelessness will cause harm to the development of children due to the lack of housing stability and the increased risk of living in poverty which include hunger and the lack of access to healthcare.

Veterans and Their Families:

Veterans are more likely to have a disability than non-veterans and this is also true for homeless veterans. There were 24 veterans in shelters and two unsheltered.

Unaccompanied Youth:

Youth that are alone and experiencing homelessness may be caused from any issue such as a death in the family or fleeing from a crisis. Similar to households with adults and children, increased exposure to homelessness will cause harm to the development of children due to the lack of housing stability and the increased risk of living in poverty which include hunger and the lack of access to healthcare. According to the 2018 PIT Count, there were two unaccompanied youth, one sheltered and one unsheltered.

Nature and Extent of Homelessness: (Optional)

Race:	Sheltered:	Unsheltered (optional)
White	84	19
Black or African American	39	32
Asian	0	0
American Indian or Alaska Native	0	0
Pacific Islander	0	0
Ethnicity:	Sheltered:	Unsheltered (optional)
Hispanic	2	0
Not Hispanic	122	53

Data Source

Comments:

2018 Point-in-Time (PIT) Count, January 22, 2018.

Estimate the number and type of families in need of housing assistance for families with children and the families of veterans.

See above question.

Note: The above table did not provide an option for residents that are two or more races. There were three in the report, one sheltered and two unsheltered.

Describe the Nature and Extent of Homelessness by Racial and Ethnic Group.

Black or African Americans make up 40% of the persons experiencing homelessness and over 45% of them are unsheltered. This is a significantly higher rate of unsheltered residents than other groups. White residents make up 43% of the residents facing homelessness but only 35% of the unsheltered. Only two residents facing homelessness identify as Hispanic, both of whom are sheltered.

Describe the Nature and Extent of Unsheltered and Sheltered Homelessness.

Sheltered homeless are persons who are residing in emergency shelter units or transitional housing. Over 70% of those who participated in the 2018 PIT count were sheltered.

Unsheltered homeless are much more difficult to count, and it's probable that this group has been under reported. Unsheltered homeless reside in places not meant for human habitation. These places include cars, abandoned buildings and on the streets.

NA-45 Non-Homeless Special Needs Assessment - 91.205 (b,d)

Introduction:

There are four primary groups with non-homeless special needs in the jurisdiction. They are the elderly and frail elderly, those with HIV/AIDS and their families, those with alcohol and/or drug addiction, and the mentally or physically disabled. This section will explain who they are, what their needs are, and how the City is accommodating or should accommodate these needs.

Describe the characteristics of special needs populations in your community:

Elderly: The elderly population faces increased challenges. Providing decent, affordable housing is incredibly important. It is medically beneficial and emotionally comforting for this population to remain in a familiar setting and, as a result, strong emphasis is placed on the elderly maintaining a lifestyle that is as independent as possible. Unfortunately, the elderly population is often on a limited income and/or has a disability, which puts financial pressure on them that reduces independence. As prices throughout the community inflate, the elderly population generally lacks the ability to increase their income to match.

According to the most recent data available, there are approximately 10,600 residents over the age of 60 in the City, making up approximately 22.1% of the population. Approximately 40.1% of the residents over the age of 60 have a disability and 16.8% are below the poverty level. Elderly residents are less likely to live in renter-occupied residences than owner-occupied residences, 30.4% and 69.6%, respectively. Approximately 52.1% of elderly renters and 20.8% of owners are cost burdened.

HIV/AIDS: See discussion below.

Alcohol and Drug Addiction: Gathering accurate data about alcohol and drug addiction within a community is difficult. Addiction often goes unrecognized because people don't seek help due to fear of criminal charges and/or the social stigma associated with addiction and other medical issues. Often only when someone overdoses, gets arrested, or seeks treatment is this issue recognized. In 2017, there were 29 drug related deaths in Rapides Parish, a rate of 22 per 100,000. In Rapides Parish 4.59% of the population 12 years old or older reported non-medical use of pain relievers and 2.91% reported drug dependence.

Disability: As noted above, based on ACS 2013-2017 data, it is estimated that 7,881 people, or 17%, in Alexandria has a disability. Unsurprisingly, age is closely related to the presence of a disability. Over 55% of residents over the age of 75 report dealing with a disability while only 18.9% of residents aged 35-64 years old do. It is likely that all or nearly all of the approximately 3,200 residents over the age of 65 with a disability need housing assistance.

What are the housing and supportive service needs of these populations and how are these needs determined?

Elderly: Providing secure, safe, affordable, and stable housing for the elderly population is vitally important for this population. There are many factors that contribute to a healthy environment for the elderly including, but not limited to, access to health care, shopping, and social networks. A robust public transportation network is incredibly beneficial to assisting the elderly remain active and independent. Additionally, elderly resident's homes may need modifications to assist with any disabilities that may develop as a result of aging.

HIV/AIDS: See discussion below.

Alcohol and Drug Addiction: Individuals with substance abuse problems need a strong network in order to stay healthy and sober. Their housing needs include sober living environments, support for employment, access to health facilities, and easy access to family and friend networks. Additionally, detoxification facilities are necessary when addiction is first recognized.

Disability: Individuals with disabilities encompass a wide range of skill levels and abilities. Therefore, they have many of the same issues as the general population with the added needs that are unique to their capabilities. Individuals with disabilities usually have a fixed income and have limited housing options. The individuals who have more independent skills tend to utilize subsidized housing options. Individuals requiring more support find residences in the public welfare funded community homes either in sharing settings or privately-owned personal care settings. Many individuals continue to reside with parents and families throughout adulthood. Regardless of the housing situation, a common thread is the need for continuous support services dependent of the level of capabilities.

Discuss the size and characteristics of the population with HIV/AIDS and their families within the Eligible Metropolitan Statistical Area:

The Louisiana Department of Health conducts the annual HIV/STD Surveillance Program for the State. Region 6 includes the City of Alexandria and breaks down data by County. According to the 2018 report, there were 48 reported cases in 2018 in Rapides County, making up 66% of the diagnoses in the region.

In 2018, approximately 70% of new diagnoses were individuals who were classified as male at birth. Over half of the diagnosis were black or African American residents even though this group makes up only 27% of the regionwide population. The largest age group with new diagnoses was the 25-34 years old group with 36%.

NA-50 Non-Housing Community Development Needs – 91.215 (f)

Describe the jurisdiction's need for Public Facilities:

Complete when needs determined

How were these needs determined?

The jurisdiction's Public Facility needs were determined through consultation with the general public, key stakeholders, and regional experts.

Describe the jurisdiction's need for Public Improvements:

Complete when needs determined

How were these needs determined?

The jurisdiction's Public Improvement needs were determined through consultation with the general public, key stakeholders, and regional experts.

Describe the jurisdiction's need for Public Services:

Complete when needs determined

How were these needs determined?

The jurisdiction's Public Services needs were determined through consultation with the general public, key stakeholders, and regional experts.

Housing Market Analysis

MA-05 Overview

Housing Market Analysis Overview:

The previous section provided the demographic information that is necessary to complete a comprehensive Market Analysis. Using the previously gathered data, this section will begin looking closely at the housing market. A number of important indicators, including trends in available types of housing, prices, age, and tenure, will be analyzed to help determine the best use of grant funds by the City of Alexandria.

Additionally, this section includes factors that are not directly related to the supply and demand for housing in the City. These factors include:

1. Public Housing
2. Homeless Services
3. Special Needs Facilities
4. Community Development
5. Employment

Finally, this section will conclude with a discussion of the overall needs for the community and transition into the 5-Year Strategic Plan.

MA-10 Number of Housing Units – 91.210(a)&(b)(2)

Introduction

This section examines the composition of the City's housing stock in terms of housing type and tenure. As noted in the Needs Assessment, simply having enough units for each household is not sufficient to meet demand. A variety of housing units must be available in a range of sizes and prices, for both homeowners and renters, in order to provide housing for all the City's residents and their changing needs.

All residential properties by number of units

Property Type	Number	%
1-unit detached structure	15,114	69%
1-unit, attached structure	601	3%
2-4 units	2,498	11%
5-19 units	2,356	11%
20 or more units	765	3%
Mobile Home, boat, RV, van, etc	534	2%
<i>Total</i>	<i>21,868</i>	<i>100%</i>

Table 26 – Residential Properties by Unit Number

Alternate Data Source Name:
2013-2017 ACS 5-Yr Estimates
Data Source Comments:

Residential Properties by Number of Units

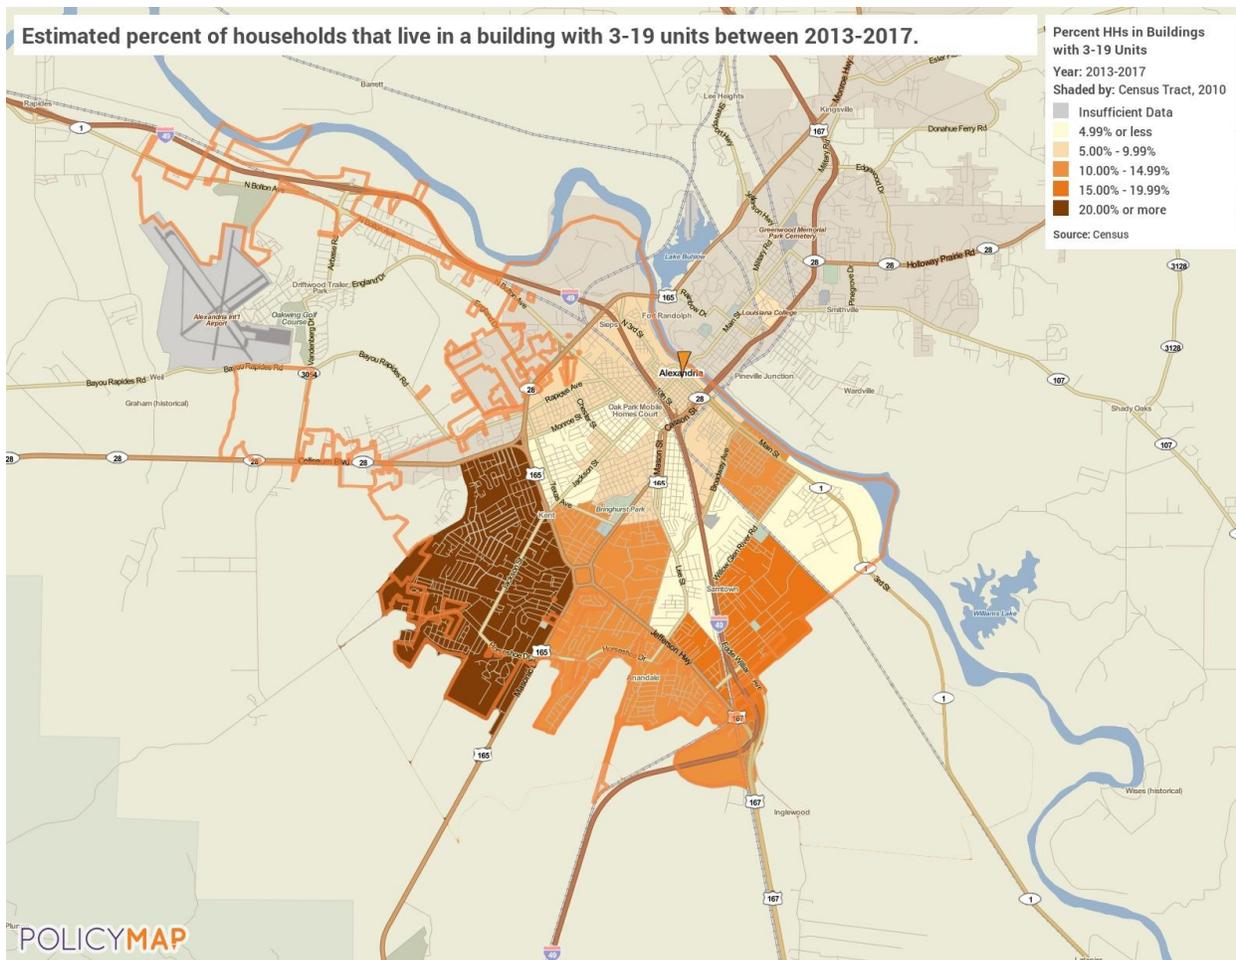

The table above breaks down the City's housing stock by the number of units in each structure and by structure type. One-unit detached structures are the most common housing type, by far, with nearly 70% of the housing stock. There is a lack of multi-family properties in the City, particularly large properties with 20 or more units. Multi-family properties generally have units that are more affordable to both renters and homeowners and a lack of them may contribute to the overall financial difficulties in the City.

Multifamily Development Distribution

The three maps below display the distribution of small, medium and large multifamily developments in the jurisdiction.

Small multifamily developments (3-19 units) are most commonly found in the southwest part of the City where they make up over 20% of the housing stock. As noted in the Needs Assessment, these tracts are also the tracts with the highest median income and population growth.

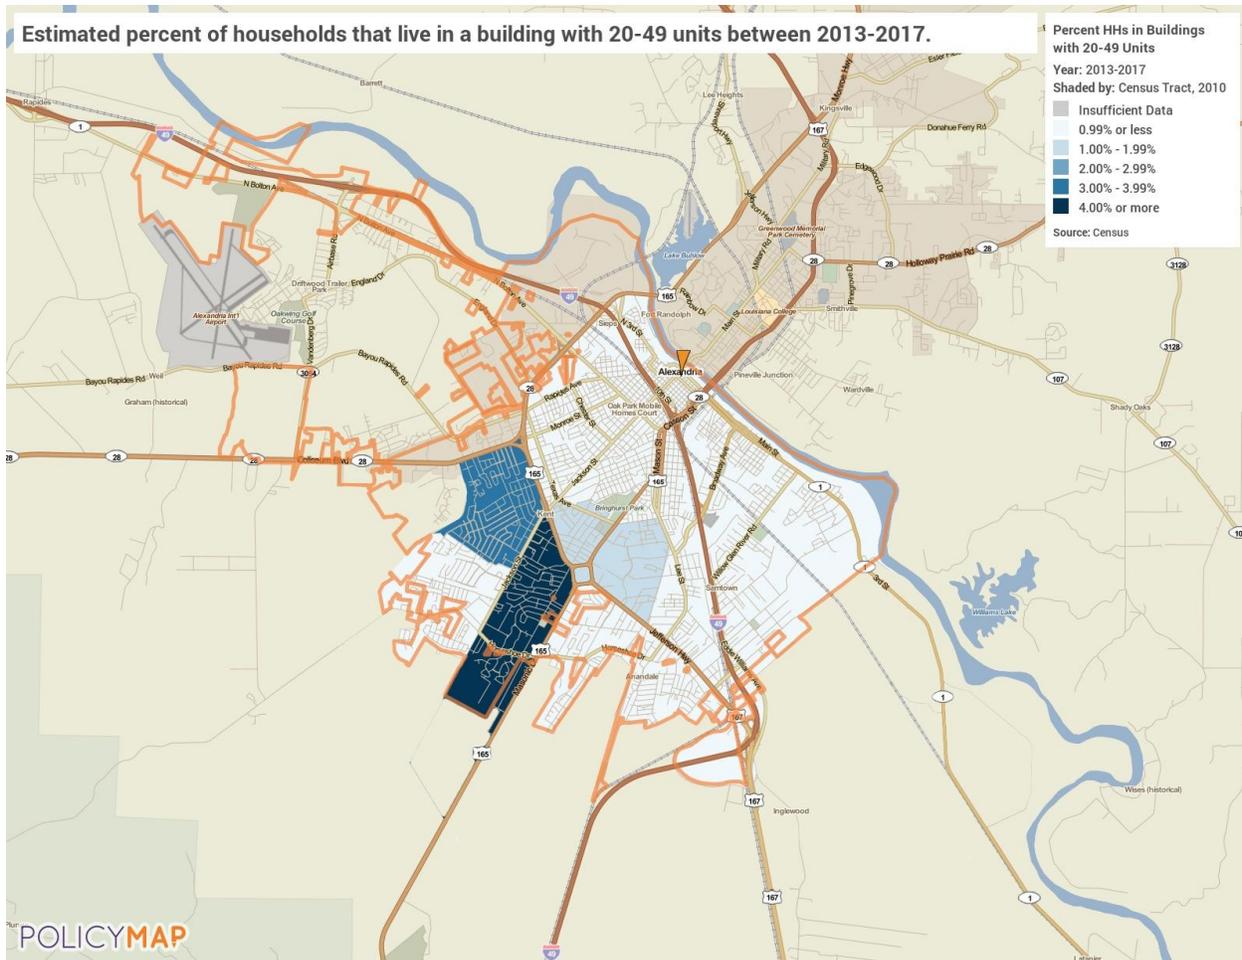

Source: 2013-2017 American Community Survey 5-Year Estimates

Small Multifamily Developments

Medium Multifamily Developments

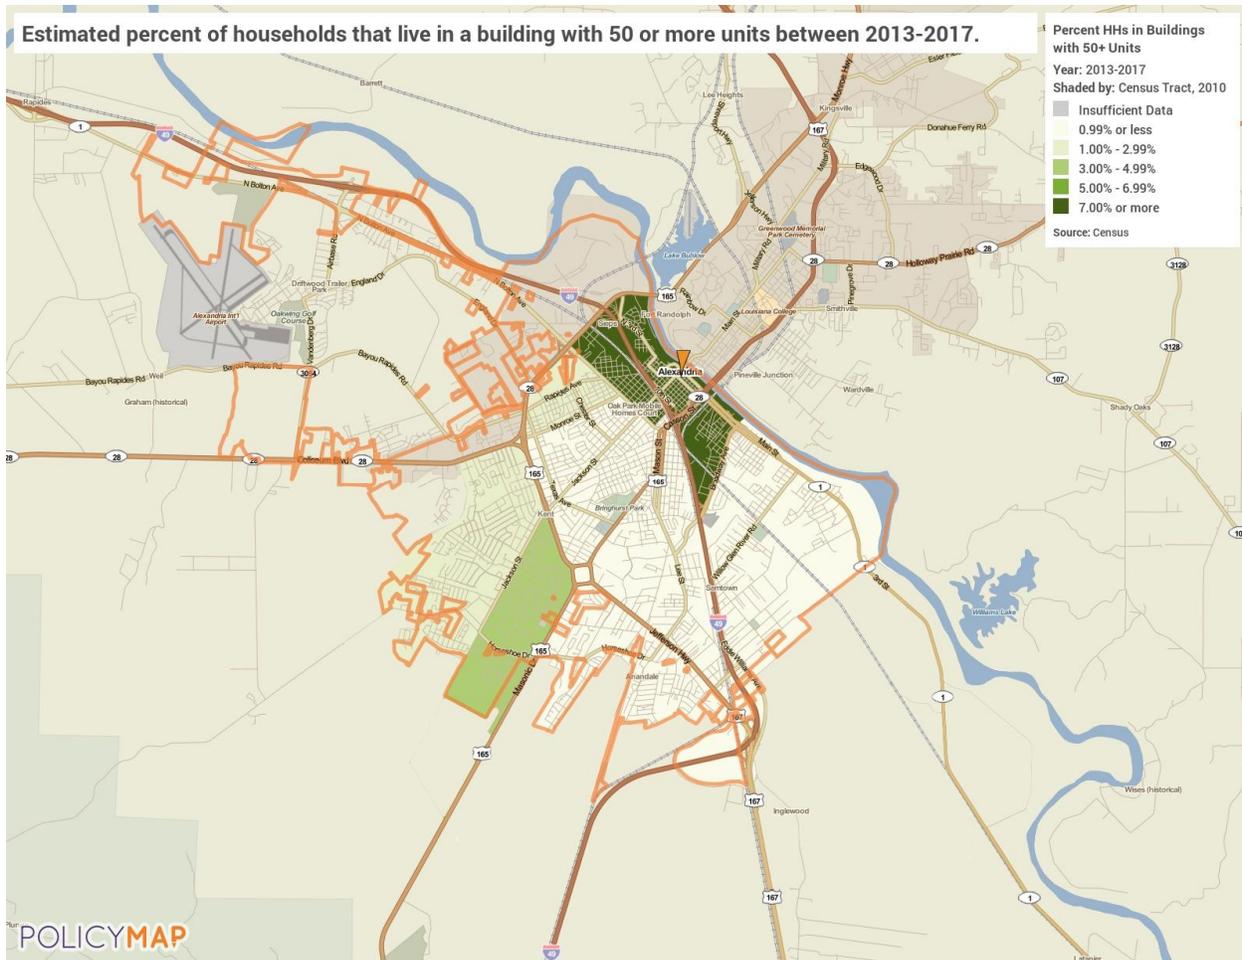

Medium multifamily (20-49 units) developments are significantly less common than small multifamily developments. The tracts with relatively high number of these properties only have approximately 4% of its housing stock in medium multifamily developments. The variation between tracts is incredibly small.

Medium Multifamily Developments

Large Multifamily Developments

Large multifamily developments (50+ units) are slightly more common than medium but less common than small. Tracts in the northeastern part of the City have a relatively large number of units in developments with 50 or more units, over 7%. The majority of the City, however, has less than 1% of the housing units from these large developments.

Large Multifamily Developments

Unit Size by Tenure

	Owners		Renters	
	Number	%	Number	%
No bedroom	17	0	224	3
1 bedroom	51	1	1456	17
2 bedrooms	1339	14	3620	42
3 or more bedrooms	7861	85	3415	39
<i>Total</i>	<i>9268</i>	<i>100</i>	<i>8715</i>	<i>100</i>

Table 27 – Unit Size by Tenure

Alternate Data Source Name:
2013-2017 ACS 5-Yr Estimates
Data Source Comments:

Unit Size by Tenure

Given the prevalence of single unit detached structures in the City, it is unsurprising that very few units have either no bedrooms or one bedroom. Larger units with three or more bedrooms are common for

both renters and homeowners. However, there is some variation in housing size by tenure. Larger units make up nearly 85% of owner-occupied units, the largest group by far. Renters, on the other hand, have only approximately 40% of the housing stock in this larger size. Over half of renters live in a 1- or 2-bedroom unit while only approximately 15% of owners do.

Source: 2013-2017 American Community Survey 5-Year Estimates

Describe the number and targeting (income level/type of family served) of units assisted with federal, state, and local programs.

Information will be added during the SP/AP process

Provide an assessment of units expected to be lost from the affordable housing inventory for any reason, such as expiration of Section 8 contracts.

According to the HUD Section 8 and Multifamily database there are four properties in the City of Alexandria with contracts.

Alexandria VOA Living:

1. Expires in 2020

5. Section 8

Does the availability of housing units meet the needs of the population?

No, there is a lack of decent affordable units throughout the jurisdiction. From a quantitative standpoint, there may be an ample number of units to house the population. However, there is a lack of housing variety that would make housing more affordable. Multifamily developments allow for lower unit costs that are necessary to alleviate cost burden and to assist transitioning from renting to home ownership.

Describe the need for specific types of housing:

Currently, the City has a need for affordable housing options and housing variety within the owner-occupied and renter-occupied market. In particular, there is a lack of smaller units available for residents who may not need 3 or more bedrooms in a starter home and renters who may need larger units with more than 2 bedrooms.

MA-15 Housing Market Analysis: Cost of Housing - 91.210(a)

Introduction

The following section examines the cost of housing for both homeowners and renters within the City of Alexandria. A review is made of current home values and rents as well as the recent changes in home values and rents. Finally, a closer look is given to the affordability of the existing housing stock for the residents of the jurisdiction.

Cost of Housing

	Base Year: 2000	Most Recent Year: 2017	% Change
Median Home Value	72,200	137,900	91%
Median Contract Rent	466	792	70%

Table 28 – Cost of Housing

Alternate Data Source Name:
2000 Census, 2013-2017 ACS
Data Source Comments:

Rent Paid	Number	%
Less than \$500	3,422	12%
\$500-999	7,018	25%
\$1,000-1,499	11,921	42%
\$1,500-1,999	4,757	17%
\$2,000 or more	1,233	4%
<i>Total</i>	<i>28,351</i>	<i>100%</i>

Table 29 - Rent Paid

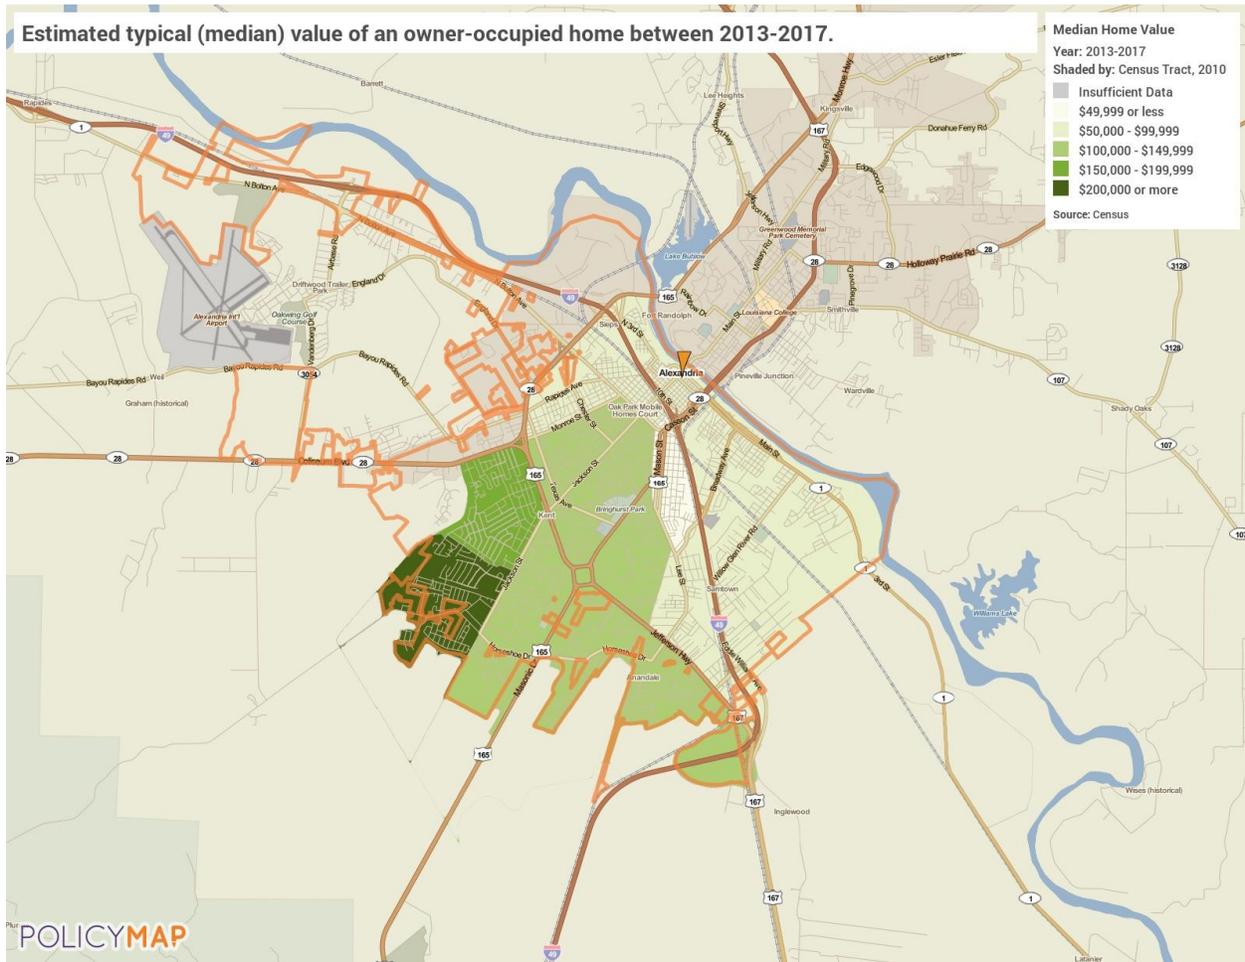

Alternate Data Source Name:
2013-2017 ACS 5-Yr Estimates
Data Source Comments:

Housing Costs

Housing value and rents have increased substantially in the City since 2000. The reported average home value has increased by nearly 91%. However, this is not necessarily representative of what a potential homeowner in the City would actually pay for the property. This increase in value is a good economic indicator for homeowners because it represents an increase in assets that can compensate for the reduced purchasing power in the City. However, renters who are interested in purchasing a home are going to face more difficulty now than they did in 2000.

The map below shows the median home value by census tract throughout the City. The southwestern part of the City has the highest home values, this is also where the City has experienced the most growth in population.

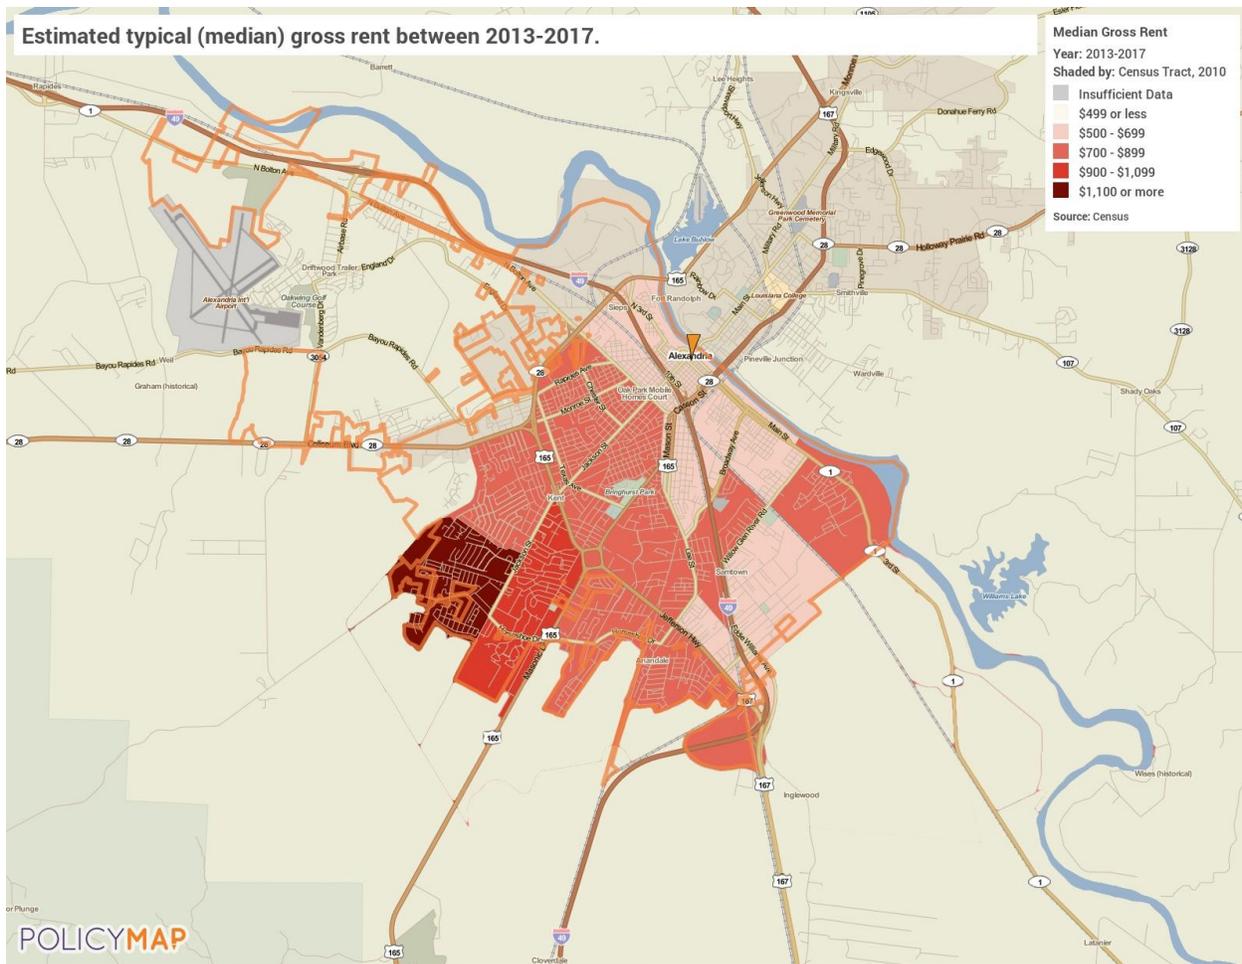

Source: 2013-2017 American Community Survey 5-Year Estimates

Median Home Value
Median Rent

Rents have increased in the City by 70% since 2000. Renters, unlike property owners, do not benefit from increasing housing value. Given the increase in rents and decreased purchasing power it is likely renters are increasingly cost burdened and less likely to be able to arrange for the down payment and other expenses required to become a homeowner.

The map below displays the median rent by census tract. The highest median rents are found in the same general area as high home values. In the southwestern tracts the median rent is over \$1,100, a significant difference than nearby tracts with a median rent of less than \$700.

Median Rent

Housing Affordability

% Units affordable to Households earning	Renter	Owner
30% HAMFI	445	No Data
50% HAMFI	1,515	915
80% HAMFI	5,114	2,565
100% HAMFI	No Data	3,594
<i>Total</i>	<i>7,074</i>	<i>7,074</i>

Table 30 – Housing Affordability

Data Source: 2011-2015 CHAS

Housing Affordability

Lower income groups have a significant need for affordable housing. Very low-income residents (30%-50% HAMFI) have only 1,960 renter units available. This relatively low number makes it difficult for residents in this income group to become homeowners. As well, there are less than 1,000 owner units available for very low-income residents.

Monthly Rent

Monthly Rent (\$)	Efficiency (no bedroom)	1 Bedroom	2 Bedroom	3 Bedroom	4 Bedroom
Fair Market Rent	499	623	777	1,020	1,184
High HOME Rent	499	623	777	969	1,061
Low HOME Rent	499	540	648	749	836

Table 31 – Monthly Rent

Alternate Data Source Name:
HUD 2019 FMR and HOME Rents
Data Source Comments:

HUD FMR and HOME Rent Limit

Fair Market Rents (FMRs) are set by HUD and used to determine payment standard amounts for HUD Programs. HUD annually estimates FMRs for the Office of Management and Budget (OMB) defined metropolitan areas, some HUD defined subdivisions of OMB metropolitan areas and each nonmetropolitan county. HOME Rents Limits are based on FMRs published by HUD. HOME Rent Limits are the maximum amount that may be charged for rent in HOME-assisted rental units and are applicable to new HOME leases.

Median Household Income	Number of Households	Affordable Rent Rate	Rental Units Available	Affordable Home Value	Owner Units Available	Total Units	Difference
Less than \$25,000	6,042	Less than \$625	2,021	Less than \$75,000	1,940	3,961	-2,081
\$25,000 to \$49,999	5,089	\$625 to \$1,250	5,222	\$75,000 to \$150,000	3,186	8,408	3,319
\$50,000 to \$74,999	2,644	\$1,250 to \$1,875	674	\$150,000 to \$225,000	2,170	2,844	200
\$75,000 to \$99,999	1,511	\$1,875 to \$2,500	54	\$225,000 to \$300,000	994	1,048	-463
\$100,000 or More	2,680	\$2,500 or More	74	\$300,000 or More	979	1,053	-1,627

Affordable Housing for LMI Residents

Is there sufficient housing for households at all income levels?

No, there is not. In the City of Alexandria, the FMR for a two-bedroom apartment is \$777. In order to afford this level of rent and utilities without paying more than 30% of income on housing, a household must earn approximately \$2,590 monthly or \$31,080 annually. Assuming a 40-hour work week, 52 weeks per year, this translates into a minimum "Affordable Housing Wage" of \$14.94/hour.

Residents who make less than \$25,000 annually have the greatest difficulty finding affordable housing. According to the data there are 2,081 fewer units available than needed. However, the situation is

worse than that. When possible, households will work to minimize their costs and those with higher incomes can acquire units that are below their maximum affordability. Higher income residents may be more attractive tenants than lower income residents and may reside in the limited affordable housing for low-income residents.

See table above: Affordable Housing for LMI Residents

How is affordability of housing likely to change considering changes to home values and/or rents?

As noted in the above analysis, from 2000 to 2017, median home values and rents both increased. The continued high price of both owner-occupied and rental housing reduces the ability of low-income households to find affordable housing. In addition, there are a high number of owner-occupied and renter-occupied households that are cost burdened. If housing construction and rehabilitation cannot keep up with those that go off the market and population growth, then the affordable housing issue will continue to worsen.

How do HOME rents / Fair Market Rent compare to Area Median Rent? How might this impact your strategy to produce or preserve affordable housing?

The median contract rent in Alexandria is \$792. That level of rent is between a 2-bedroom and 3-bedroom unit for both the Fair Market Rent and High HOME Rent. For the Low HOME Rent the median contract rent is between a 3-bedroom and 4-bedroom unit. Being aware of the fair market rents and available housing will help inform which projects are supported by grant funds.

MA-20 Housing Market Analysis: Condition of Housing – 91.210(a)

Introduction

The tables and maps in this section provide details on the condition of housing units throughout the region by looking at factors such as age, vacancy, and the prevalence of housing problems.

As defined by HUD, the four housing problems are:

- 1) a home which lacks complete or adequate kitchen facilities
- 2) a home which lacks complete or adequate plumbing facilities
- 3) a home which is overcrowded (having more than one person per room)
- 4) a household that is cost burdened (paying 30% or more of their income towards housing costs)

Definitions

For the purposes of this plan, units are considered to be in “standard condition” when the unit is in compliance with the local building code, which is based on the International Building Code.

The definition of substandard housing is a housing unit with one or more serious code violations. For the purposes of this analysis, the lack of a complete plumbing or a complete kitchen will also serve as an indicator of substandard housing.

Units are considered to be in “substandard condition but suitable for rehabilitation” when the unit is out of compliance with one or more code violations and it is both financially and structurally feasible to rehabilitate the unit.

Condition of Units

Condition of Units	Owner-Occupied		Renter-Occupied	
	Number	%	Number	%
With one selected Condition	1,835	20%	4,407	51%
With two selected Conditions	40	0%	300	3%
With three selected Conditions	0	0%	0	0%
With four selected Conditions	8	0%	0	0%
No selected Conditions	7,385	80%	4,008	46%
<i>Total</i>	<i>9,268</i>	<i>100%</i>	<i>8,715</i>	<i>100%</i>

Table 32 - Condition of Units

Alternate Data Source Name:
2013-2017 ACS 5-Yr Estimates
Data Source Comments:

Housing Conditions

The table above details the number of owner and renter households that have at least one housing condition. As stated previously, HUD describes four housing conditions as being problems: 1) the home lacks complete or adequate kitchen facilities, 2) the home lacks complete or adequate plumbing facilities 3) the home is overcrowded - defined as more than one person per room, 4) the household is cost burdened by paying more than 30% of their income towards housing costs.

Nearly 20% percent of all owner-occupied housing units face at least one housing condition while over 50% of all renters have at least one housing condition. Generally speaking, there are relatively few households with multiple housing problems and when compared to the affordability statistics provided earlier in this section, it is clear that the overwhelming majority of housing problems are a housing cost burden.

Year Unit Built

Year Unit Built	Owner-Occupied		Renter-Occupied	
	Number	%	Number	%
2000 or later	1,437	16%	1,121	13%
1980-1999	1,492	16%	1,395	16%
1950-1979	5,113	55%	4,834	55%
Before 1950	1,226	13%	1,365	16%
<i>Total</i>	<i>9,268</i>	<i>100%</i>	<i>8,715</i>	<i>100%</i>

Table 33 – Year Unit Built

Alternate Data Source Name:
2013-2017 ACS 5-Yr Estimates
Data Source Comments:

Year Unit Built

The housing age for renters and homeowners show very similar distribution. Approximately 31.6% of owner-occupied units and 28.9% of renter occupied units were built since 1980. Units built prior to 1980 have the risk of lead-based paint and special care must be taken when addressing these properties. In total, there are approximately 12,500 units that are at risk of a lead-based paint hazard.

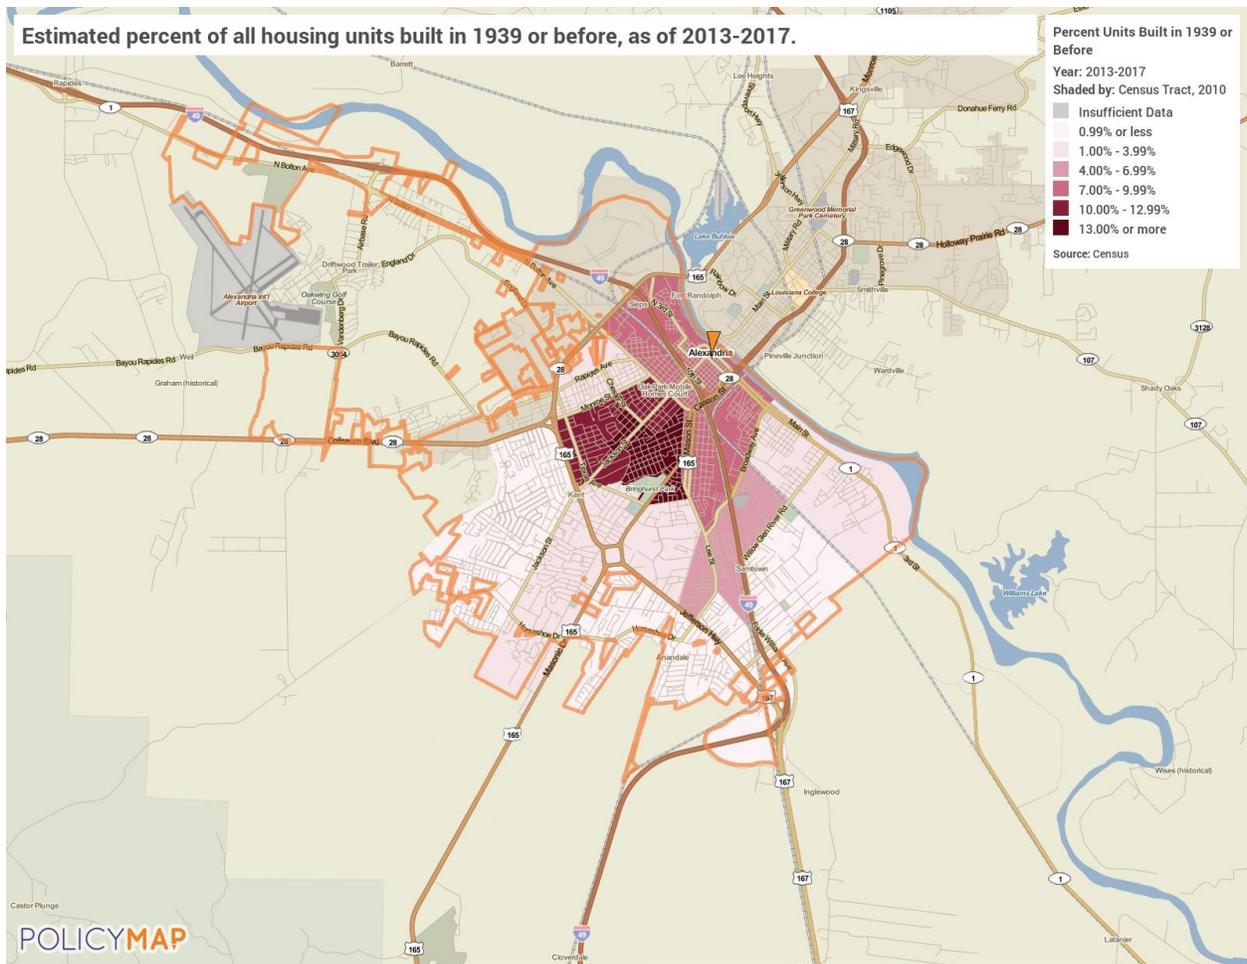

Source: 2013-2017 American Community Survey 5-Year Estimates

Age of Housing

The maps below depict the prevalence of older housing units in the City.

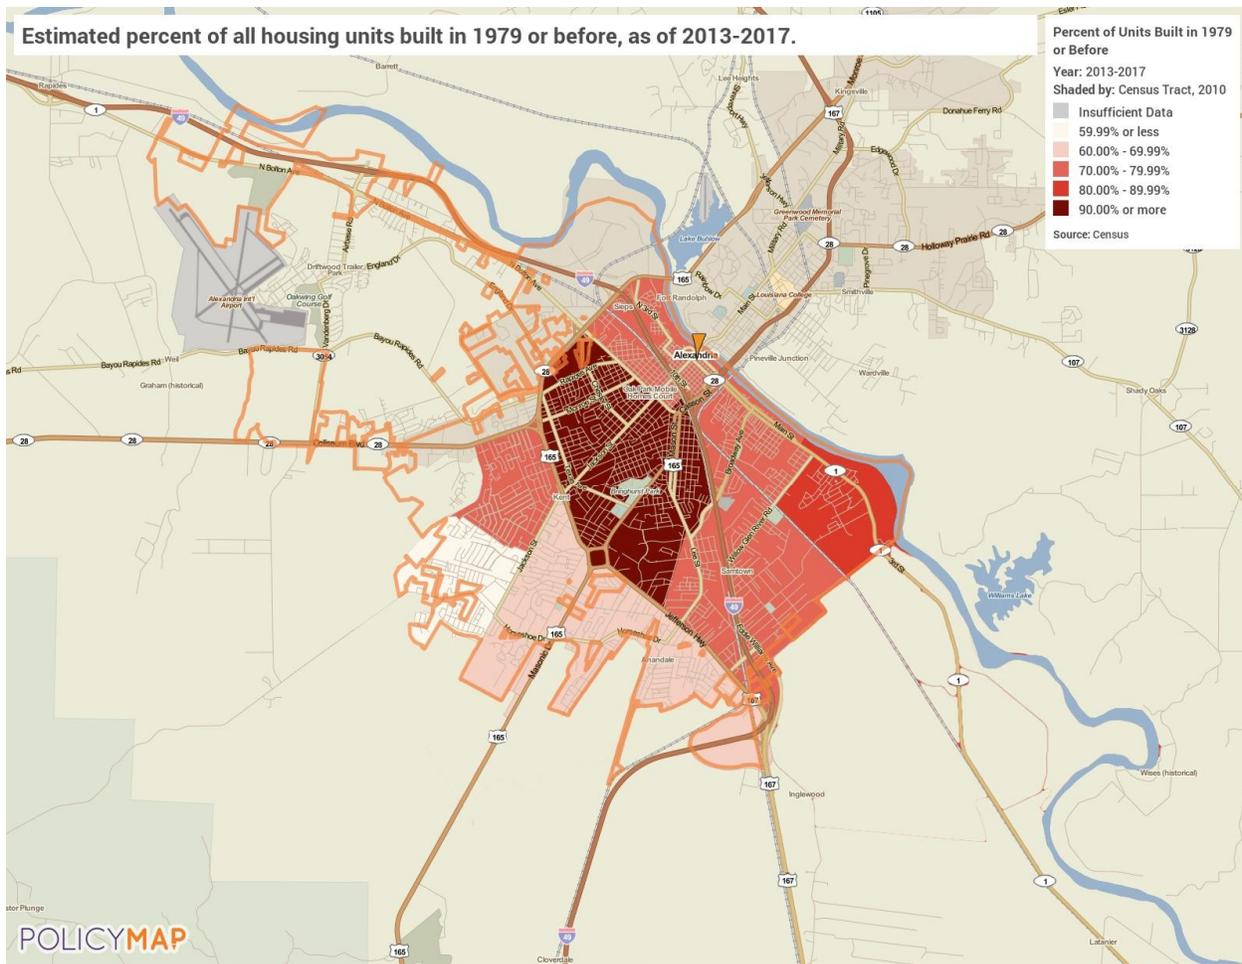

Units built prior to 1940 are heavily concentrated in the downtown area. In tracts towards the south on the outer edges of the City fewer than 1% of homes were built prior to 1940.

Source: 2013-2017 American Community Survey 5-Year Estimates

Housing Units Built Before 1940

Units built before 1980 are found primarily in the downtown tracts and along the river to the east. Southwestern tracts have relatively few homes of this age, however they still make up between 60% and 70% in some areas. This supports the previously identified pattern of the southwestern tracts growing relatively recently when compared to other places and newer housing is in that area.

Housing Units Built Before 1980

Risk of Lead-Based Paint Hazard

Risk of Lead-Based Paint Hazard	Owner-Occupied		Renter-Occupied	
	Number	%	Number	%
Total Number of Units Built Before 1980	6,210	67%	5,700	65%
Housing Units build before 1980 with children present	1,012	11%	358	4%

Table 34 – Risk of Lead-Based Paint

Data Source: 2011-2015 ACS (Total Units) 2011-2015 CHAS (Units with Children present)

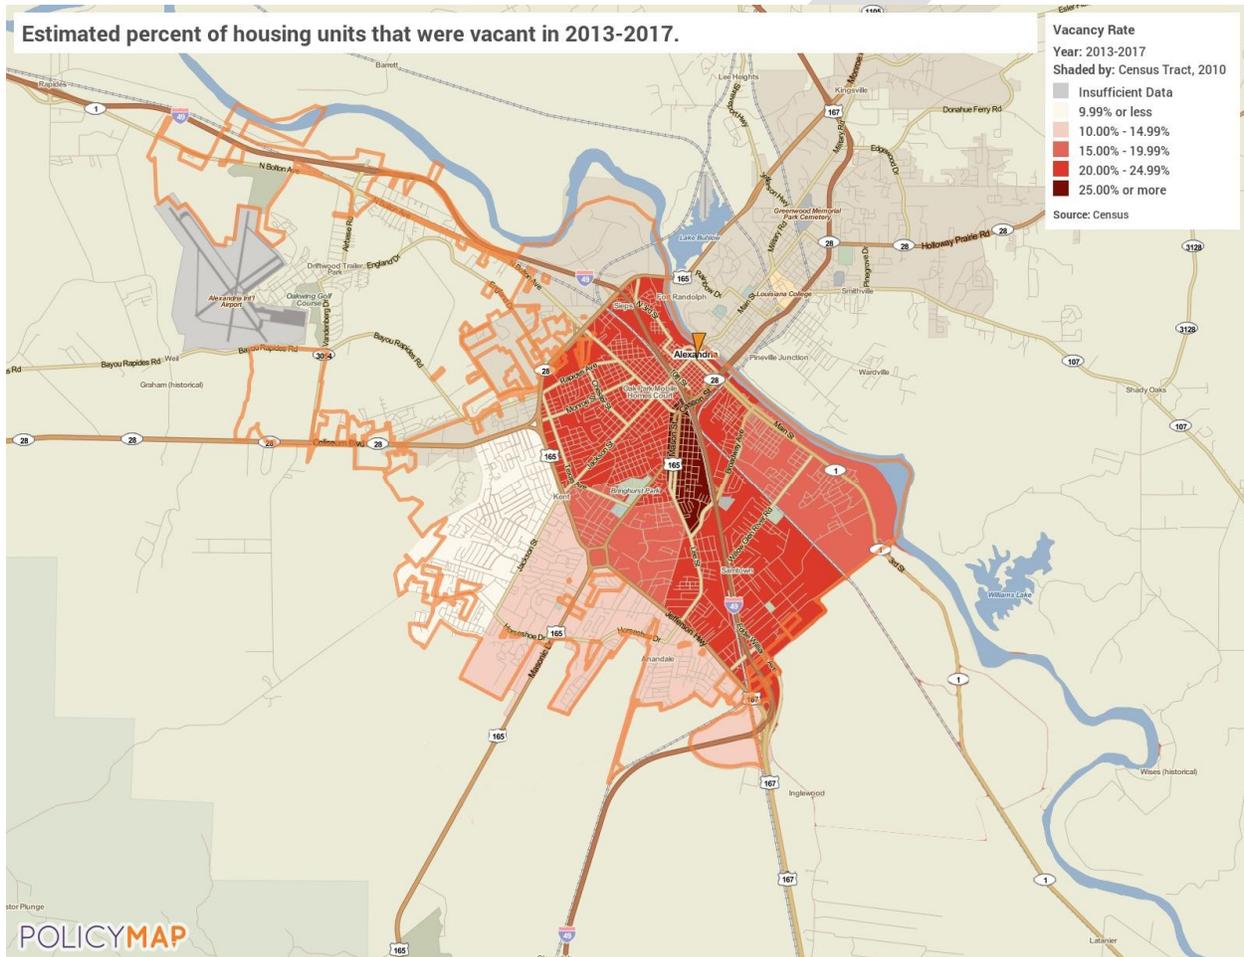

Lead-Based Paint Hazard

As mentioned previously, any housing unit built prior to 1980 may contain lead-based paint in portions of the home. The most common locations are window and door frames, walls, and ceilings, and in some cases throughout the entire home. Thus, it is generally accepted that these homes at least have a risk of lead-based paint hazards and should be tested in accordance with HUD standards. The greatest potential for lead-based paint and other environmental and safety hazards is in homes built before 1980. Within the City there are 12,500+ housing units built before 1980.

Vacancy Rate

The map below shows the average housing vacancy rates throughout the City. The darker shaded areas have higher vacancy rates, while the lighter shaded areas have lower vacancy rates. Vacancy is most common in the downtown area where it is over 20% in many places.

Source: 2013-2017 American Community Survey 5-Year Estimates

Vacancy Rate

Need for Owner and Rental Rehabilitation

Based on the analysis of data, the City's need for owner and rental rehabilitation are based on the older age of a significant portion of both the rental and owner housing stock, the high number of owner and renter units at risk for lead exposure occupied by families with children, and the high number of renter and owner units identified as having one or more substandard conditions.

Estimated Number of Housing Units Occupied by Low or Moderate Income Families with LBP Hazards

For the purposes of this analysis, housing built prior to 1980 will be used to estimate the number of housing units with a lead-based paint hazard. Based on the above information, there are 6,339 owner-occupied units and 6,119 renter-occupied units with a potential hazard. Given that older units are usually more affordable than newer units it is estimated that LMI families occupy most of the units built prior to 1980.

DRAFT

MA-25 Public and Assisted Housing – 91.210(b)

Introduction

Alexandria Housing Authority (AHA) administers public housing and the Housing Choice Vouchers (HCV) program in the city. As part of the consolidated planning process, the City assessed the number and condition of public housing developments within the City.

Totals Number of Units

	Program Type									
	Certificate	Mod-Rehab	Public Housing	Vouchers						
				Total	Project -based	Tenant -based	Special Purpose Voucher			
							Veterans Affairs Supportive Housing	Family Unification Program	Disabled *	
# of units vouchers available			590	1,114				175	0	0
# of accessible units										

*includes Non-Elderly Disabled, Mainstream One-Year, Mainstream Five-year, and Nursing Home Transition

Table 35 – Total Number of Units by Program Type

Data Source: PIC (PIH Information Center)

The map below displays the percent of households in a census tract that use Housing Choice Vouchers. The tract to the southeast stands out as having a relatively large population that uses vouchers, over 12%. The southwest area where homes are newer and incomes are higher did not have sufficient data to determine the number of residents, if any, with vouchers.

Distribution of HCVs

Describe the supply of public housing developments:

Describe the number and physical condition of public housing units in the jurisdiction, including those that are participating in an approved Public Housing Agency Plan:

HUD provides physical inspection scores for PHA developments across the country. The physical condition scoring process is based on three elements within the property, which are:

1. Inspectable areas: site, building exterior, building system, common areas and dwelling units;
2. Inspectable items: walls, kitchens, bathrooms and other things to be inspected in the inspectable area;
3. Observed deficiencies.

A score of 55 or below means that the property is in poor condition, and properties in excellent condition have a score of 90 and over. There is one property (3220A Wonderwood Drive) that is considered poor condition and five that are in excellent condition.

See the following table the condition of Public Housing in Alexandria.

Public Housing Condition

Public Housing Development	Average Inspection Score
Miracle, Wonderwood, Phoenix 3220A Wonderwood Drive	55
Miracle, Wonderwood, Phoenix 4102A Phoenix Drive	62
Alexandria VOA Living Center	93
Bethel	90
Chateau Deville	99
Mason Estates	90
Magnolia Trace	87
Our Ladys Manor	98
England	78

Table 36 - Public Housing Condition

Describe the restoration and revitalization needs of public housing units in the jurisdiction:

The Alexandria Housing Authority continues to utilize resources to rehabilitate the units most in need. This includes utilizing Capital Funds to repair roofs, HVAC systems, and other rehabilitation needs.

Describe the public housing agency's strategy for improving the living environment of low- and moderate-income families residing in public housing:

The Alexandria Housing Authority is amending its Annual Plan because it was a successful applicant in the Rental Assistance Demonstration (RAD). As a result, Alexandria Housing Authority will be converting to Project Based Voucher under the guidelines of PIH Notice 2012-32, REV-3 and any successor Notices. Upon conversion to Project Based Voucher Assistance the Authority will adopt the resident rights, participation, waiting list and grievance procedures listed in Section 1.7.B & 1.7.C of PIH Notice 2012-32, REV-3. These resident rights, participation, waiting list and grievance procedures are appended to this Attachment. Additionally, Alexandria Housing Authority is currently compliant with all fair housing and civil rights requirements and is not under a Voluntary Compliance Agreement or under a Voluntary Compliance Agreement.

RAD was designed by HUD to assist in addressing the capital needs of public housing by providing Alexandria Housing Authority with access to private source of capital to repair and preserve its affordable housing assets. Please be aware that upon conversion, the Authority's Capital Fund Budget will be reduced by the pro rata share of Public Housing Developments converted as part of the Demonstration, and that Alexandria Housing Authority may also borrow funds to address their capital needs. Alexandria Housing Authority will also be contributing Operating Reserves in the amount of the subsidy associated with each unit and Capital Funds in the amount of subsidy associated with each unit at East Sycamore, West Sycamore, Legacy Heights, Fairway Terrace, Carver Village, Green Meadow Wonderwood, Phoenix Point and Miracle Plaza developments. Alexandria Housing Authority does not

have debt under the Capital Fund Financing Program. Also, Alexandria Housing Authority does not currently have debt under an Energy Performance Contract (EPC).

Alexandria Housing Authority will convert the following types of units: the family units or elderly at East Sycamore, West Sycamore, Legacy Heights, Fairway Terrace, Carver Village, Green Meadow, Wonderwood, Phoenix Point and Miracle Plaza developments. There is a possibility that there will be a reduction of units, or a change in the bedroom distribution with this RAD conversion. There will be changes in the policies that govern eligibility, admission, selection, and occupancy of units at these projects after they have been converted. This includes any waiting list preferences that will be adopted for the converted project as well as the Resident Rights and Participation, Waiting List and Grievance Procedures for residents stated in 1.6, 1.7 and Attachment 1B of PIH Notice 2012-3.

Resident meetings have been conducted at all sites that are converting and notices include Rad Information Notice (RIN), General Information Notice (GIN) and any Relocation requirements. There will be a transfer of assistance at the time of conversion.

MA-30 Homeless Facilities and Services – 91.210(c)

Introduction

The data below is the summary of all beds reported in the Alexandria/Central Louisiana Continuum of Care (LA-507). Data is not available from HUD at the city level.

Facilities and Housing Targeted to Homeless Households

	Emergency Shelter Beds		Transitional Housing Beds	Permanent Supportive Housing Beds	
	Year Round Beds (Current & New)	Voucher / Seasonal / Overflow Beds	Current & New	Current & New	Under Development
Households with Adult(s) and Child(ren)	6	0	22	113	0
Households with Only Adults	58	3	63	158	0
Chronically Homeless Households	0	0	0	31	0
Veterans	16	16	0	220	0
Unaccompanied Youth	0	0	0	0	0

Table 37 - Facilities and Housing Targeted to Homeless Households

Alternate Data Source Name:
2018 Housing Inventory Count

Data Source Comments: Alexandria/Central Louisiana Continuum of Care (LA-507)

Describe mainstream services, such as health, mental health, and employment services to the extent those services are used to complement services targeted to homeless persons

As part of the intake process, providers require that program participants enroll in mainstream benefits. This includes two programs from Volunteers of America (Assertive Community Outreach Program and Behavioral Health) that provide case management for residents dealing with mental illness to support independent living. Behavioral Health provides case management to mentally ill adults that live independently. Support also includes life skill training, transportation, and assistance with understanding medical needs. Further, Reentry Solutions have subcontracted with Volunteers of America to provide employment services to ex-offenders being released into Rapides Parish and are open to referrals for homeless individuals seeking assistance.

List and describe services and facilities that meet the needs of homeless persons, particularly chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth. If the services and facilities are listed on screen SP-40 Institutional Delivery Structure or screen MA-35 Special Needs Facilities and Services, describe how these facilities and services specifically address the needs of these populations.

Emergency Shelters

Hope House of Central Louisiana – Families with Children – 6 beds

Salvation Army (Health Care for Homeless Vets) – Veterans – 16 beds

Permanent Supportive Housing

Alexandria Housing Authority (VASH) – Veteran Families – 35 beds

Central Louisiana Coalition to Prevent Homelessness – Chronic Families – 14 beds

Volunteers of America (Bonus PSH) – Chronic Families – 3 beds

Volunteers of America (PSH) – Chronic Families – 14 beds

Rapid Re-Housing

Central Louisiana Coalition to Prevent Homelessness – Families with Children – 5 beds

Volunteers of America (SSVF-RRH) – Veteran Families - 25

MA-35 Special Needs Facilities and Services – 91.210(d)

Introduction

There are four primary groups with non-homeless special needs in the jurisdiction. They are the elderly and frail elderly, those with HIV/AIDS and their families, those with alcohol and/or drug addiction, and the mentally or physically disabled. This section will explain who they are, what their needs are, and how the jurisdiction is accommodating (or should accommodate) those needs.

Including the elderly, frail elderly, persons with disabilities (mental, physical, developmental), persons with alcohol or other drug addictions, persons with HIV/AIDS and their families, public housing residents and any other categories the jurisdiction may specify, and describe their supportive housing needs

Elderly: The supportive housing needs for this population can vary widely depending on the health and fitness of the individuals. In general, with aging disabilities and other health issues become more common. Because of this, supportive housing must include access to health professionals and housing modifications to assist the resident. It is important to help residents stay independent and in their own homes for as long as possible if they prefer that.

HIV/AIDS: Medical and social support is important for residents living with HIV/AIDS. While there have been great advances in the medical treatment of HIV/AIDS, it is still important to provide specialized support. Family and friends must be accessible and medical facilities should be nearby.

Alcohol and/or Drug Addiction: Individuals dealing with addiction often require housing options that will provide a safe, sober place for recovery. A strong network is necessary to maximize the chance they will stay healthy and sober. It is important that these persons have access to health services, support groups, employment assistance, and access to family and friends. Additionally, detoxification facilities are necessary when addiction is first recognized.

Mental and Physical Disabilities: Individuals with disabilities encompass a wide range of skill levels and abilities. Therefore, they have many of the same issues as the general population with added needs that are unique to their situation. Often times, individuals with disabilities have a fixed income and limited housing options. Individuals with more independent skills can utilize subsidized housing but individuals that need more support or specialized housing have fewer options. Many individuals continue to reside with parents and families throughout adulthood, which can put additional financial burden on the family. Regardless of the housing situation, a common thread is the need of continuous support services dependent on the level of capabilities.

Describe programs for ensuring that persons returning from mental and physical health institutions receive appropriate supportive housing

The Continuum of Care has established discharge policies and procedures to assist persons leaving institutional care obtain supportive housing and avoid homelessness.

Locally, hospitals are beginning to reach out to CoC providers in advance of someone being discharged so that proper assessments can take place before the person is discharged. The CoC can assist the hospital seek housing options so that no one is homeless upon discharge. Housing options might include placement in a PSH program if the person is deemed chronically homeless, linkages to programs like SSVF and VASH if they are leaving the VA Hospital, and referrals to programs for those who are mentally ill and/or substance abusers.

In terms of mental health, Volunteers of America has been designated by the CoC as the agency that provides linkages between the mental health system and the homeless system. Volunteers of America has several programs that are not CoC-funded that link persons to resources available to ensure housing stability, and has three PSH CoC-funded programs that serve only those chronically homeless individuals/families who have a mental illness. With mental illness, the leading cause of homelessness locally, having a PSH program where beds are designated specifically for this population ensures that no mentally ill person leaving a mental health facility will be homeless.

Specify the activities that the jurisdiction plans to undertake during the next year to address the housing and supportive services needs identified in accordance with 91.215(e) with respect to persons who are not homeless but have other special needs. Link to one-year goals. 91.315(e)

Will complete with the SP/AP

For entitlement/consortia grantees: Specify the activities that the jurisdiction plans to undertake during the next year to address the housing and supportive services needs identified in accordance with 91.215(e) with respect to persons who are not homeless but have other special needs. Link to one-year goals. (91.220(2))

See above.

MA-40 Barriers to Affordable Housing – 91.210(e)

Negative Effects of Public Policies on Affordable Housing and Residential Investment

Public policies are meant to address the overall needs of citizens. Yet, there are times where they may have a negative effect on certain aspects of the community, specifically affordable housing and residential investment. Affordable housing and public and private residential investments are key components in furthering fair housing in any community. The primary tool communities have for identifying contributing factors for these barriers to housing is an assessment of fair housing and fair housing choice. In 2020, the City is updating the fair housing assessment.

The City plans corresponding actions designed to strengthen the supply of affordable housing and narrow the affordability “gaps.” Elements of those actions appear within this Consolidated Plan and beyond. Additionally, the City anticipates a review of public policies that may impede the development of affordable housing and to improve the understanding of their consequences.

MA-45 Non-Housing Community Development Assets – 91.215 (f)

Introduction

This section provides insight into the economic development landscape of the City. Included in this section is a look at the specific industries that are prevalent within the City, as well as indicators such as commute times, unemployment, and educational attainment.

2013-2017 ACS 5-Yr Estimates
Data Source Comments:

Occupations by Sector

According to the ACS data, the largest employment sector is the Service sector with 4,991 employees. The second largest sector is Sales and Office with 4,319 with the third largest being the Management, Business, and Financial sector.

Travel Time

Travel Time	Number	Percentage
< 30 Minutes	16,429	88%
30-59 Minutes	1,302	7%
60 or More Minutes	856	5%
<i>Total</i>	<i>18,587</i>	<i>100%</i>

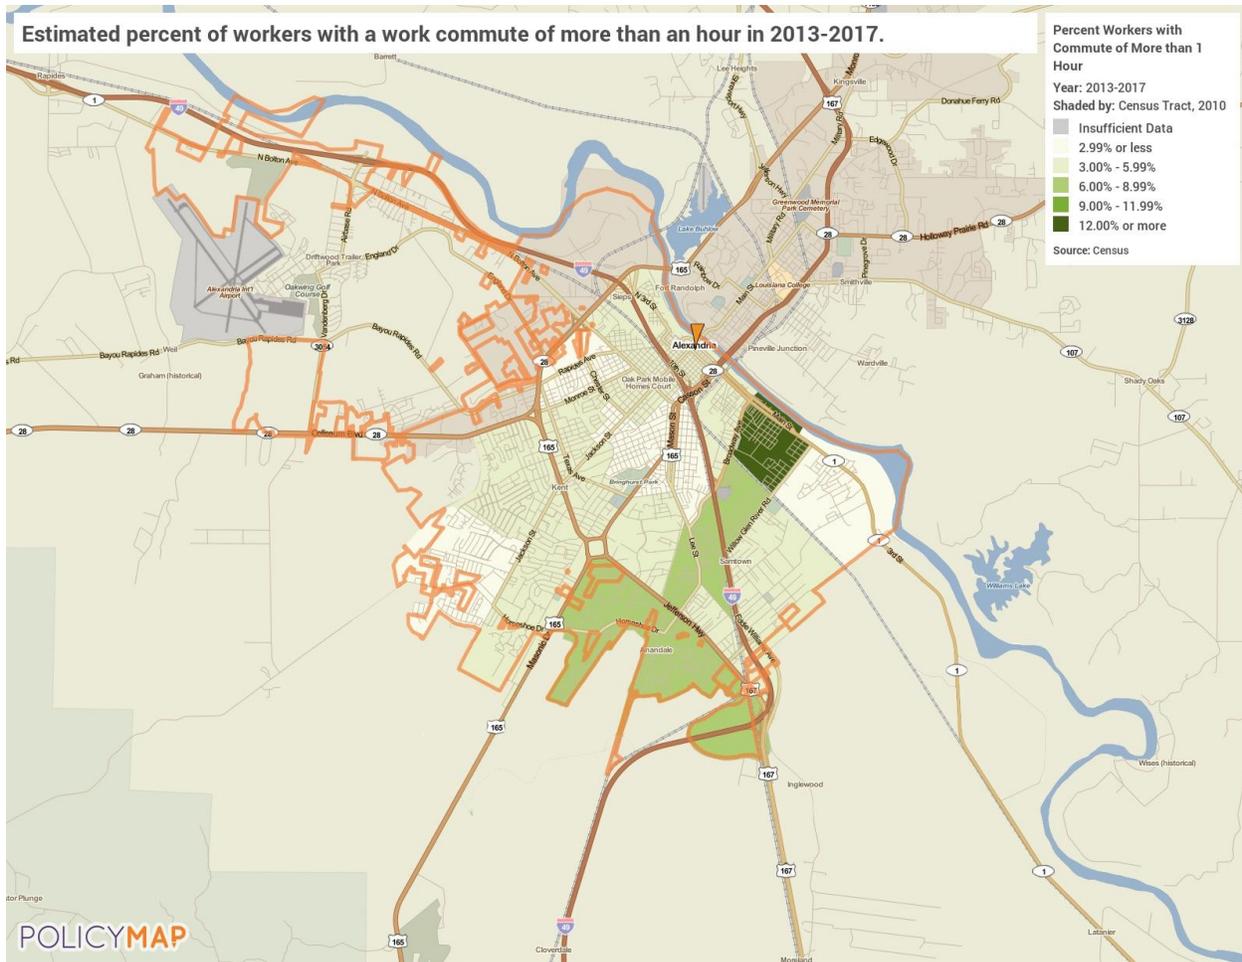

Table 41 - Travel Time

Alternate Data Source Name:
2013-2017 ACS 5-Yr Estimates
Data Source Comments:

Commute Travel Time

Long commutes are not a significant issue for most residents of Alexandria. Nearly 90% of all persons commuting to work have a commute of less than 30 minutes each way. Only 5% have a commute that is an hour or longer.

Data Source Comments:

The table above details educational attainment by age for persons 18 years of age and older within the City.

Educational Attainment – Median Earnings in the Past 12 Months

Educational Attainment	Median Earnings in the Past 12 Months
Less than high school graduate	18,801
High school graduate (includes equivalency)	20,199
Some college or Associate's degree	28,372
Bachelor's degree	46,811
Graduate or professional degree	72,882

Table 44 – Median Earnings in the Past 12 Months

Alternate Data Source Name:
2013-2017 ACS 5-Yr Estimates
Data Source Comments:

Median Earnings by Educational Attainment

The median earnings of individuals in the City are closely tied to educational attainment. Median earnings increase as individuals attain higher education. A person with a bachelor's degree generally earns nearly \$30,000 more than of a person without a high school degree. A person with a graduate or professional degree can expect to earn nearly \$45,000 more than somebody with only a high school degree.

Based on the Business Activity table above, what are the major employment sectors within your jurisdiction?

In the City of Alexandria, the largest employment sector is the Education and Health Care services sector. This sector makes up 31.7% of the workers and 36.48% of the jobs, the largest by far. The next two largest sectors are Retail Trade with 14.3% of jobs and Arts, Entertainment, and Accommodations with 10.4% of the jobs.

Describe the workforce and infrastructure needs of the business community:

As discussed below, there is a need for a workforce that is more aligned with the current and future needs of the workforce. Infrastructure is also needed, particularly broadband internet, improvements to the port areas, river deepening, and securing the rail access.

Describe any major changes that may have an economic impact, such as planned local or regional public or private sector investments or initiatives that have affected or may affect job and business growth opportunities during the planning period. Describe any needs for workforce development, business support or infrastructure these changes may create.

The Kisatchie-Delta Region's Comprehensive Economic Development Strategy (CEDS) identified one goal to define the efforts and objectives of the organization: Sustain and Grow Capacity for Economic Competitiveness. There are five objectives with a number of tactics.

Objective 1: Economic Development – Enterprise Ecosystem

1. Small Business, Big Benefit
2. Diversification
3. Technology
4. Infrastructure and Facilities
5. Broadband and Global Connections
6. System Integration

Objective 2: Education and Workforce – Talented, Educated People-Fit

1. Training and Articulation
2. Work Ready, Work Engaged
3. Soft Skills and Productivity
4. Ongoing Learning by Individuals and Enterprises for Mutual Benefit

Objective 3: Governance and Civic Capacity – Leadership and Technical Management

1. Capabilities for Managing Facilities, Finances, and Projections

2. Right-sizing Targets for Economic Growth
3. Enriching Relationship Networks for Active Collaboration
4. Purpose-Drive Decision-Making

Objective 4: Environment and Resources – Eco and Bio Conscientiousness

1. Community Services Sustainability
2. Sustain and Improve Land and Natural Assets
3. System Built Redundant and Resilient
4. Maximize Tourism Positive Contributions
5. Research Tourism Sustainability

Objective 5: Place and Identity – Energizing Core Communities

1. Tourism Development
2. Commercializing Cultural and Historic Assets
3. Restoring and Cultivating Main Street-esque Revitalization
4. Tactical Placemaking and Placebranding
5. Valuing community Identity to Fuel Vibrancy

How do the skills and education of the current workforce correspond to employment opportunities in the jurisdiction?

One of the major objectives of the regional CEDS is to address the disconnect between skills and education and the current employment opportunities. There is a need to connect education and workforce strategies and build partnerships. All education types are needed to fulfill the business and industry needs. Further details about the CEDS plans and objectives are below.

Describe any current workforce training initiatives, including those supported by Workforce Investment Boards, community colleges and other organizations. Describe how these efforts will support the jurisdiction's Consolidated Plan.

The jurisdiction is working to increase cooperation between educational and business organizations to develop workforce training initiatives. Included in this cooperation is Central Louisiana Community Technical College System's "Center for Manufacturing Excellence" award to respond to industry labor needs and skill shortages.

Additional partnerships include:

1. The Orchard Foundation
2. CLEDA
3. The Rapides Foundation

4. Area Workforce Investment boards

Does your jurisdiction participate in a Comprehensive Economic Development Strategy (CEDS)?

Yes

If so, what economic development initiatives are you undertaking that may be coordinated with the Consolidated Plan? If not, describe other local/regional plans or initiatives that impact economic growth.

The CEDS identified a number of pursuits and priorities for each of the objectives identified.

Objective 1: Economic Development – Enterprise Ecosystem – Focus Year Launch: 2023

1. Asset-fulfillment: Make our assets work better and work for us
2. Capital improvements for industrial facilities, infrastructure, and incubation
3. Integrated multi-modal capacity
4. Stimulate private sector investment through tools: Opportunity Zone, HUBZones, new markets, incentives, certified sites, and expand the trade sector
5. Accelerate access to capital
6. Pursue broadband infrastructure and adoption
7. Support entrepreneurship and diversification
8. Seek investment in transportation enhancements and expanded modes of commerce including truck-to-rail, ports, I-14, pipelines, and venues for open markets

Objective 2: Education and Workforce – Talented, Educated People-Fit – Focus Year Launch: 2021

1. Fulfill business and industry needs using all education types
2. Identify and forge connections for education and workforce strategies
3. Mobilize methods for employability and quality wages by promoting collaboration and articulation amongst providers, including community and technical colleges, universities, independent training providers, apprenticeship, and workforce. Function proactively and responsively to industry's labor demand and individual's opportunities to earn quality wages
4. Build partnerships between business and higher education
5. Strengthen talent initiatives through cultivation and attraction.
6. Assess and map needed skills for open or projected opportunities

Objective 3: Governance and Civic Capacity – Leadership and Technical Management – Focus Year Launch: 2020

1. Regional training in both leadership and topical, subject matter expertise. Grow leaders with appreciation for development, redevelopment, and resilience
2. Pursue designations of distinctions to add competitive advantages
3. Convene good conversations to exchange and advance joint pursuits. Assure adequate, baseline funding for public sector development entities.
4. Upskill leadership with the people skills to thrive
5. Promote project structuring and responsible grant, project, and fund management
6. Grow business networks for peer support, training, and ventures

Objective 4: Environment and Resources – Eco and Bio Conscientiousness – Focus Year Launch: 2019

1. Redress critical challenges to water and wastewater infrastructure and its management. Implement training and assistance to overcome public health and safety concerns from declining resources and outdated rates
2. Reuse of facilities repurposed and building on past public investment. Educate school boards on CEA opportunities to reduce blight
3. Promote, encourage, and assist with public system's sustainability
4. Utilize cultural, natural, and other assets as foundation for home-grown solutions. Support local projects, programs, and incentives that are congruent with the region's goal

Objective 5: Place and Identity – Energizing Core Communities – Focus Year Launch: 2022

1. Support community revitalization
2. Encourage rural Farmer's Markets and local food initiatives to promote healthy places and desirable consumer options.
3. Coordinate with attractions and tourism on regional and collaborative marketing.
4. Identify viable tourism development. Utilize cultural and physical assets as input for enterprises
5. Promote nature trails and local event participation. Implement recommendations of visitor-interest study
6. Promote and assist non-profits and civic groups to be empowered, responsible, and able to influence and implement change and growth.

MA-50 Needs and Market Analysis Discussion

Are there areas where households with multiple housing problems are concentrated?
(include a definition of "concentration")

HUD identifies four specific data points that constitute "housing problems": cost burden, overcrowding, lack of complete plumbing facilities, and lack of complete kitchen facilities. Within the City, 0.5% of occupied units lack complete plumbing, 1.2% occupied units lack complete kitchen facilities, 2.5% are overcrowded, and 38.2% are cost burdened.

Areas of concentration are census tracts that have two or more housing problems that are substantially higher than the City average. For this analysis, "substantially higher" means a lack of complete plumbing over 10.5%, a lack of complete kitchen facilities over 11.2%, overcrowding over 12.5%, or cost burden over 48.2%.

There are no areas in the City of Alexandria with concentrated housing problems.

Are there any areas in the jurisdiction where racial or ethnic minorities or low-income families are concentrated? (include a definition of "concentration")

Yes, there are several areas with a concentration of racial minorities, ethnic minorities, or low-income families. For the purposes of this analysis, a "concentration" is any census tract where the minority population makes up 10% more than the citywide average or is low-income. Maps of these concentrations follow this section.

Black Households: In Alexandria, 54.6% of the population is black. There are six tracts with a concentration (greater than 64.6%) of black households. These tracts are all concentrated on the east side of town.

1. 13000 – 90.51%
2. 12700 – 98.04%
3. 12900 – 98.27%
4. 12800 – 91.87%
5. 13900 – 72.77%
6. 12100 – 71.64%

There were no other racial or ethnic groups with geographic concentrations in Alexandria.

Low-Income Households: The Median Household Income in the City is \$36,997. Any household making 80% or less (\$29,598) is considered "low-income" concentration. As visualized in the map below, the tracts in the east part of the City tend to be low income.

See maps below: Concentration of Black Population and Concentration of LMI Households

What are the characteristics of the market in these areas/neighborhoods?

The areas with a concentration of black residents overlaps regularly with the low-income map. These areas tend to have weaker economic indicators and may lack opportunities.

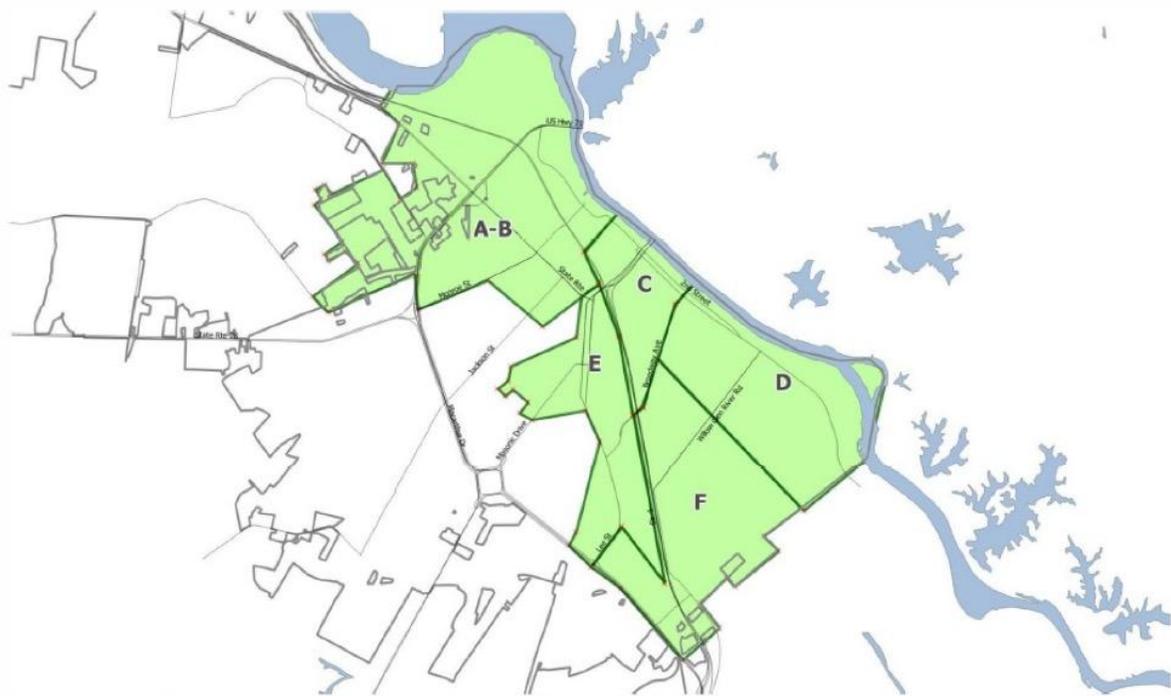

Are there any community assets in these areas/neighborhoods?

The City has been focusing on redevelopment of many of the areas in need. Additional resources have been devoted to improve the living and economic situation in these areas.

Are there other strategic opportunities in any of these areas?

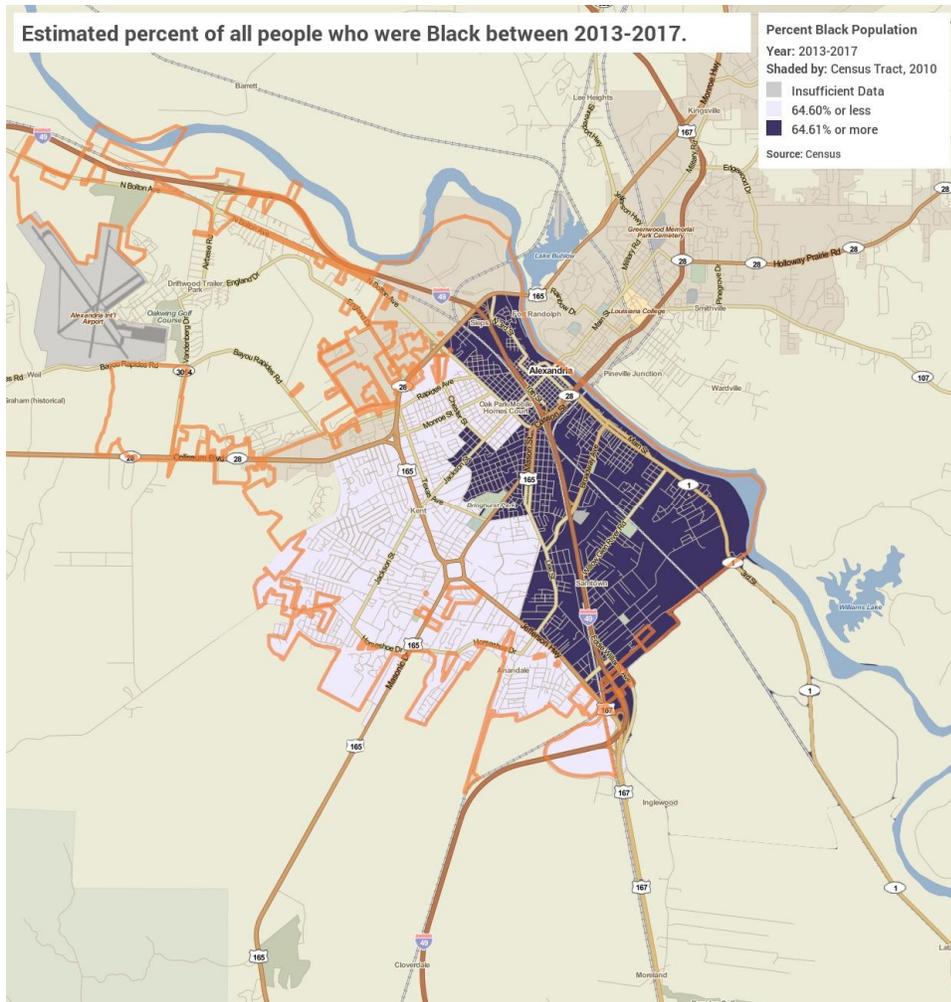

Expansion of the business district is an opportunity that continues to exist. The business district overlaps with the low median household income and high black population tracts. Being along the river provides opportunities to utilize the waterway for economic means and to improve transportation opportunities throughout the City.

See map below: CDBG Target Areas

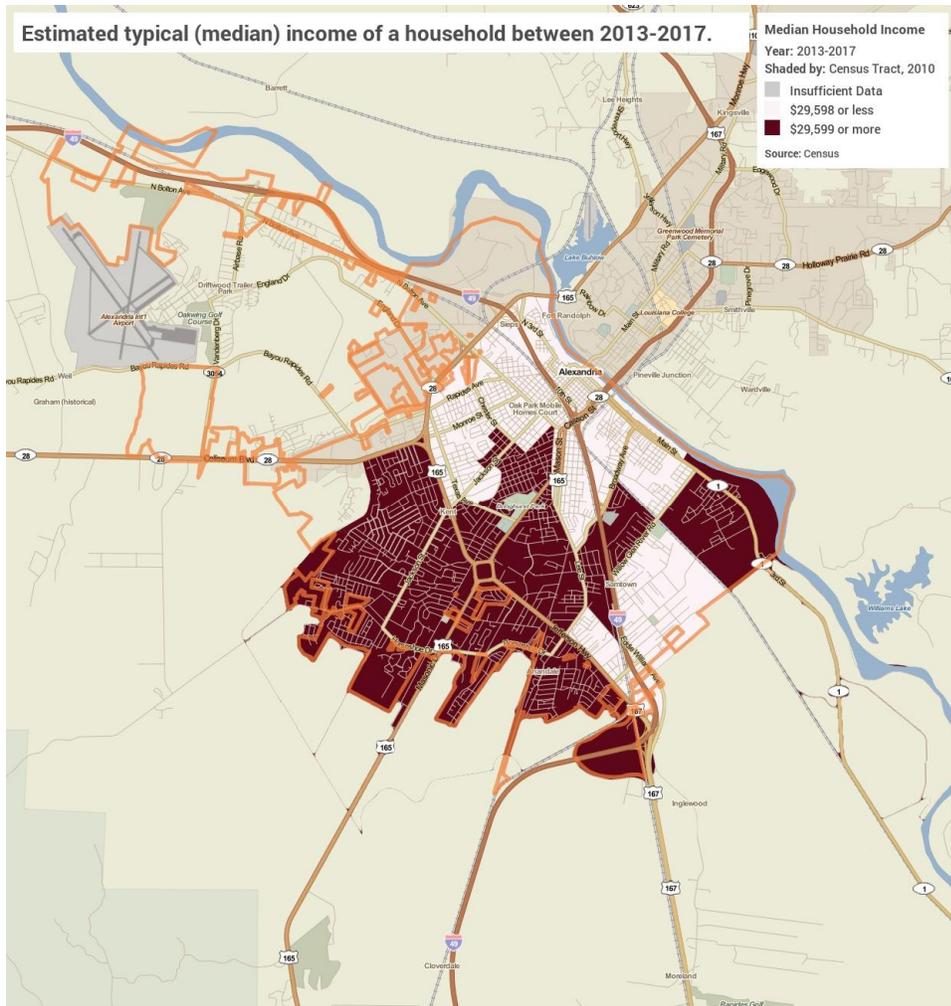

CDBG Target Areas

CDBG Target Areas

Concentration of Black Population

Concentration of LMI Households

MA-60 Broadband Needs of Housing occupied by Low- and Moderate-Income Households - 91.210(a)(4), 91.310(a)(2)

Describe the need for broadband wiring and connections for households, including low- and moderate-income households and neighborhoods.

Internet is an essential communications and information platform that allows users to take advantage of the increased interconnectedness of business, education, commerce, and day to day utility. Reliable access to the internet is becoming a necessity to thrive in the modern economic environment. Communities that lack broadband access struggle to keep pace with the country. Locations without broadband access impedes its population's ability to take advantage of the educational and entrepreneurial opportunities available online. This is particularly problematic for LMI areas where economic opportunities are already often lacking. Studies suggest a strong correlation between increased high-speed internet access and increased education and employment opportunities, especially in small cities and rural areas.

Alexandria does not have significant gaps in broadband coverage. Most of the city has multiple options of internet providers, to include LMI areas. The average Alexandria household has three (3) options for broadband-quality Internet service; however, an estimated 4,000 locals in Rapides Parish, within Alexandria, do not have access to any wired internet.

The following map shows broadband access throughout the City. Broadband access is defined as advertised internet speeds of 768 kilobits per second or higher. FCC data shows three major infrastructure options within Alexandria: fiber, cable, and DSL.

See map below: Broadband Access

Describe the need for increased competition by having more than one broadband Internet service provider serve the jurisdiction.

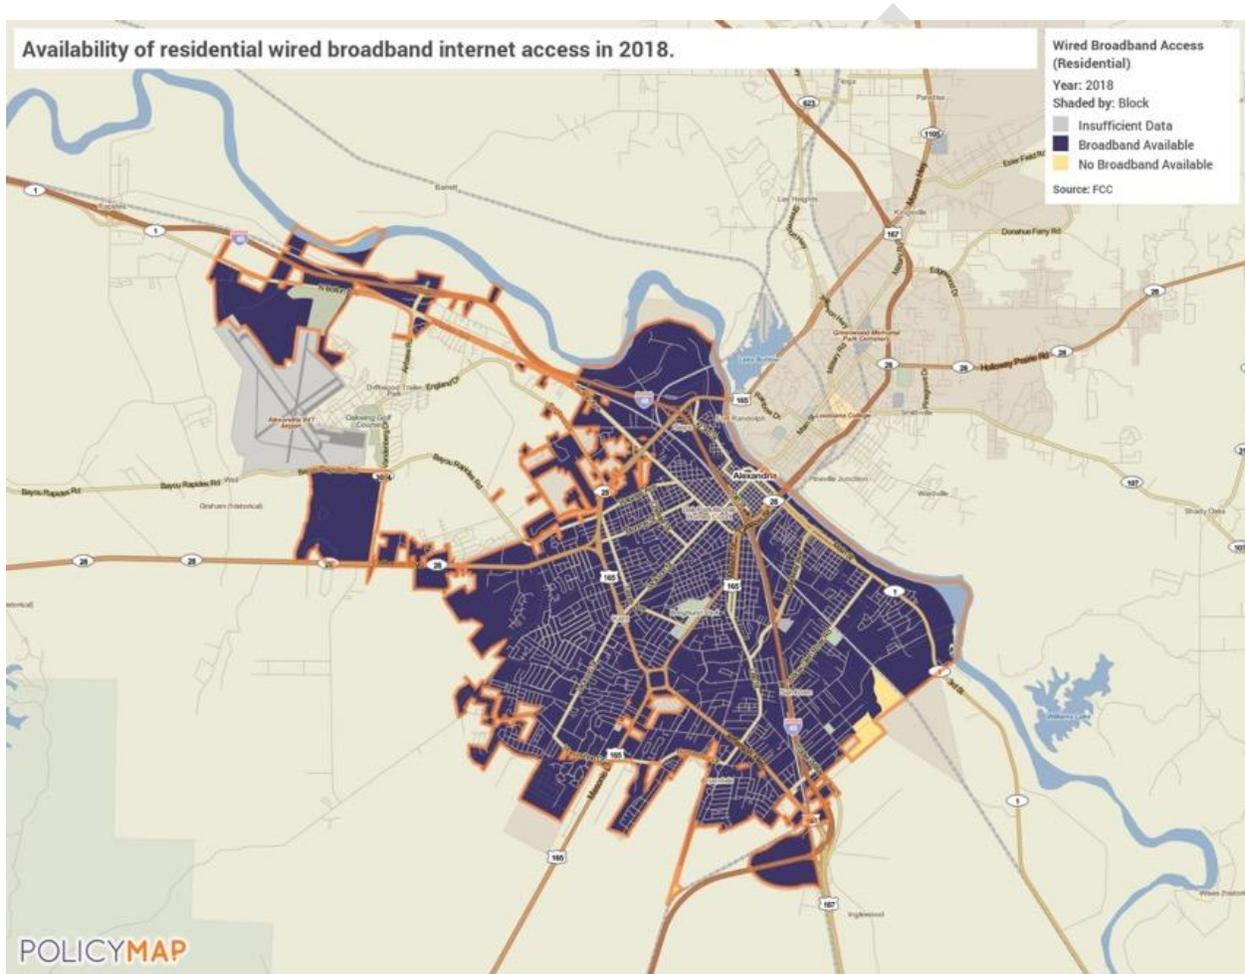

Once broadband access has been obtained, it is important to ensure there is competition among service providers. Any resource that has a de facto monopoly on an area may not be incentivized to provide standard and consistent services. Alexandria has a total of six (6) Internet providers offering residential service. Suddenlink and AT&T (DSL) are the strongest providers in Alexandria so far as coverage. The average Alexandria household has three (3) options for broadband-quality Internet service.

- Suddenlink (Cable)
- AT&T Internet (DSL and Fiber)
- EarthLink (DSL and Fiber)
- TEC (DSL)
- Viasat Internet (formerly Exede) (Satellite)

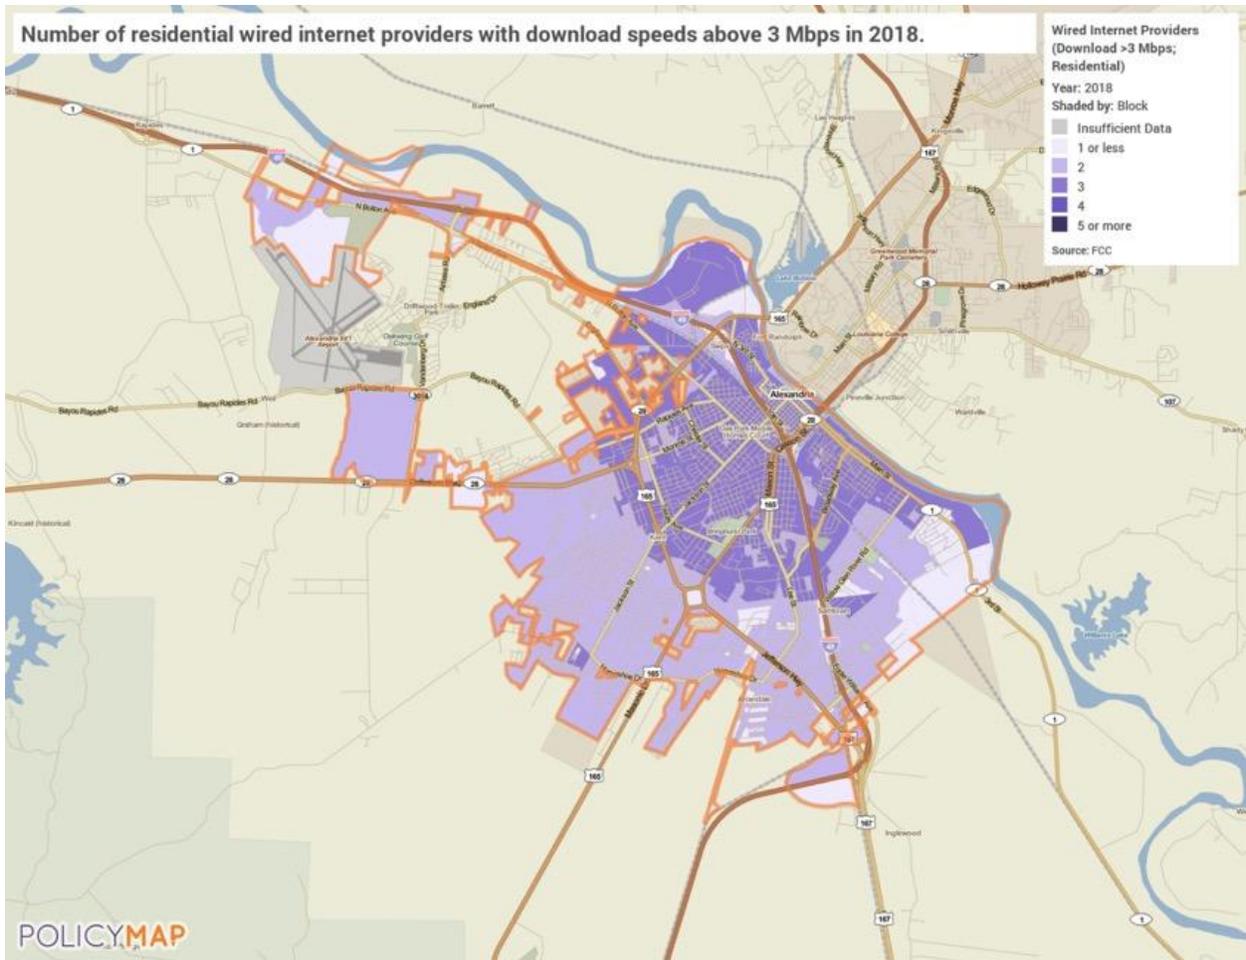

- HughesNet (Satellite)

The following map shows the number of broadband service providers by census tract. Most of the city has at least three options of high-speed internet with competitive providers, however about eight percent of residents only have access to one provider.

See map below: Highspeed Internet Providers

Broadband Access

Highspeed Internet Providers

MA-65 Hazard Mitigation - 91.210(a)(5), 91.310(a)(3)

Describe the jurisdiction's increased natural hazard risks associated with climate change.

Alexandria has not historically been as vulnerable to various natural hazard events as other locations in the state. The City is moderately more prone to tornadoes than other locations in the state and has experienced flooding, hail, thunderstorms and others natural hazard events. The potential impacts of climate change—including an increase in prolonged periods of excessively high winds and more heavy precipitation—are often most significant for vulnerable communities. The City is not located near the coast, but it is still impacted secondary effects such as tropical storms from traveling hurricanes. By the middle of the century the average summer temperature is expected to rise four degrees. This rise in temperature could lead to altered weather and precipitation patterns, a rise in severe storms, an increased risk of catastrophic floods, increased electricity costs, and ruined crops. Additionally, any increase in the ocean levels or increased storm activity may lead to people moving inland from the coast. An increase of people could come into the City which would drive up housing costs, reduce the availability of jobs, and tax resources.

Describe the vulnerability to these risks of housing occupied by low- and moderate-income households based on an analysis of data, findings, and methods.

Low- and moderate-income residents are at particular risk due to having less available resources to combat the impacts of natural disasters. A dramatic rise in electricity or housing costs could put them at imminent risk of homelessness or living in substandard conditions. Residents in rural communities will have less access to public support in case of emergencies and will have fewer resources to repair or prevent damage to their homes. LMI communities are at a disproportionately higher risk of being displaced long term or permanently by flooding hazards.

The City of Alexandria strives to inform and prepare the general public for multi-hazard mitigation. There are online venues (including city website and Facebook page, Louisiana VOAD website, and Volunteer Louisiana website and Facebook page) that disseminate numerous informational guidebooks, videos, and emergency resources to build disaster resiliency in the community. The city also coordinates with the Rapides Parish and the state Governor's Office of Homeland Security and Emergency Preparedness. The City has also made great strides to ensure future resiliency and preparedness against natural disaster. THINKAlex is a community-driven Resiliency Plan, comprised of a Land Use Plan, a Housing Plan, and a Transportation Plan, focused on the development of effective long-term plans and strategies for the City. One specific effort from this plan is to explore comprehensive flood plain management, which will strengthen its defenses against natural disaster.

Strategic Plan

SP-05 Overview

Strategic Plan Overview

Given the broad range of needs and the limited amount of resources available, the City can only meet a portion of the needs within the community. For the purpose of the Consolidated Plan, the needs identified as "high priority" are those that the City plans on addressing with available federal funds over the next five years.

This portion of the plan, the Strategic Plan, summarizes the community needs and identifies its high priority needs that it will address over the next five years. The Strategic Plan also describes how the City will address its priority needs. This includes identifying available resources (Anticipated Resources), who will carry out the activities (Institutional Delivery Structure), and how the conditions of the market will influence the City's actions (Influence of Market Conditions). The Strategic Plan also describes the City's plans to address specific issues required by the regulations, including barriers to affordable housing, lead-paint hazards, and anti-poverty measures.

Given the variables above, the City sets goals that will be used to measure performance over the term of the plan. It should be noted that it is difficult to estimate the funding levels for the HOME and CDBG program for the term of the Consolidated Plan. Given this, the goals listed in the plan are based on the assumption that funding will remain relatively stable over the next four years.

The priorities and goals of this Strategic Plan did not change much from the previous Strategic Plan. The City's focus will remain on housing and the elimination of blighted conditions.

AFFORDABLE HOUSING

The City estimates it will budget about half of its available resources to housing. The City will provide all of its HOME funds to its CHDO to subsidize the development of new affordable units. This is due in part to the small allocation of HOME funds. If the size of the HOME allocation increases, the City may revisit the use of HOME funds for comprehensive housing repair. CDBG funds will continue to fund a Minor Rehab program.

ELIMINATION OF BLIGHT

Approximately twenty percent of available funds will be used for the elimination of blighted conditions. This includes Code Enforcement and Demolition/Clearance of Blighted Properties.

HOMELESS AND SPECIAL NEEDS

An additional ten percent of funds are budgeted for programs that serve homeless and special needs populations. This includes the support of a new Homeless Resource Center, a service aimed at diverting homeless and near homeless away from the shelter environment and to alternative living arrangements.

The remainder of available funds will be used for planning, administration, and operating support for CHDO organizations who develop affordable housing within the City.

Staff estimates that 90% of funds will be used within the CDBG Target Area. While most of the programs administered by the City will be available on a City-wide basis, the target areas have higher levels of need. A description of the target areas are included in the Geographic Priorities section.

DRAFT

SP-10 Geographic Priorities – 91.215 (a)(1)

Geographic Area

Table 45 - Geographic Priority Areas

1	Area Name:	Slum & Blight Area 1
	Area Type:	Local Target area
	Other Target Area Description:	
	HUD Approval Date:	
	% of Low/ Mod:	
	Revital Type:	Other
	Other Revital Description:	Slum & Blight Area

DRAFT

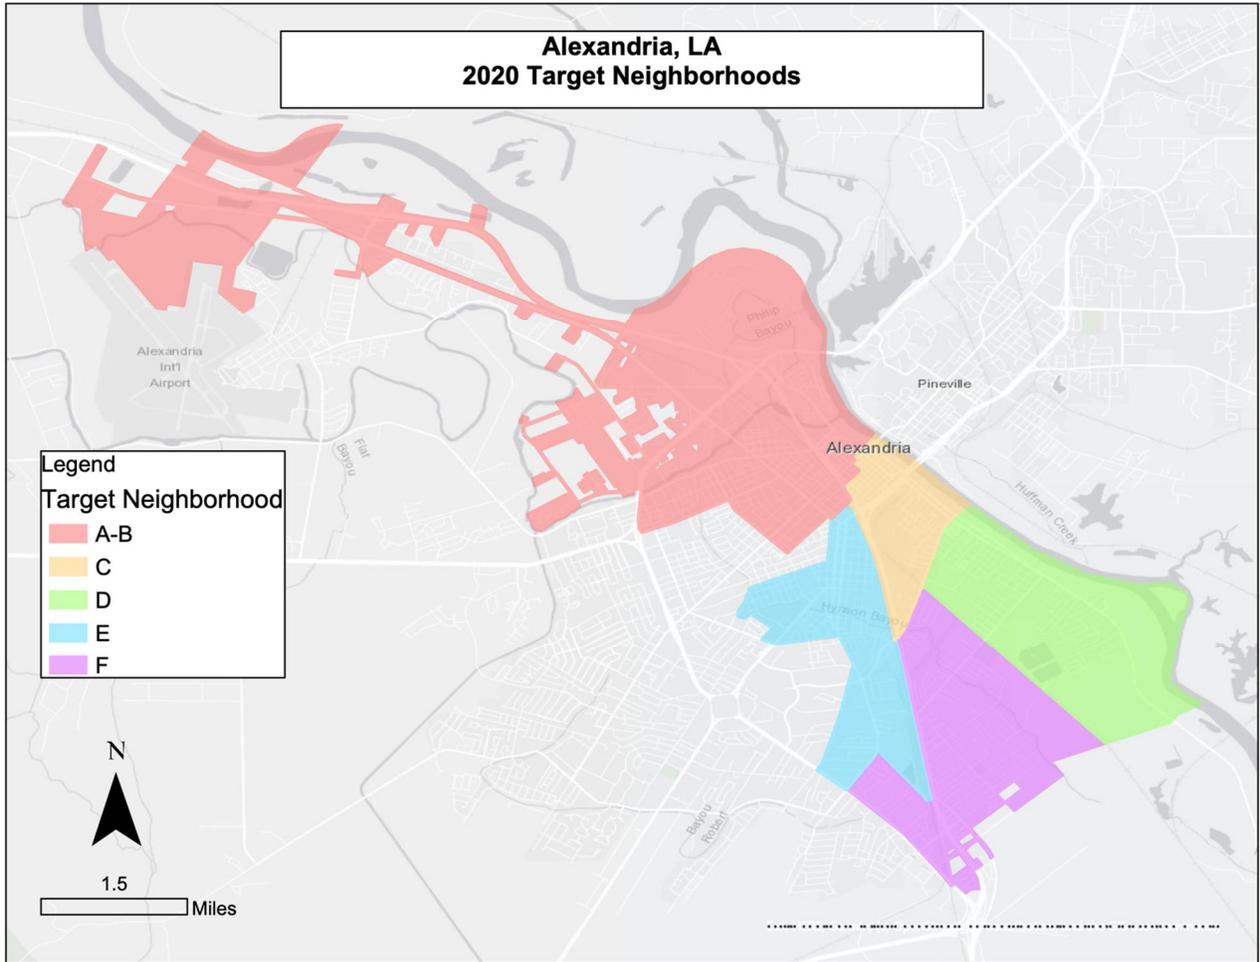

<p>Identify the neighborhood boundaries for this target area.</p>	<p>Identified slum and blight areas (SBA) are:</p> <p>Area AB-20: The area incorporated by the City of Alexandria, LA north of a meandering line commencing from the intersection of MacArthur Drive and Bayou Rapides; to Monroe Street; to Chester Street; to Polk Street; to Bolton Avenue; to Lee Street; to Thorn Road; to Murray Street; to Foisy St; to Jackson Street; to 6th Street; to Beaugard Street and centerline extension; to the centerline of the Red River.</p> <p>Area C-20: The area bounded by a line commencing at the intersection of Broadway Avenue; along I-49 to Murray Street; to Foisy Street; to Jackson Street; to 6th Street; to Beaugard Street; to the centerline extension of the Red River; to Broadway Avenue; along Broadway Avenue to the Point of Beginning.</p> <p>Area D-20: Southeast of a line commencing at the apparent intersection of the extension of Broadway Avenue and the centerline of the Red River; along Broadway Avenue to Kansas City Southern Railroad; to the intersection of the City limits (31.26877 N, 92.41056 W); to the centerline of the Red River.</p> <p>Area E-20: The area bounded by a line commencing along Lee Street to Vance Avenue; to City Park Boulevard; to South City Park Boulevard; to Marigold Street; to the terminus of Marigold Street; to Texas Avenue; to Lee Street; to Memorial Drive; to Sterkx Road; to South MacArthur Drive; to Lee Street; to Duhon Lane; to Hudson Blvd; to I-49; along I-49 to the Point of Beginning.</p> <p>Area F-20: That area bounded by the line commencing at the intersection of Broadway Avenue; to I-49; to Hudson Blvd; to Duhon Lane; to Lee Street; to South MacArthur Dr; along to the City Limits at 31.2476 N, 92.4335 W; to the Kansas City Southern Railroad; to the Point of Beginning.</p> <p>See maps for each area attached in the SP-10</p>
---	---

<p>Include specific housing and commercial characteristics of this target area.</p>	<p>All areas: AB, C, D, E, F have physical deterioration of buildings is rampant throughout and high density of code enforcement complaints. Communities with an older housing stock are likely in need of support and may not have the supply of homes necessary to meet demand. Units built prior to 1978 have the risk of lead-based paint and special care must be taken when addressing these properties. The median year built for the proposed slum and blight areas determination ranges from 1959 to 1970.</p> <p>Areas AB & E have abandonment of properties is examined through the vacancy rate. According to Census data between 2014-2018, the proposed areas had an estimated vacancy rate over 25%. With a housing stock experiencing deterioration and high vacancy rates, the areas are presumably unattractive to existing and new or potential residents.</p> <p>Areas AB & C have chronic high vacancy in commercial buildings.</p> <p>Areas AB, C, E, and F have abnormally low property values relative to other areas in the community. From 2014-2018, the median value of owner-occupied housing units throughout the City of Alexandria was \$140,200. The examined areas had census tracts that had over 25% of the home valued at less than \$60,000 (less than 50% citywide median home value). All areas AB, C, D, E and F had census tracts that had over 25% of the homes valued at under \$80,000 (less than 40% citywide median home value).</p>
<p>How did your consultation and citizen participation process help you to identify this neighborhood as a target area?</p>	<p>SBA areas are documented by the City through documentation of complaints in the areas. As complaints are received about vacant and abandoned structures, an address specific project file is created our web based MPN software. The file holds photographs, site visit deficiency assessment inspection reports, correspondence with owner, Tax Assessors record and other relevant data. These files can be accessed from anywhere and reports can be run to provide a list of properties that are valid complaints that need to be resolved. The City affirms the designated areas meet the definition of slight, blighted, deteriorated under state and local law.</p>
<p>Identify the needs in this target area.</p>	<p>The removal of slum and blight was identified as a need in these areas. The City affirms the designated areas meet the definition of slight, blighted, deteriorated under state and local law.</p>

<p>What are the opportunities for improvement in this target area?</p>	<p>North 16th Street Bridge, built in 1978, connects North 16th and Stracener Streets as they merge over Bayou Rapides. It was closed due to severe deterioration in the original wooden substructure more than three years ago. A project to replace the bridge is fully funded from the City and the Metropolitan Planning Organization. Plans have been submitted to the Department of Transportation and Development and are awaiting clearance to proceed.</p> <p>Industrial Park Road connects HWY 1 to the industrial sites in the north of Area A&B. Constant, heavy-weighted traffic has negatively impacted the surface of the road. Plans to reconstruct the road have been submitted to the Department of Transportation and Development for further review and bid document preparation.</p>
<p>Are there barriers to improvement in this target area?</p>	<p>Limited or lack of funding is a barrier to improvements in the target areas. Community Development has limited funding for Code Enforcement and Demolition activity funding. The City general fund typically provides a small amount to assist the HUD CDBG dollars; however, based on the estimates that over 50% of the City qualifies as low to moderate income and over 50% also qualifies as Slum Blight, the demand for abatement far exceeds the financing needs to provide those services.</p>

General Allocation Priorities

Describe the basis for allocating investments geographically within the jurisdiction (or within the EMSA for HOPWA)

SP-25 Priority Needs - 91.215(a)(2)

Priority Needs

Table 46 – Priority Needs Summary

1	Priority Need Name	Expand/Improve Public Facilities & Infrastructure
	Priority Level	Moderate
	Population	Low Moderate Non-housing Community Development
	Geographic Areas Affected	
	Associated Goals	Not applicable
	Description	While some need exists to expand and improve public infrastructure and public facilities, in comparison to more significant priority needs this is ranked moderate, therefore, not funded under this Consolidated Plan.
	Basis for Relative Priority	Through community participation and consultation of local stakeholder partners and organizations, an interest in expanding and improving public infrastructure & facilities was identified.
2	Priority Need Name	Preserve & Develop Communities
	Priority Level	High
	Population	Low Moderate
	Geographic Areas Affected	City Wide Slum & Blight Area 1
	Associated Goals	1A. Provide for Owner Occupied Housing Rehab 1B. Increase Affordable Housing Opportunities 2. Address Slum & Blight
	Description	Preserving housing and developing affordable housing, including Homeowner Rehabilitation, Rental Rehabilitation, and Increased Homeownership Opportunities remains one of the highest priorities in the jurisdiction. Further, community revitalization in the form of code enforcement and clearance of slum and blight is needed.

	Basis for Relative Priority	Through data analysis, community participation, and consultation of local stakeholder partners and organizations the need to preserve & develop communities was identified.
3	Priority Need Name	Provide for Social Services
	Priority Level	Moderate
	Population	Extremely Low Low Moderate Families with Children Elderly Persons with Mental Disabilities Persons with Physical Disabilities Persons with Developmental Disabilities Persons with Alcohol or Other Addictions Victims of Domestic Violence Non-housing Community Development
	Geographic Areas Affected	City Wide
	Associated Goals	Not Applicable
	Description	While public services needs exist, in comparison to more other priority needs and in light of other resources available to address these concerns, this need is ranked moderate under this Consolidated Plan.
	Basis for Relative Priority	Through community participation and consultation of local stakeholder partners and organizations, an interest in supporting public services.
	4	Priority Need Name
	Priority Level	High
	Population	Extremely Low Low Moderate
	Geographic Areas Affected	City Wide
	Associated Goals	3B Provide Emergency Assistance

	Description	Provide emergency assistance for utility or rental payments for households facing hardships resulting from the COVID-19 crisis. These needs will be funded with CDBG-CV funds.
	Basis for Relative Priority	Through consultation of local stakeholder partners and organizations the need for emergency assistance for households struggling to meet housing costs was identified.
4	Priority Need Name	Economic Development Opportunities
	Priority Level	Moderate
	Population	Low Moderate Non-housing Community Development
	Geographic Areas Affected	Not Applicable
	Associated Goals	Not Applicable
	Description	Due to unemployment rates, the City acknowledges a need for economic development assistance, however, given limited resources and other pressing concerns, the City is focusing funding on other areas.
	Basis for Relative Priority	Through consultation of local stakeholder partners and organizations, an interest in economic development programs was identified.

Narrative (Optional)

SP-30 Influence of Market Conditions – 91.215 (b)

Influence of Market Conditions

DRAFT

Affordable Housing Type	Market Characteristics that will influence the use of funds available for housing type
Tenant Based Rental Assistance (TBRA)	<p>The cost of rental housing within the market is reasonable for most income levels, but it is too high for a number of residents within the City at the lowest incomes. A minimum wage earner, earning \$7.25 per hour, must work approximately 72 hours per week every year to afford a two bedroom apartment set at Fair Market Rent. According to the latest CHAS data, nearly 60% of renter households have a cost burden where more than half of their incomes go to toward housing costs. While this type of data supports the use of funds for tenant-based rental assistance, the City feels the funds are better used to improving the physical housing stock within the neighborhood.</p>
TBRA for Non-Homeless Special Needs	<p>Monthly Supplemental Security Income (SSI) payments, a common form of income for persons with special needs, for an individual average \$721. At this amount, \$216 in monthly rent is affordable. The one-bedroom FMR is \$540 or 76% of the renter's income, leaving very little funds (\$162) for other needs such as food and transportation. Based on this data, there is clearly a market-based need for tenant-based rental assistance for persons with special needs. As mentioned above, the City feels that from a strategic standpoint, physical improvements to existing housing stock make a greater impact on the neighborhoods than tenant based rental assistance.</p>
New Unit Production	<p>A review of the new housing starts in recent years reveals that a considerable portion of the units, close to 20 percent, were subsidized using affordable housing funds such as Low Income Housing Tax Credits. Hideaway Crossing (75 units), The Gates at Riverchase (56 units), the Goldonna subdivision (37 units), and Riverbend Phase IV (20 units) are all examples. This is a strong indicator that the market itself is not able to produce affordable housing units and new developments require subsidies.</p> <p>In regard to development for owner-occupied housing, there has been little activity in the CDBG target areas despite the wide availability of vacant lots for in-fill development. Current market conditions would allow for new in-fill development within these older neighborhoods, but market demand may not be sufficient.</p>
Rehabilitation	<p>The age and condition of existing housing stock within the City clearly speaks to the need for rehabilitation. The City will use its limited funds to focus on minor rehabilitation in order to get the greatest impact in the community.</p>

Acquisition, including preservation	<p>In October 2014, there were a total of 192 homes listed for sale within Alexandria. The median asking price was \$111,000. Most units (84%) included 3 or more bedrooms and the average size was approximately 1,500 square feet. Overall, homeownership within Alexandria is within reach and affordable to most income levels. Given the median sales price of \$111,000 and using current mortgage rates and terms, a family earning \$29,000 could afford to buy the median priced home. This income qualifies as “moderate income” for any household with two or more persons. Two minimum-wage workers earning working full-time throughout the year gross roughly \$29,000. As such, the City will use a portion of its funds to make homeownership more affordable.</p>
-------------------------------------	--

Table 47 – Influence of Market Conditions

DRAFT

Introduction

The main source of funding for the goals, programs, and projects discussed in this Consolidated Plan will come from the Community Development Block Grant (CDBG), the HOME Investment Partnerships Program (HOME), and CDBG funds provided by HUD under the CARES Act (CDBG-CV) to address the COVID-19 crisis. CDBG funds may be used for a broad range of activities, including housing, infrastructure, public facilities and services, and economic development, as long as the purpose of the program is to benefit persons considered to be low or moderate income (below 80% of the area median income). The CDBG-CV funds may be used for the same purpose as the regular CDBG allocation. HOME funds may only be used for affordable housing projects. This includes the acquisition and development of new housing, the rehabilitation of existing units, tenant-based rental assistance, and homebuyer assistance. The City expects to leverage and attract additional funding sources to help meet its goals, including homeless and construction funds from the State of Louisiana, and private funding invested in the HOME-assisted affordable housing developments. The totals for the remaining Con Plan Years is an estimated based on the 2020 allocations remaining consistent over the term of this Plan.

Anticipated Resources

Program	Source of Funds	Uses of Funds	Expected Amount Available Year 1				Expected Amount Available Remainder of ConPlan \$	Narrative Description
			Annual Allocation: \$	Program Income: \$	Prior Year Resources: \$	Total: \$		
CDBG	public - federal	Acquisition Admin and Planning Housing Public Improvements Public Services	422,981	0	70,178.73	493,159.73	1,691,924	
HOME	public - federal	Acquisition Homebuyer assistance Homeowner rehab Multifamily rental new construction Multifamily rental rehab New construction for ownership	255,651	0	320,744.77	576,395.77	1,022,604	
CDBG-CV	public - federal	Admin and Planning Public Services	248,812.00	0	0	0	248,812	

Table 48 - Anticipated Resources

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

City will has requested a waiver of match requirements. With this waiver in place, the City will be relieved from contributing match for funds expended between October 1, 2019 and September 30, 2021.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

At the current time, the City does not own land or property that will be used to address the needs and goals identified in the plan. The City is funding a program to address the legal complexities that arise when properties are transferred through inheritance, which can result in additional blighted properties. Further, the City is exploring the possibilities of developing a Land Bank in future years.

Discussion

SP-40 Institutional Delivery Structure – 91.215(k)

Explain the institutional structure through which the jurisdiction will carry out its consolidated plan including private industry, non-profit organizations, and public institutions.

Responsible Entity	Responsible Entity Type	Role	Geographic Area Served
ALEXANDRIA	Government	Economic Development Homelessness Non-homeless special needs Ownership Planning neighborhood improvements public facilities public services	Jurisdiction
Alexandria Housing Authority	PHA	Public Housing	Jurisdiction
INNER-CITY REVITALIZATION CORPORATION	CHDO	Ownership Rental	Jurisdiction
Central Louisiana Coalition to End Homelessness	Continuum of Care Lead	Homelessness Rental	Region
CENLA Community Action Committee	Non-profit organizations	Public services	Region

Table 49 - Institutional Delivery Structure

Assess of Strengths and Gaps in the Institutional Delivery System

The City of Alexandria Community Development Department acts as the lead agency for the development and administration of the Consolidated Plan and its funded projects. The Community Development Department relies on a number of partners, including non-profit organizations, contractors, and other public agencies to undertake the projects funded through the Consolidated Plan. The City is fortunate to have a number of qualified staff at the subrecipient level and quality non-profit organizations to assist in the implementation of its Consolidated Plan. The City has identified one serious gap in the institutional delivery system and a number of areas where the City will work to improve the delivery of the funded programs.

The largest gap within the institutional delivery system is the lack of an emergency shelter for women. While no agency has stepped forward with a proposal to establish an emergency shelter for women, the City discussed with the Continuum of Care and some of its members the possibility of working with the local network of churches to provide emergency shelter services on a “round-robin” basis using facilities in place for disaster responsiveness. The City will explore this possibility further in the course of the program year.

Currently, the City only has one active Community Housing Development Organization (CHDO). There is a need to develop and build the capacity of local organizations that could potentially qualify as a CHDO to carry out affordable housing development projects. In the medium term, the City will actively seek out qualified agencies who could act as a CHDO. However, in the short term, the City requested a waiver lifting the requirement that it use 15 percent of each annual allocation of HOME funds only for housing owned, developed, or sponsored by CHDOs for the 2017, 2018, 2019, and 2020 allocation years. The suspension and waiver of this requirement reduces the set-aside requirement to zero and allows the City to expeditiously assist families affected by the COVID-19 pandemic by immediately making additional HOME funds available for activities for which CHDO set-aside funds cannot be used.

With respect to homeownership, the City has had difficulty in recent years identified qualified buyers for units. More targeted and cooperative work is needed to create a pipeline of eligible buyers.

One of the greatest gaps the CoC has in its delivery system is the lack of involvement of non-funded agencies by HUD to collaborate and work together. The Salvation Army and other smaller non-profits that are addressing homelessness do not share data through the CoC’s database called HMIS to ensure services to individuals are streamlined and consistent. However, more churches are beginning to get involved in using this database as they help homeless individuals with financial assistance.

Table 50 - Homeless Prevention Services Summary

Describe how the service delivery system including, but not limited to, the services listed above meet the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth)

As part of the intake process of Continuum members, providers require that program participants enroll in mainstream benefits. In addition, Volunteers of America offers two programs, Assertive Community Outreach Program and Behavioral Health, that provide case management to mentally ill adults that live independently. This service is performed by degreed case managers that offer life skills training, transportation for mental health appointments, budgeting, assistance with understanding medications and more. Providers routinely refer participants to programs such as the Dept of Labor's workforce one stop for job training and resume building, and Main Street Mission for various other services.

Describe the strengths and gaps of the service delivery system for special needs population and persons experiencing homelessness, including, but not limited to, the services listed above

The service delivery system for the special needs and homeless population within the City has many strengths. The Continuum of Care is made up of a number of dedicated organizations that work well together.

The major gap in the local service delivery system for persons experiencing homelessness is the lack of emergency shelter for women. Overall, a lack of rental housing in standard condition that is affordable to households at or below 30% of median income could be considered another gap.

Provide a summary of the strategy for overcoming gaps in the institutional structure and service delivery system for carrying out a strategy to address priority needs

The City is planning to take a number of efforts to address the gaps and weaknesses in its local institutional structure.

First, the City will work with the Continuum to explore alternative solutions to an emergency women's shelter. During discussions with homeless providers during the planning process, there was discussion of working with an interfaith group of churches to use space currently reserved for disaster response for emergency shelter on a "round-robin" basis where one church or organization would sponsor each month.

Second, the City will work with partners to prepare potential buyers for homeownership units.

Third, the City will continue working with the CoC to strengthen partnerships that serve the City's most vulnerable populations.

SP-45 Goals Summary – 91.215(a)(4)

Goals Summary Information

Sort Order	Goal Name	Start Year	End Year	Category	Geographic Area	Needs Addressed	Funding	Goal Outcome Indicator
1	1A. Provide for Owner Occupied Housing Rehab	2020	2024	Affordable Housing		Preserve & Develop Communities	CDBG: 900,000.00: HOME: 1,079,002.90	Homeowner Housing Rehabilitated: 85 Household Housing Unit
2	1B. Increase Affordable Housing Opportunities	2020	2024	Affordable Housing		Preserve & Develop Communities	CDBG: 560,380 HOME: 519,996.87	Homeowner Housing Added: 5 Household Housing Unit Direct Financial Assistance to Homebuyers: 20 Households Assisted
3	2. Address Slum & Blight	2020	2024	Affordable Housing		Preserve & Develop Communities	CDBG: 724,703.73	Buildings Demolished: 50 Buildings Housing Code Enforcement/Foreclosed Property Care: 375 Household Housing Unit

Sort Order	Goal Name	Start Year	End Year	Category	Geographic Area	Needs Addressed	Funding	Goal Outcome Indicator
4	3. Provide Emergency Assistance	2020	2021	Non-Homeless Special Needs		Provide for Emergency Assistance	CDBG-CV: 248,812.00	Public service activities other than Low/Moderate Income Housing Benefit: 500 Persons Assisted

Table 51 – Goals Summary

Goal Descriptions

1	Goal Name	1A. Provide for Owner Occupied Housing Rehab
	Goal Description	<p>The City will fund a CDBG Minor Rehab Program.</p> <p>Minor Rehab can include a variety of work but prioritizes repairs that increase the health and safety of the unit. The goal of the Minor Rehab program is to assist homeowners to address deferred maintenance issues that could not otherwise afford to address and will allow the owner to maintain their home. Roofing, electrical, plumbing, and carpentry may be considered as part of this program. For roofing, applicants may receive up to \$15,000. For electrical, plumbing, and carpentry repairs, applicants may receive up to \$5,000. All funds are administered as grants. These funds may be leveraged with additional funds through a grant from the FDIC, if received.</p>

2	Goal Name	1B. Provide Affordable Housing Opportunities
	Goal Description	The City will support new affordable housing rental and homeownership development. New development includes projects that involve acquisition, new construction, and rehabilitation. The City may also use available funds to help homebuyers with the purchase of their homes. The City will also support homebuyer education classes to ensure potential homebuyers are ready for homeownership. By increasing the homeownership rate, residents will have a greater stake in the quality of their neighborhoods. New rental development projects may include projects that involve acquisition, new construction, and rehabilitation. These projects may be leveraged by funds from the State and from through Low Income Housing Tax Credits or other state funds. By increasing available affordable rental units, the City will provide housing to households in need of safe and decent opportunities. The City's five year goal is based on the assumption that HOME funding will remain fairly constant over the period of the plan.
3	Goal Name	2. Address Slum & Blight
	Goal Description	The City will fund two programs to eliminate blighted conditions within its jurisdiction: Demolition and Code Enforcement. CDBG will fund demolition and clearance of vacant, abandoned, and deteriorated structures in order to eliminate specific conditions of blight or physical decay. The City estimates it will be able to demolish 60 blighted properties through this program over the five year period. CDBG will fund a code enforcement program to address substandard vacant units within target areas to attempt to arrest the blighting influence these units have in neighborhoods. The City estimates that this program will address 150 blighted properties.
4	Goal Name	3. Provide Emergency Assistance
	Goal Description	The City will use CDBG-CV funds to support households struggling as a result of COVID-19 with emergency assistance for utility or rental payments for up to 90 days.

Estimate the number of extremely low-income, low-income, and moderate-income families to whom the jurisdiction will provide affordable housing as defined by HOME 91.315(b)(2)

Over the course of the five year plan, the City estimates that it will subsidize the development of five to ten HOME-assisted units. The number of units will be dependent on the size of future HOME allocations and the type of housing projects undertaken by the CHDO.

DRAFT

SP-50 Public Housing Accessibility and Involvement – 91.215(c)

Need to Increase the Number of Accessible Units (if Required by a Section 504 Voluntary Compliance Agreement)

Per the consultation with the housing authority, there is not a current need to increase the number of accessible units.

Activities to Increase Resident Involvements

The Alexandria Housing Authority has policies and procedures currently in place to encourage active participation from residents. There are monthly resident council meetings held at each of the developments. Residents are invited to meet and greet, share their concerns and organize activities for their developments. One or more employees of the AHA are always present to answer questions and document the concerns of the residents. In addition, one resident is appointed to the Board of Commissioners. The AHA conducts periodic customer satisfaction surveys as a means for residents to discreetly voice their concerns and to ensure that the best possible customer service is being provided by the agency. In regard to homeownership, the AHA is planning to offer homeownership as an option through its Housing Choice Voucher Program.

Is the public housing agency designated as troubled under 24 CFR part 902?

No

Plan to remove the 'troubled' designation

N/A

SP-55 Barriers to affordable housing – 91.215(h)

Barriers to Affordable Housing

In 1991, HUD published a study that found regulatory barriers—public processes and requirements that significantly impede the development of affordable housing without commensurate health or safety benefits—directly raise development costs in some communities by as much as 35 percent. A number of causes, including infrastructure costs, local building practices, bureaucratic inertia, and property taxes contributed to this network of barriers. The report concluded that opposition to affordable housing, often called “Not In My Back Yard” or NIMBY, was the underlying motive that lay behind many of these regulatory barriers to intentionally limit growth in general and affordable housing in particular.

The City feels that it has few, if any, local regulatory barriers that impede the development of affordable housing. With that said, there are two significant barriers, one at the state level and the other at the federal level, that have an adverse effect on the City's ability to carry out its Strategic Plan. First, there are large number of blighted properties within the CDBG target areas that have clouded title as a result of inheritance. Current state law makes it difficult for the City to clear title on these properties in order to redevelop them. Secondly, the flood insurance requirements tied to the CDBG and HOME program require assisted homeowners who reside in flood prone areas to carry flood insurance as a condition for receiving assistance. A good portion of the homes in the CDBG target areas would need to buy flood insurance in order to receive significant housing assistance. The City believes that this requirement significantly affects its ability to revitalize its target areas.

Strategy to Remove or Ameliorate the Barriers to Affordable Housing

Beginning in the first year of this Strategic Plan, the City will fund a legal services program aimed at assisting current owners in the City with ensuring their homes do not have issues with clouded title upon sale or transfer. This should help prevent additional properties from becoming blighted and abandoned when the current residents transfer the property.

In regard to the flood insurance requirements, the City will explore different possibilities in terms of program design of its housing programs to reduce the affects of the federal requirement. Potential solutions include using the federal dollars to leverage additional assistance from local lenders, subsidizing the insurance premium with CDBG funds, and making bigger per-unit investments to address flood concerns.

SP-60 Homelessness Strategy – 91.215(d)

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The CoC utilizes the services of the outreach teams to spread the word about programs and services available to the general homeless population, regardless of race, color, national origin, religion, sex, age, familial status, or disability. As part of its strategic planning process, the CoC plans to ensure that outreach materials are available to anyone with a disability or anyone of a different national origin. Volunteers of Americas outreach program serves those persons who routinely sleep on the streets. The outreach team is familiar with the locations of "camps" where homeless people tend to live.

In addition, VOA holds a monthly outreach event called "Helping to Overcome Homelessness (H2O)". The H2O event establishes a "one stop shop" for homeless services, wherein providers across the CoC set up and provide services such as HIV/AIDS testing, VI-SPDAT assessments, Veteran's services, food, clothing, and more. By holding the event at the end of the month, the event caters to the needs of unsheltered people whose resources of SSI/SSDI have run out. As part of the outreach plan for rural communities, this H2O model is being expanded to rural communities throughout the geographic area, with events planned in all eight of the parishes served by the CoC.

Addressing the emergency and transitional housing needs of homeless persons

The City, through the Continuum, will continue to support the existing emergency and transitional shelters in place. The City will also provide support to the new day shelter that will provide ongoing supportive services to homeless individuals. The City will also be funding a pilot project to divert households on the verge of homelessness away from the shelter environment to alternative living situations with friends and families.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.

The CoC has developed a Committee on Chronic Homelessness that includes street outreach workers and case managers of PSH programs. The committee is responsible for identifying, assessing, and prioritizing chronically homeless individuals for placement into PSH programs.

Locally, resources for homeless veterans are plentiful. The CoC is also requesting additional rapid rehousing funds to serve literally homeless families.

In regard to preventing a return to homelessness, each provider within the CoC conducts follow-up at 90 days, 180 days, and twelve month intervals. These follow-up assessments are documented within the CoC's HMIS. During the follow-up, if an issue is discovered that could possibly result in a family returning to homelessness, the Case Manager provides ongoing case management sessions to assist the family with obtaining the proper supports to prevent them from returning to homelessness.

Help low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families who are likely to become homeless after being discharged from a publicly funded institution or system of care, or who are receiving assistance from public and private agencies that address housing, health, social services, employment, education or youth needs

In the current program year, the City will fund a program aimed at diverting homeless and near homeless away from the shelter system and to living arrangements with families and friends.

The CoC has adopted the following discharge coordination policies to prevent homelessness for those leaving the care of public institutions:

1. Foster Care

Locally, the foster care system collaborates with Eckerd to provide wrap-around services to the population that is leaving foster care. Eckerd assists these participants with seeking mainstream benefits and housing supports to ensure that they do not become homeless as a result of leaving the foster care system.

2. Health Care

Locally, hospitals are beginning to reach out to CoC providers in advance of someone being discharged so that proper assessments can take place before the person is discharged. The CoC can assist the hospital in seeking housing options so that no one is homeless upon discharge. Housing options might include placement in a PSH program if the person is deemed chronically homeless, linkages to programs like SSVF and VASH if they are leaving the VA Hospital, and referrals to programs for those who are mentally ill and/or substance abusers.

3. Mental Health

Volunteers of America has been designated by the CoC as the agency that provides linkages between the mental health system and the homeless system. Volunteers of America has several programs that are not CoC-funded that link persons to resources available to ensure housing stability, and also has three PSH CoC-funded programs that serve only those chronically homeless individuals/families who have a mental illness. With mental illness the leading cause of homelessness locally, having a PSH program where beds are designated specifically for this population ensures that no mentally ill person leaving a mental health facility will be homeless.

4. Corrections

The Louisiana Department of Corrections routinely refers people to the local Re-entry Solutions program. Re-entry Solutions is a local nonprofit that provides services to persons who are recently released from incarceration, in addition to providing services the families of those who are incarcerated. Re-entry Solutions works with project participants to obtain jobs, and even provides temporary housing for some of the participants through the Safe Landing program. Volunteers of America is now providing case management and housing assistance to ex-offenders being released into Rapides Parish. Ex-offenders are followed for 6 months upon release from prison and are assessed according to their needs before release to ensure a reduce in recidivism: housing, transportation, education, employment development, legal, and more.

DRAFT

SP-65 Lead based paint Hazards – 91.215(i)

Actions to address LBP hazards and increase access to housing without LBP hazards

The City will ensure all of its federally-funded housing programs are in full compliance with the lead-based paint hazard regulations (24 CFR Part 35). This includes assisting households with the appropriate lead-based paint inspection, testing, and abatement of lead-based paint hazards. The City will provide education through the distribution of lead-based paint information and literature and will seek greater coordination with state agencies to leverage additional resources.

In April 2010, EPA extended current requirements regarding lead-safe work practices to cover most pre-1978 housing and require renovation firms to perform quantitative dust testing to achieve dust-lead levels that comply with EPA's regulatory standards. The City will work with its contractors, subrecipients and community partners to ensure all funded programs are in full compliance with the updated regulation.

How are the actions listed above related to the extent of lead poisoning and hazards?

The City is not taking any stand-alone action to specifically address lead paint or lead poisoning hazards. Instead, the City will address lead-based paint on a case-by-case basis for the housing units assisted through its housing programs. The City has applied for a lead-based paint abatement grant through HUD, and is hopeful for this resource that will allow it to better target this issue.

How are the actions listed above integrated into housing policies and procedures?

The lead safe housing regulations are fully integrated into the design of the City's housing programs. This includes disclosure, determination of assistance threshold, lead safe work practices, and level of treatment.

SP-70 Anti-Poverty Strategy – 91.215(j)

Jurisdiction Goals, Programs and Policies for reducing the number of Poverty-Level Families

Residents have a 41.8% higher median household income than they did in 2000. Unfortunately, however, due to inflation residents actually have less buying power. In 2000, the median household income of \$26,097 had a buying power of \$37,544 in 2017 dollars. Financially, residents are, on average, worse off now than they were, which can lead to increases in poverty and substandard living.

According to a study funded by the twelve United Way organizations in Louisiana, "ALICE: Asset Limited, Income Constrained and Employed," 19% of the households in Rapides Parish had incomes at or below the poverty level, but another 28 percent reported incomes above poverty but below the ALICE threshold. For the city of Alexandria, a total of 17,837 households – 55 percent – fell below the ALICE and poverty thresholds.

There is a high correlation between low levels of educational attainment and poverty. Almost half (45%) of those who do not finish high school live in poverty. For those who finish high school, the poverty rate drops to 14%. Employment has a comparable correlation. 44% of unemployed persons over age 16 are in poverty, whereas only 11% who are employed are below the poverty line. However, of the approximately 6,000 residents over 25 who are in poverty, one-third have jobs but remain in poverty.

Given the statistics stated above, the City's efforts to reduce the number of poverty-level families should focus on support services to single-parent households and educational support and job training programs to ensure residents receive at least a high school diploma.

When feasible, the City will provide job training, employment, and contract opportunities for public housing residents and other low- and moderate-income residents in connection with construction projects funded under the Consolidated Plan. This provision helps foster local economic development, neighborhood economic improvement, and individual self-sufficiency. In this way, the City will comply with Section 3 of the Housing and Urban Development Act of 1968. The City has set the following goals in relation to its Section 3-covered projects: (1) thirty percent of new hires will be Section 3 residents, and (2) ten percent of all Section 3-covered contracts will be awarded to Section 3 businesses.

How are the Jurisdiction poverty reducing goals, programs, and policies coordinated with this affordable housing plan

In terms of coordinating poverty reduction efforts and the affordable housing actions of this plan, the City will comply with the Section 3 requirements. The purpose of Section 3 is ensure that low and extremely low income persons, including those in poverty, benefit when the use of federal funds results in the creation of new job opportunities.

SP-80 Monitoring – 91.230

Describe the standards and procedures that the jurisdiction will use to monitor activities carried out in furtherance of the plan and will use to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

The City of Alexandria has implemented plans to effect comprehensive monitoring of programs and activities described in the Consolidated Plan. Monitoring plans have also been developed for organizations and activities funded by the City to further activities outlined in the Consolidated Plan. The monitoring plan is directed to ensure program performance, financial performance, and regulatory compliance.

The Community Development Department of the City of Alexandria is the primary entity for carrying out programs in the 2020 Action Plan. The Division has procedures in place to monitor and evaluate work-in-progress, expenditures, and beneficiaries of programs described in the Action Plan. The overall goal of the City of Alexandria monitoring process is to identify deficiencies and promote corrections to improve and reinforce performance.

The procedures planned for use in monitoring applicable programs and projects undertaken by other organizations are comprehensive by design and will be carried out on differing schedules and in differing formats dependent upon the scope and nature of the individual projects. Organizations or entities requiring monitoring by the City will be notified of the planned monitoring procedures, which include:

- The provision of technical assistance in the areas of project implementation and required record keeping
- Extensive on-site reviews of each project and associated records
- Formal grant agreements that are approved by the city council and executed with each nonprofit agency or subcontractor
- Yearly monitoring to determine compliance with the requirements of the grant agreement
- All capital improvement contracts will be monitored for compliance with Davis-Bacon wages, Section 3 and other federal requirements during the construction of the project.

All rehabilitation and new construction projects are inspected during construction and at completion to ensure compliance with applicable housing code requirements. Any discrepancies are corrected prior to approval. Rental property rehabilitation projects are inspected annually during the affordability period to ensure compliance.

The City of Alexandria Community Development staff will perform required monitoring functions to ensure long-term compliance with applicable regulations as well as executed contracts, agreements, and regulatory requirements of the various programs administered by the City. The monitoring process has been designed to function on an extended basis to guarantee compliance with comprehensive planning

requirements, affordability, leasing and other long-term requirements. The City of Alexandria plans to fully protect the investment of public funds in those projects and activities implemented by the City and those undertaken by other individuals and organizations. Specific areas of compliance monitoring will include:

- Timely performance of required activities
- Construction standards
- Compliance with applicable regulations, including affordability requirements, eligibility of program beneficiaries, labor requirements, environmental regulations, affirmative action, equal opportunity, fair housing, ADA, Section 3, and minority outreach requirements.
- Maintenance of acceptable financial management standards
- Reasonableness and appropriateness of costs
- Integrity and composition of organization
- Timeliness of expenditures
- Compliance with goals and objectives

In the event of nonperformance or breach of agreements, the City will fully enforce remedies on default or other means of satisfactorily achieving the goals and intended purposes of Consolidated Plan programs. Monitoring standards and procedures will be evaluated and modified, as needed, to ensure all program requirements are adhered to and addressed satisfactorily.

Expected Resources

AP-15 Expected Resources – 91.220(c)(1,2)

Introduction

The main source of funding for the goals, programs, and projects discussed in this Consolidated Plan will come from the Community Development Block Grant (CDBG), the HOME Investment Partnerships Program (HOME), and CDBG funds provided by HUD under the CARES Act (CDBG-CV) to address the COVID-19 crisis. CDBG funds may be used for a broad range of activities, including housing, infrastructure, public facilities and services, and economic development, as long as the purpose of the program is to benefit persons considered to be low or moderate income (below 80% of the area median income). The CDBG-CV funds may be used for the same purpose as the regular CDBG allocation. HOME funds may only be used for affordable housing projects. This includes the acquisition and development of new housing, the rehabilitation of existing units, tenant-based rental assistance, and homebuyer assistance. The City expects to leverage and attract additional funding sources to help meet its goals, including homeless and construction funds from the State of Louisiana, and private funding invested in the HOME-assisted affordable housing developments. The totals for the remaining Con Plan Years is an estimated based on the 2020 allocations remaining consistent over the term of this Plan.

Anticipated Resources

Program	Source of Funds	Uses of Funds	Expected Amount Available Year 1				Expected Amount Available Remainder of ConPlan \$	Narrative Description
			Annual Allocation: \$	Program Income: \$	Prior Year Resources: \$	Total: \$		
CDBG	public - federal	Acquisition Admin and Planning Housing Public Improvements Public Services	422,981	0	70,178.73	493,159.73	1,691,924	
HOME	public - federal	Acquisition Homebuyer assistance Homeowner rehab Multifamily rental new construction Multifamily rental rehab New construction for ownership	255,651	0	320,744.77	576,395.77	1,022,604	
CDBG-CV	public - federal	Admin and Planning Public Services	248,812.00	0	0	0	248,812	

Table 52 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

City will has requested a waiver of match requirements. With this waiver in place, the City will be relieved from contributing match for funds expended between October 1, 2019 and September 30, 2021.

f appropriate, describe publically owned land or property located within the jurisdiction that

may be used to address the needs identified in the plan

At the current time, the City does not own land or property that will be used to address the needs and goals identified in the plan. The City is funding a program to address the legal complexities that arise when properties are transferred through inheritance, which can result in additional blighted properties. Further, the City is exploring the possibilities of developing a Land Bank in future years.

Discussion

DRAFT

Annual Goals and Objectives

AP-20 Annual Goals and Objectives
Goals Summary Information

Sort Order	Goal Name	Start Year	End Year	Category	Geographic Area	Needs Addressed	Funding	Goal Outcome Indicator

Table 53 – Goals Summary

Goal Descriptions

1	Goal Name	1A. Provide for Owner Occupied Housing Rehab
	Goal Description	<p>The City will fund a CDBG Minor Rehab Program. Minor Rehab can include a variety of work but prioritizes repairs that increase the health and safety of the unit. The goal of the Minor Rehab program is to assist homeowners to address deferred maintenance issues that could not otherwise afford to address and will allow the owner to maintain their home. Roofing, electrical, plumbing, and carpentry may be considered as part of this program. For roofing, applicants may receive up to \$15,000. For electrical, plumbing, and carpentry repairs, applicants may receive up to \$5,000. All funds are administered as grants. These funds may be leveraged with additional funds through a grant from the FDIC, if received.</p>
2	Goal Name	1B Provide Affordable Housing Opportunities
	Goal Description	<p>The City will support new affordable housing rental and homeownership development. New development includes projects that involve acquisition, new construction, and rehabilitation. The City may also use available funds to help homebuyers with the purchase of their homes. The City will also support homebuyer education classes to ensure potential homebuyers are ready for homeownership. By increasing the homeownership rate, residents will have a greater stake in the quality of their neighborhoods. New rental development projects may include projects that involve acquisition, new construction, and rehabilitation. These projects may be leveraged by funds from the State and from through Low Income Housing Tax Credits and other state funds. By increasing available affordable rental units, the City will provide housing to households in need of safe and decent opportunities. The City's five year goal is based on the assumption that HOME funding will remain fairly constant over the period of the plan.</p>

3	Goal Name	2. Address Slum & Blight
	Goal Description	<p>The City will fund two programs to eliminate blighted conditions within its jurisdiction: Demolition and Code Enforcement.</p> <p>CDBG will fund demolition and clearance of vacant, abandoned, and deteriorated structures in order to eliminate specific conditions of blight or physical decay. The City estimates it will be able to demolish 60 blighted properties through this program over the five year period.</p> <p>CDBG will fund a code enforcement program to address substandard vacant units within target areas to attempt to arrest the blighting influence these units have in neighborhoods. The City estimates that this program will address 150 blighted properties.</p>
4	Goal Name	3. Provide Emergency Assistance
	Goal Description	The City will use CDBG-CV funds to support households struggling as a result of COVID-19 with emergency assistance for utility or rental payments for up to 90 days.

Projects

AP-35 Projects – 91.220(d)

Introduction

Projects

1	CDBG: Administration (20%)
2	CDBG: Housing Programs
3	CDBG: Slum & Blight Removal
4	CDBG-CV: Administration (20%)
5	CDBG-CV- Public Services
6	HOME: Administration (25%)
7	HOME: Non-CHDO Development Activities

Table 54 – Project Information

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

The rationale for allocation priorities comes from a combination of the following elements:

- The input and feedback received by through the community input and consultation process.
- The recommendations of city staff and officials based on past performance of programs.
- The amount of funds available through the CDBG and HOME allocations.
- The limitations imposed by the federal programs. For example, HOME dollars must be used for affordable housing.

The City has identified a number of obstacles to meeting its needs, including the lack of interested contractors in the City's housing rehabilitation programs, the flood insurance requirements associated with the City's housing rehabilitation programs, and the lack of an emergency shelter for women.

Given challenges presented in meeting community needs as a result of the COVID-19 crisis, the City has requested and received authority to implement waivers for the HOME program that will provide greater flexibility in the use of HOME funds. A description of the waivers follows:

1. 10% Administration and Planning Cap

Specific Condition justifying use of waiver of Section 212(c) of NAHA and 24 CFR 92.207:

This waiver allows an increase in administrative expenditures up to 25% of its annual HOME allocation, plus program income, for FY 2019 and FY 2020 allocations. This waiver will provide the City with adequate funds to pay for the increased cost of administering HOME-related activities to address the effects of COVID-19, including attempts to prevent the spread of the virus. It will also help to relieve the burden of identifying other general funds to pay HOME administrative and planning costs at a time when local tax revenues that provide general operating revenue are decreasing.

➔ 2. CHDO Set-aside Requirement

Specific Condition justifying use of waiver of Section 231 of NAHA and 24 CFR 92.300(a)(1)

This waiver lifts the requirement that a PJ use 15 percent of each annual allocation of HOME funds only for housing owned, developed, or sponsored by CHDOs for the 2017, 2018, 2019, and 2020 allocation years. The suspension and waiver of this requirement reduces the set-aside requirement to zero and allows the City to expeditiously assist families affected by the COVID-19 pandemic by immediately making additional HOME funds available for activities for which CHDO set-aside funds cannot be used.

	Target Date	3/31/2021
	Estimate the number and type of families that will benefit from the proposed activities	Not Applicable
	Location Description	Not Applicable

	Planned Activities	The City will conduct planning and administration activities including, but not limited to, programmatic and fiscal oversight of all funded activities.
5	Project Name	CDBG-CV: Public Services
	Target Area	City Wide
	Goals Supported	3. Provide Emergency Assistance
	Needs Addressed	Provide for Emergency Assistance
	Funding	\$200,000
	Description	Provide emergency assistance to those challenged to meet utility needs due to the COVID-19 crisis.
	Target Date	3/31/2021
	Estimate the number and type of families that will benefit from the proposed activities	Approximately 500 families will be assisted.
	Location Description	City Wide
	Planned Activities	The CARES Act, Phase I, Emergency Utility Assistance Program for the City of Alexandria is designed to help low-income households, directly impacted by COVID-19, to pay their heating and cooling bills. The program shall also increase their knowledge of Energy Conservation as a requisite to receive assistance. This program targets the low to moderate income households, based on household income and family size, especially those low to moderate income households that include the elderly, persons with disabilities and young children. This service was identified as the highest demand need due to COVID-19 for the City of Alexandria (COA). The Community Development Department (CmDv) will administer the program and manage the CDBG-CV funding on behalf of the City, using a sub-recipient.
6	Project Name	HOME: Administration (25%)
	Target Area	Not Applicable
	Goals Supported	1A. Provide for Owner Occupied Housing Rehab 1B Provide for Affordable Housing Opportunities
	Needs Addressed	Preserve & Develop Communities
	Funding	\$66,399.29

	Goals Supported	1A. Provide for Owner Occupied Housing Rehab 1B Increase Affordable Housing Opportunities
	Needs Addressed	Preserve & Develop Communities
	Funding	\$509,996.48
	Description	Acquisition, rehab, or new construction of affordable single-family and multi-family rental or homeownership units.
	Target Date	3/31/2021
	Estimate the number and type of families that will benefit from the proposed activities	The City anticipates purchasing approximately three lots and rehabbing or constructing approximately three units.
	Location Description	City-Wide
	Planned Activities	Activities will be selected as lots are identified and applicants are selected.

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

In the development of the Consolidated Plan, one target area was defined and approved beyond the city-wide target area. This target area is referred to as the Slum & Blight Area 1 and includes four contiguous areas within the City.

Geographic Distribution

Target Area	Percentage of Funds
Slum & Blight Area 1	30

Table 55 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

Concentrating resources in specific geographies is necessary to adequately address the scale of needs and achieve short and long-term improvements to identified substandard conditions such as deteriorated housing and infrastructure. The result of geographical allocation of HUD funding is efficient and effective use of the funds to elevate and create more opportunities for areas where needs are greatest.

Discussion

AP-60 Public Housing – 91.220(h)

Introduction

Public Housing within the City is administered by the City of Alexandria Public Housing Authority. While the City will coordinate closely with the PHA and share information about their respective programs, the City does not plan on providing financial assistance to the PHA. The PHA receives its own allocation from HUD.

Actions planned during the next year to address the needs to public housing

While the City has not budgeted any funds to public housing projects, the City will coordinate more closely with the public housing agency in the upcoming plan year. Some potential actions may include marketing of the homebuyer education and downpayment assistance programs to public housing residents, posting job and employment opportunities at public housing developments to attract section 3-qualified residents, and continue discussions with the PHA regarding the creation of a subsidiary non-profit developer that could qualify as a CHDO.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

The Alexandria Housing Authority encourages active participation from residents. There are monthly resident council meetings held at each of the developments. Residents are invited to meet and greet, share their concerns and organize activities for their developments. One or more employees of the AHA are always present to answer questions and document the concerns of the residents.

In addition, one resident is appointed to the Board of Commissioners. The AHA conducts periodic customer satisfaction surveys as a means for residents to discreetly voice their concerns and to ensure that the best possible customer service is being provided by the agency.

In regard to homeownership, the AHA is planning to offer homeownership as an option through its Housing Choice Voucher Program.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

N/A

Discussion

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

The City addresses homelessness through its participation in the local Continuum of Care (CoC). The CoC is an umbrella group of 30 agencies and service providers that joined together to create a unified approach to serving the homeless needs of Central Louisiana. The Central Louisiana Homeless Coalition is the lead member of the CoC.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The CoC utilizes the services of the outreach teams to spread the word about programs and services available to the general homeless population, regardless of race, color, national origin, religion, sex, age, familial status, or disability. As part of its strategic planning process, the CoC plans to ensure that outreach materials are available to anyone with a disability or anyone of a different national origin. Volunteers of Americas outreach program serves those persons who routinely sleep on the streets. The outreach team is familiar with the locations of "camps" where homeless people tend to live.

In addition, VOA holds a monthly outreach event called "Helping to Overcome Homelessness (H2O)". The H2O event establishes a "one stop shop" for homeless services, wherein providers across the CoC set up and provide services such as HIV/AIDS testing, VI-SPDAT assessments, Veteran's services, food, clothing, and more. By holding the event at the end of the month, the event caters to the needs of unsheltered people whose resources of SSI/SSDI have run out. As part of the outreach plan for rural communities, this H2O model is being expanded to rural communities throughout the geographic area, with events planned in all eight of the parishes served by the CoC.

Addressing the emergency shelter and transitional housing needs of homeless persons

The City, through the Continuum, will continue to support the existing emergency and transitional shelters in place. The City will also provide support to the new day shelter that will provide ongoing supportive services to homeless individuals. The City will also be funding a pilot project to divert households on the verge of homelessness away from the shelter environment to alternative living situations with friends and families.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals

and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The CoC has developed a Committee on Chronic Homelessness that includes street outreach workers and case managers of PSH programs. The committee is responsible for identifying, assessing, and prioritizing chronically homeless individuals for placement into PSH programs.

Locally, resources for homeless veterans are plentiful. The CoC is also requesting additional rapid rehousing funds to serve literally homeless families.

In regard to preventing a return to homelessness, each provider within the CoC conducts follow-up at 90 days, 180 days, and twelve month intervals. These follow-up assessments are documented within the CoC's HMIS. During the follow-up, if an issue is discovered that could possibly result in a family returning to homelessness, the Case Manager provides ongoing case management sessions to assist the family with obtaining the proper supports to prevent them from returning to homelessness.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

In the current program year, the City will fund a program aimed at diverting homeless and near homeless away from the shelter system and to living arrangements with families and friends.

The CoC has adopted the following discharge coordination policies to prevent homelessness for those leaving the care of public institutions:

1. Foster Care

Locally, the foster care system collaborates with Eckerd to provide wrap-around services to the population that is leaving foster care. Eckerd assists these participants with seeking mainstream benefits and housing supports to ensure that they do not become homeless as a result of leaving the foster care system.

2. Health Care

Locally, hospitals are beginning to reach out to CoC providers in advance of someone being discharged so that proper assessments can take place before the person is discharged. The CoC can assist the hospital in seeking housing options so that no one is homeless upon discharge. Housing options might include placement in a PSH program if the person is deemed chronically homeless, linkages to programs like SSVF and VASH if they are leaving the VA Hospital, and referrals to programs for those who are

mentally ill and/or substance abusers.

3. Mental Health

Volunteers of America has been designated by the CoC as the agency that provides linkages between the mental health system and the homeless system. Volunteers of America has several programs that are not CoC-funded that link persons to resources available to ensure housing stability, and also has three PSH CoC-funded programs that serve only those chronically homeless individuals/families who have a mental illness. With mental illness the leading cause of homelessness locally, having a PSH program where beds are designated specifically for this population ensures that no mentally ill person leaving a mental health facility will be homeless.

4. Corrections

The Louisiana Department of Corrections routinely refers people to the local Re-entry Solutions program. Re-entry Solutions is a local nonprofit that provides services to persons who are recently released from incarceration, in addition to providing services the families of those who are incarcerated. Re-entry Solutions works with project participants to obtain jobs, and even provides temporary housing for some of the participants through the Safe Landing program. Volunteers of America is now providing case management and housing assistance to ex-offenders being released into Rapides Parish. Ex-offenders are followed for 6 months upon release from prison and are assessed according to their needs before release to ensure a reduce in recidivism: housing, transportation, education, employment development, legal, and more.

Discussion

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

In 1991, HUD published a study that found regulatory barriers—public processes and requirements that significantly impede the development of affordable housing without commensurate health or safety benefits—directly raise development costs in some communities by as much as 35 percent. A number of causes, including infrastructure costs, local building practices, bureaucratic inertia, and property taxes contributed to this network of barriers. The report concluded that opposition to affordable housing, often called “Not In My Back Yard” or NIMBY, was the underlying motive that lay behind many of these regulatory barriers to intentionally limit growth in general and affordable housing in particular.

The City feels that it has few, if any, local regulatory barriers that impede the development of affordable housing. With that said, there are two significant barriers, one at the state level and the other at the federal level, that have an adverse effect on the City's ability to carry out its Strategic Plan. First, there are large number of blighted properties within the CDBG target areas that have clouded title as a result of inheritance. Current state law makes it difficult for the City to clear title on these properties in order to redevelop them. Secondly, the flood insurance requirements tied to the CDBG and HOME program require assisted homeowners who reside in flood prone areas to carry flood insurance as a condition for receiving assistance. A good portion of the homes in the CDBG target areas would need to buy flood insurance in order to receive significant housing assistance. The City believes that this requirement significantly affects its ability to revitalize its target areas.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

In the current program year, the City will fund a legal services program aimed at assisting current owners in the City with ensuring their homes do not have issues with clouded title upon sale or transfer. This should help prevent additional properties from becoming blighted and abandoned when the current residents transfer the property.

In regard to the flood insurance requirements, the City will explore different possibilities in terms of program design of its housing programs to reduce the affects of the federal requirement. Potential solutions include using the federal dollars to leverage additional assistance from local lenders, subsidizing the insurance premium with CDBG funds, and making bigger per-unit investments to address flood concerns.

Discussion:

AP-85 Other Actions – 91.220(k)

Introduction:

In addition to outlining projects that the City will actively pursue with available federal resources, the City must also describe “other actions” outlined below, as required by the federal regulations.

Actions planned to address obstacles to meeting underserved needs

In recent years, the City has experienced several obstacles to meeting the underserved needs in its community.

One of the main obstacles encountered by the City in its efforts to revitalize its target neighborhoods is clouded title on vacant and abandoned properties. State law makes it difficult for the City to clear title on these properties, which is a vital first step in redeveloping the blighted properties into useful and valuable elements of the neighborhood. In the current program year, the City will fund a legal services program with the sole purpose of assisting low-income owners within the area to establish clear title and inheritance.

In regard to its housing repair programs, the City has encountered is the lack of available contractors willing to bid on jobs offered. The City limits the amount of assistance to each property to \$5,000. The City will consider new ways to attract the contractors to work with the program, such as bidding multiple properties at once.

Another obstacle related to the housing repair program is the requirement to maintain flood insurance on homes rehabilitated within flood zones. A good portion of the City's CDBG target neighborhoods are within the flood zone and would require flood insurance. The City is examining its program design to address this, including the payment of part or all of the flood insurance premium on behalf of the assisted owner.

Actions planned to foster and maintain affordable housing

The HUD Section 8 Program provides a variety of financial assistance to developers and owners of rental properties in order to provide affordable housing opportunities. In exchange for mortgage assistance, the rental properties pledge to make a certain number of units affordable for contract period. Once the contract period is over, the project owner has no obligation to maintain the units as affordable and can rent the units at the market rate which would result in a loss of housing affordability within the City. Of the four HUD-assisted properties located within the City, only one property has a contract expiration date during the term of this Consolidated Plan. The property is owned and administered by the Volunteers of America. Therefore, the City fully expects the property to remain affordable. The affordability periods for the other three properties, England Apartments, Our Lady's Manor, and Bethel,

are not set to expire for another fifteen years.

Actions planned to reduce lead-based paint hazards

The federal government banned lead-based paint from housing in 1978. Many homes built before 1978 have lead-based paint. Lead is especially dangerous for pregnant women and households with children under the age of six. Lead poisoning is one of the most widespread environmental hazards facing children today and is considered to be a serious environmental threat to children's health. High blood lead levels are due mostly to deteriorated lead-based paint in older homes and contaminated dust and soil. Soil that is contaminated with lead is an important source of lead exposure because children play outside and very small children frequently put their hands in their mouths.

The City will ensure all of its federally-funded housing programs are in full compliance with the lead-based paint hazard regulations (24 CFR Part 35). This includes assisting households with the appropriate lead-based paint inspection, testing, and abatement of lead-based paint hazards. The City will provide education through the distribution of lead-based paint information and literature and will seek greater coordination with state agencies to leverage additional resources.

In April 2010, EPA extended current requirements regarding lead-safe work practices to cover most pre-1978 housing and require renovation firms to perform quantitative dust testing to achieve dust-lead levels that comply with EPA's regulatory standards. The City will work with its contractors, subrecipients and community partners to ensure all funded programs are in full compliance with the updated regulation.

Actions planned to reduce the number of poverty-level families

According to the 2011-2013 ACS, the City as a whole has an overall poverty rate of 28%. This translates to 13,152 persons. The poverty rate for African Americans (35%) is more than double than that of Whites (15%). Poverty is concentrated in families with children. Approximately 43% of the City's children live in poverty. Seniors, in contrast, are less likely to be in poverty. Only 14% of seniors, or 875 people, were below the poverty level. Given their higher income potential with two working-age adults, married couple families had a poverty rate (10%) significantly lower than single-parent families (33%). Sixty-one percent of families experiencing poverty were female householders with children and no husband present.

There is a high correlation between low levels of educational attainment and poverty. Almost half (45%) of those who do not finish high school live in poverty. For those who finish high school, the poverty rate drops to 14%. Employment has a comparable correlation. 44% of unemployed persons over age 16 are in poverty, whereas only 11% who are employed are below the poverty line. However, of the approximately 6,000 residents over 25 who are in poverty, one-third have jobs but remain in poverty.

Given the statistics stated above, the City's efforts to reduce the number of poverty-level families should

focus on support services to single-parent households and educational support and job training programs to ensure residents receive at least a high school diploma. When feasible, the City will provide job training, employment, and contract opportunities for public housing residents and other low- and moderate-income residents in connection with construction projects funded under the Consolidated Plan. This provision helps foster local economic development, neighborhood economic improvement, and individual self-sufficiency. In this way, the City will comply with Section 3 of the Housing and Urban Development Act of 1968.

The City will also coordinate with the Louisiana Department of Children and Family Services, which administers the major federal programs aimed at assisting persons escape from poverty, including the Supplemental Nutrition Assistance Program (i.e. food stamps), Child Care Assistance Program (CCAP), and Family Independence Temporary Assistance Program (FITAP).

Actions planned to develop institutional structure

The City of Alexandria Community Development Department acts as the lead agency for the development and administration of the Consolidated Plan and its funded projects. The Community Development Department relies on a number of partners, including non-profit organizations, contractors, and other public agencies to undertake the projects funded through the Consolidated Plan. The City is fortunate to have a number of qualified staff at the subrecipient level and quality non-profit organizations to assist in the implementation of its Consolidated Plan. The City has identified one serious gap in the institutional delivery system and a number of areas where the City will work to improve the delivery of the funded programs.

The largest gap within the institutional delivery system is the lack of an emergency shelter for women. While no agency has stepped forward with a proposal to establish an emergency shelter for women, the City discussed with the Continuum of Care and some of its members the possibility of working with the local network of churches to provide emergency shelter services on a "round-robin" basis using facilities in place for disaster responsiveness. The City will explore this possibility further in the course of the program year.

Currently, the City only has one active Community Housing Development Organization (CHDO). There is a need to develop and build the capacity of local organizations that could potentially qualify as a CHDO to carry out affordable housing development projects. As part of this planning process, the City consulted with the public housing authority regarding the possibility of forming a subsidiary organization that could act as a CHDO. Going forward, the City will actively seek out qualified agencies who could act as a CHDO. However, for the 2020 Action Plan year, the City has requested and received a waiver of the CHDO set-aside requirement so that funds can be used more flexibly to meet immediate community needs. Actions planned to enhance coordination between public and private housing and social service agencies

As a result of the planning process that led to the development of this Consolidated Plan, the City has

reaffirmed its working relationships with some of the major service providers and planning efforts in the areas of affordable housing, community development, and homelessness. Over the course of the program year, the City will seek to build on existing relationships and establish new connections with community partners.

- The City will continue to play an active role in the local Continuum of Care;

The City will coordinate with the public housing authority by sharing information about their respective programs and identifying potential areas for partnership;

Program Specific Requirements

AP-90 Program Specific Requirements – 91.220(l)(1,2,4)

Introduction:

Community Development Block Grant Program (CDBG) Reference 24 CFR 91.220(l)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed	0
2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan.	0
3. The amount of surplus funds from urban renewal settlements	0
4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan	0
5. The amount of income from float-funded activities	0
Total Program Income:	0

Other CDBG Requirements

1. The amount of urgent need activities	0
2. The estimated percentage of CDBG funds that will be used for activities that benefit persons of low and moderate income. Overall Benefit - A consecutive period of one, two or three years may be used to determine that a minimum overall benefit of 70% of CDBG funds is used to benefit persons of low and moderate income. Specify the years covered that include this Annual Action Plan.	70.00%

HOME Investment Partnership Program (HOME) Reference 24 CFR 91.220(l)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:

The City does not foresee using a form of investment of HOME funds beyond those identified in Section 92.205. The City plans to loan or grant all HOME funds to local developers to finance the

development of affordable housing units.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

The City of Alexandria will provide a subsidy in the form of a forgivable mortgage loan to assist first-time homebuyers in acquiring a home. The recipient of HOME funds must be a low-income household and occupy the property as his or her principal residence. The property is subject to recapture provisions for a term of five years for an investment of less than \$15,000; a term of 10 years for an investment of \$15,000 to \$40,000; and a term of 15 years for an investment of greater than \$40,000.

Non-profit agencies and/or for-profit developers will provide interim financing for the acquisition, renovation and/or new construction of homes within the targeted areas of the city. The City of Alexandria will provide a mortgage principle buy-down of up to \$25,000 on behalf of the homebuyer when property is sold to an eligible buyer. In the case of certified Community Housing Development Organizations (CHDO), CHDOs will follow the same protocol but will provide \$5,000 from their individual HOME set-aside in conjunction with interim financing to develop affordable housing units in targeted areas of the city. In addition, upon sale of the property, the CHDO will utilize funds from its HOME set-aside to provide a direct subsidy through a mortgage principal buy-down of up to \$25,000 on behalf of the homeowner. Upon sale of the property by the homeowner during the affordability period, any proceeds from the repayment of the HOME investment and any excess proceeds will be used to assist another eligible homebuyer to obtain a home. The CHDO will use the same recapture provisions as outlined in this section for the City of Alexandria HOME Program.

The following provision and definitions will apply when a property is sold during the affordability period:

When the net proceeds are sufficient to repay both the HOME investment and a fair return to the seller, the full HOME investment will be recaptured and the seller provided a fair return on his or her investment. Only the direct subsidy to the homebuyer is subject to recapture.

Net proceeds are defined as the sales price minus loan repayments and/or closing costs. The fair return to the seller is the seller's prorated share of the homeowner's equity in the property (the initial investment, the value of major improvements, and payment toward principle) based on the amount of time the seller occupied the property, after the HOME investment is satisfied. The amount to be recaptured is limited to the net proceeds available from the sale.

When the net proceeds are not sufficient to repay the HOME investment and a fair return to the seller, the City will recapture the full HOME investment and any remaining funds will be used to

repay a part of the seller's investment in the property.

When the net proceeds are in excess of what is sufficient to repay both the full HOME investment and the fair return to the seller, the HOME investment will be recaptured and the seller's investment will be paid. The excess will be shared with the seller on a prorated basis, based upon the amount of time the seller occupied the property.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows: Please see attached policy.
4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

In the given program year, the City does not plan to use HOME funds to refinance existing debt secured by multi-family housing.

Appendix - Alternate/Local Data Sources

1	<p>Data Source Name 2000 Census, 2013-2017 ACS</p> <p>List the name of the organization or individual who originated the data set. US Census Bureau</p> <p>Provide a brief summary of the data set. City of Alexandria Determination of Slum and Blight April 1, 2020

Introduction

The City originally hired J-Quad Consulting in 2010 to prepare the City's first 10 year Revitalization Map which designated areas of Slum and Blight through Area Basis (SBA). This plan serves as an update to that plan to prove that the original areas defined still meet the criteria for both HUD and Louisiana State Statutes for the Slum and Blight designation.

The City of Alexandria is an entitlement community funded by the U.S. Department of Housing and Urban Development with Community Development Block Grant (CDBG) funds. HUD guidelines in Basically CDBG (May 2014) Chapter 3 Section 3 Prevention/Elimination of Slums or Blight helps jurisdiction determine areas of slum and blight with the following criteria:

Determination of Slum Blight Area Basis (SBA)

This category covers activities that aid in the prevention or elimination of slums or blight in a designated area. Examples of activities that qualify when they are located within the slum or blighted area include:

- *Rehabilitation of substandard housing located in a designated blighted area when the housing is brought to standard condition;*
- *Infrastructure improvements in a deteriorated area; and*
- *Economic development assistance in the form of a low-interest loan to a business as an inducement to locate a branch store in a redeveloping blighted area.*

To qualify under this category, the area in which the activity occurs must be designated as slum or blighted. The following tests apply:

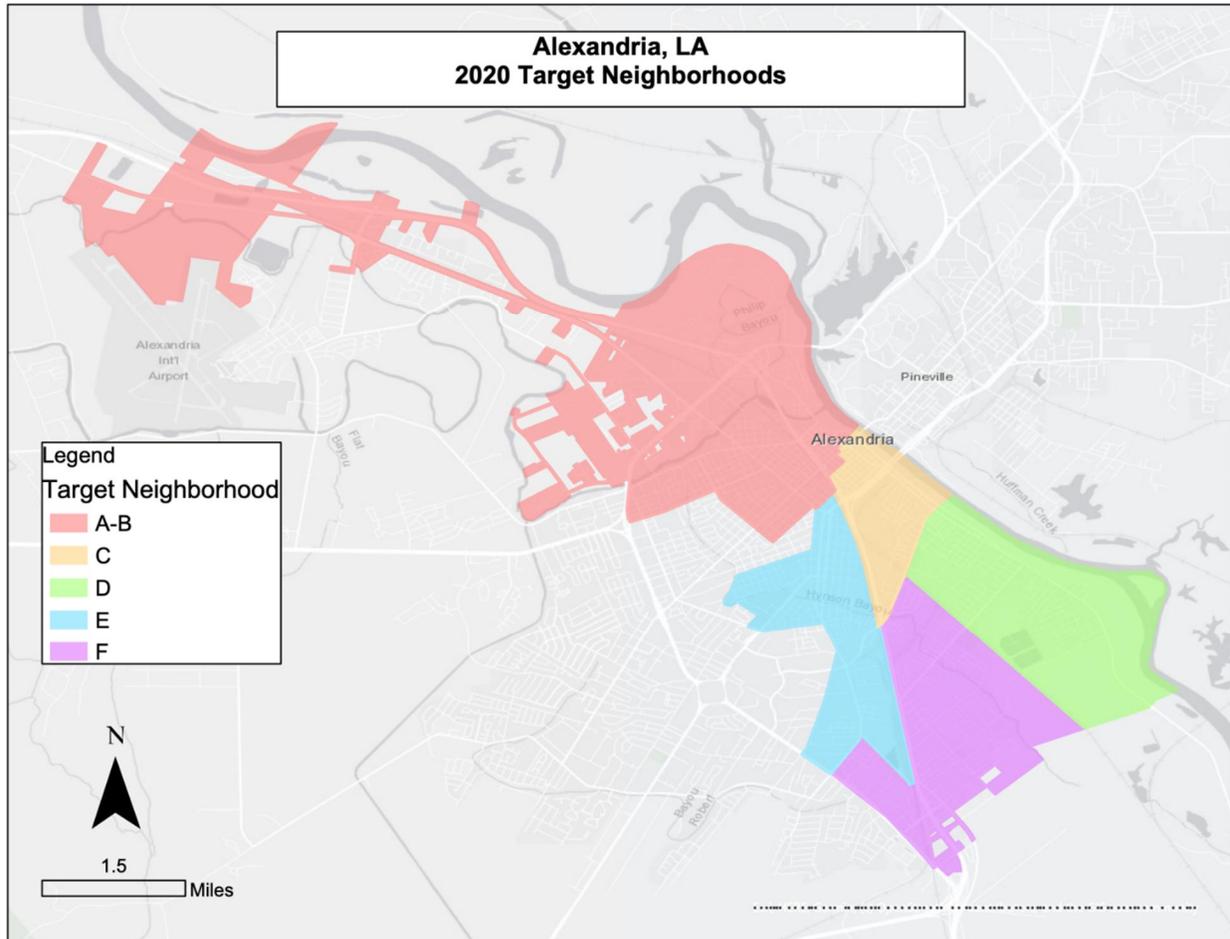

1. Does the designated area in which the activity occurs meet the definition of a slum, blighted, deteriorated or deteriorating area under state or local law;
2. Does the area must meet either one of the two conditions specified below:
 - A. Public improvements throughout the area are in a general state of deterioration; or
 - B. At least 25% of the properties throughout the area exhibit one or more of the following:
 - *Physical deterioration of buildings/improvements;*
 - *Abandonment of properties;*
 - *Chronic high occupancy turnover rates or chronic high vacancy rates in commercial or industrial buildings;*
 - *Significant declines in property values or abnormally low property values relative to other areas in the community; or*
 - *Known or suspected environmental contamination.*

This designation allows the City of Alexandria to designate Areas of Slum and Blight through Area Basis (SBA).

City of Alexandria 2020 Target Areas

In analyzing American Community Survey (ACS) data and local city data and policies for physical deterioration, code violations, housing vacancy, high vacancy rates of business, and extremely low home values, it has been determined that the following areas remain areas that were previously identified as designated areas of Slum and Blight. The proposed areas consist of five areas: Area AB, Area C, Area D, Area E, and Area F.

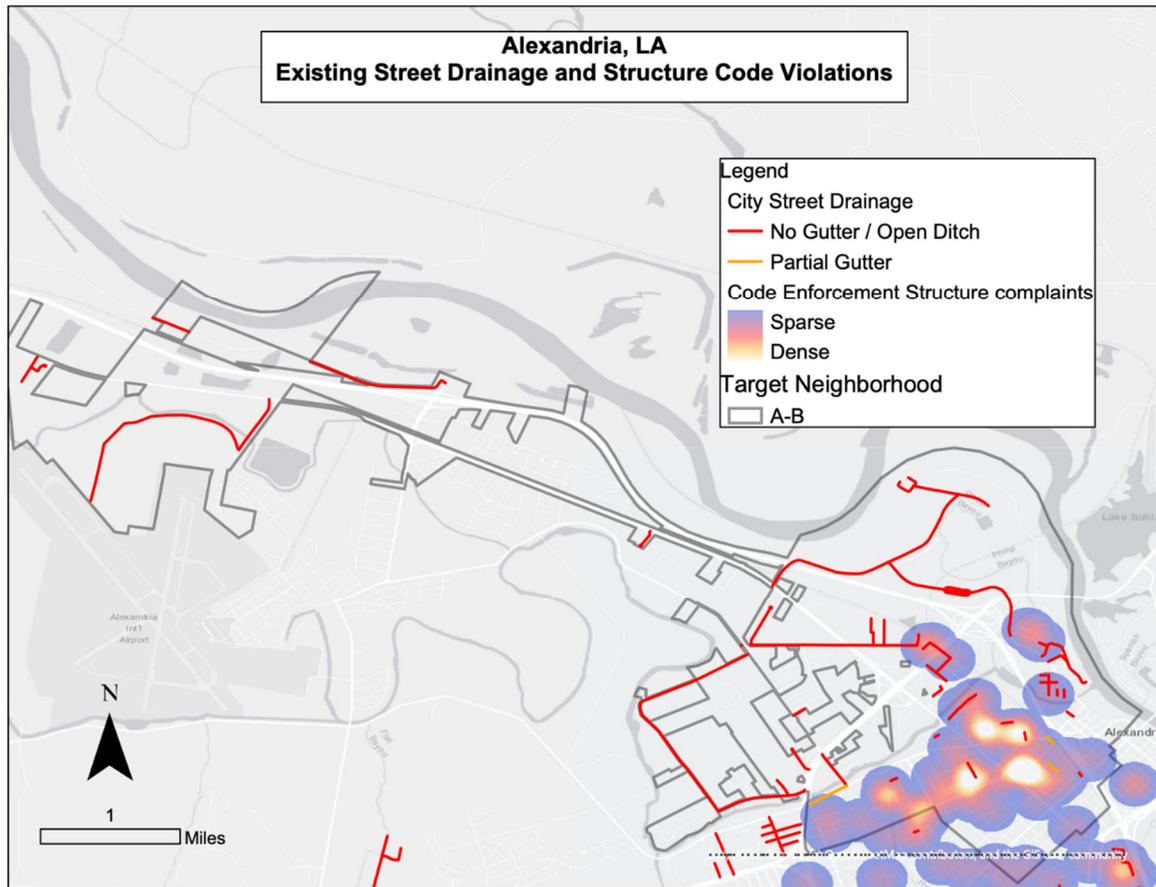

Map: –2020 Target Areas

These same overall boundary areas were identified on the original 2010 Revitalization Map and that J-Quad study was reviewed and approved by HUD. The original documentation is still on file with the Community Development Department and it has resources and revitalization plans that are still applicable to today's needs within the City. This updated map is renamed 2020 Target Neighborhoods to further confirm new data to prove the areas still qualify as SBA.

Area AB-20

Map: – Area AB-20

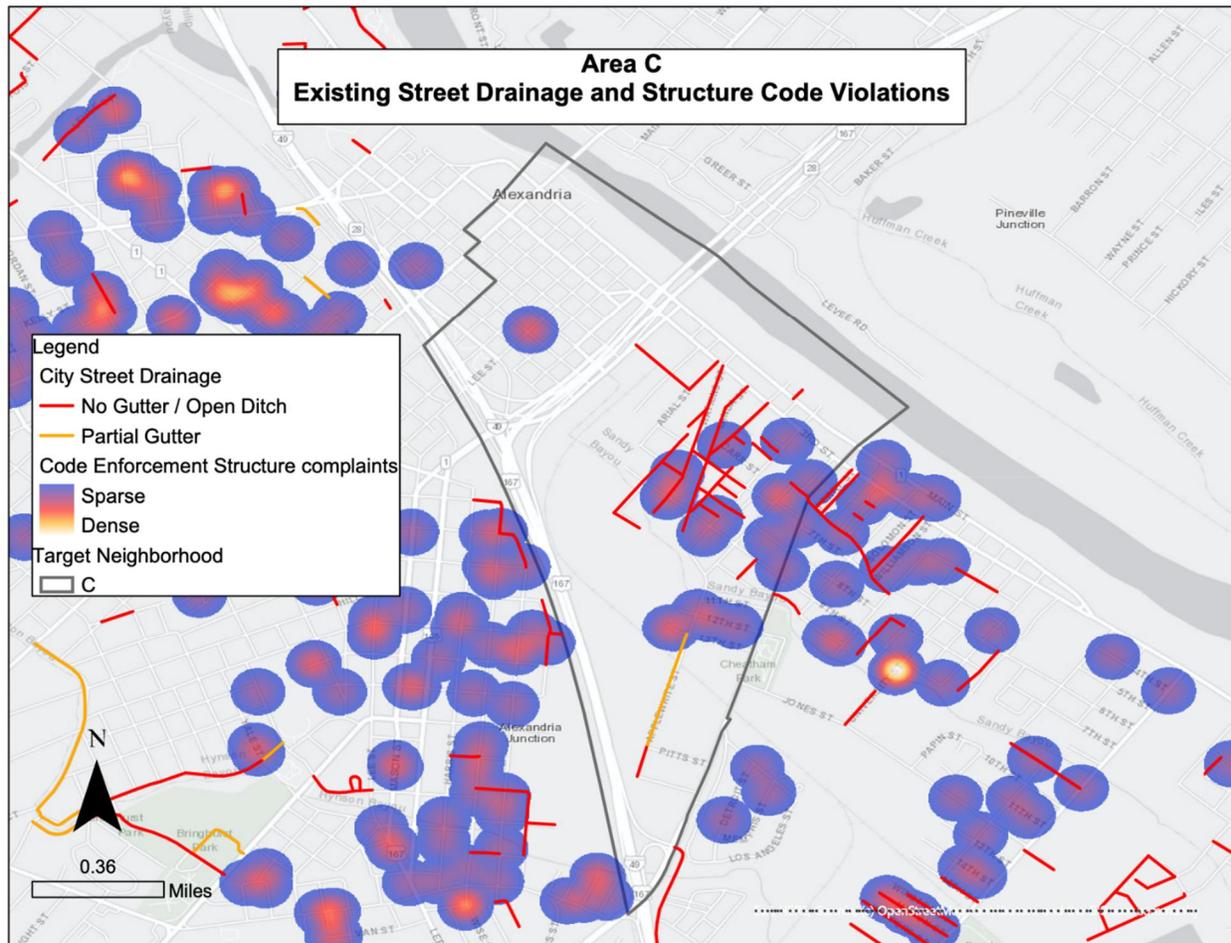

Date of Designation: April 2020

That area incorporated by the City of Alexandria, LA north of a meandering line here described: commencing from the intersection of MacArthur Drive and Bayou Rapides; along MacArthur Drive to the intersection of Monroe Street; along Monroe Street to the intersection of Chester Street; along Chester Street to the intersection of Polk Street; along Polk Street to the intersection of Bolton Avenue; along Bolton Avenue to the intersection of Lee Street; along Lee Street to the intersection of Thorn Road; along Thorn Road to the intersection of Murray Street; along Murray Street to the intersection of Foisy St; along Foisy Street to the intersection of Jackson Street; along Jackson Street to the intersection of 6th Street; along 6th Street to the intersection of Beauregard Street; along Beauregard Street and centerline extension thereof to the apparent intersection with the centerline of the Red River. The resulting area being approximately 7.61 square miles.

Area C-20

Map: – Area C-20

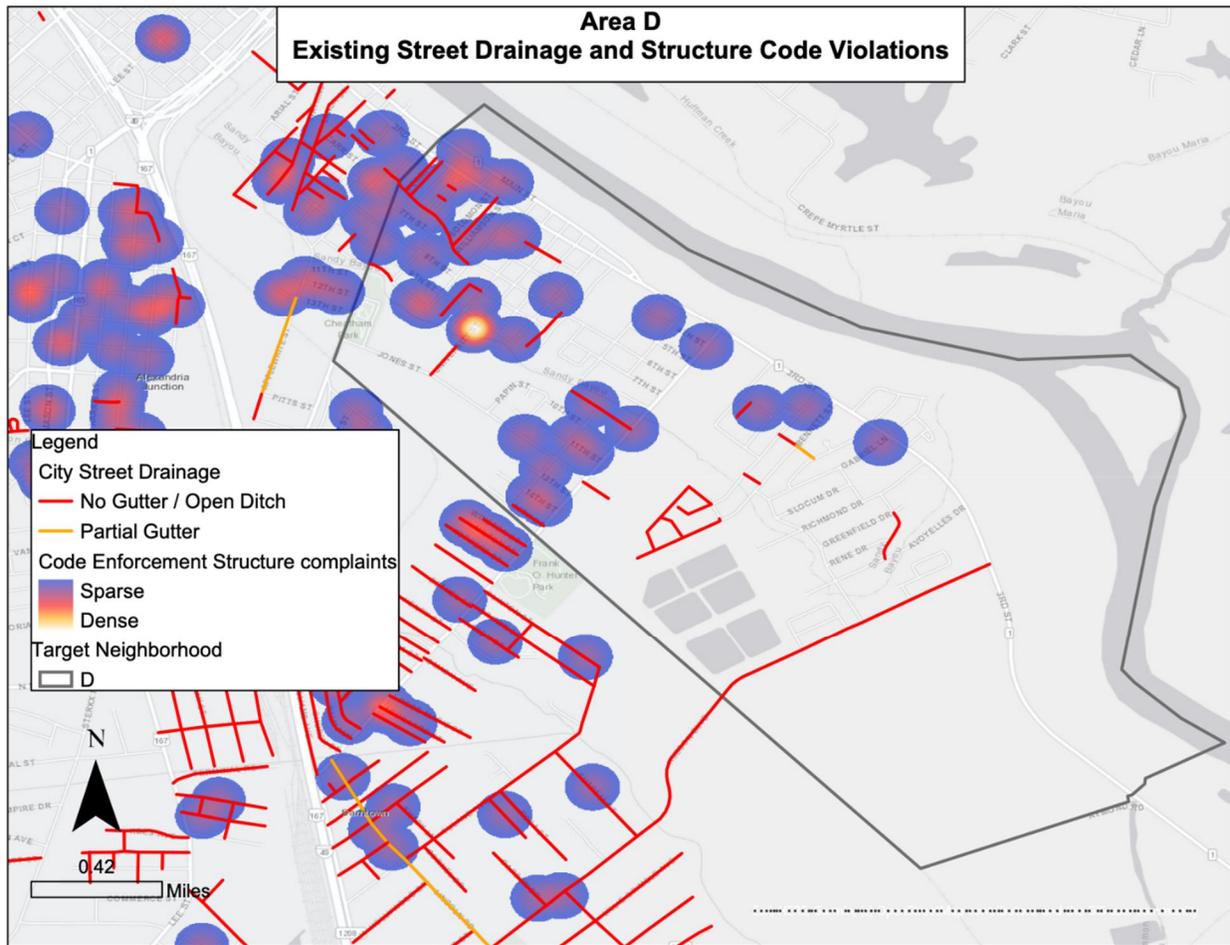

Date of Designation: April 2020

That area incorporated by the City of Alexandria, LA bounded by a line commencing at the intersection of Broadway Avenue and I-49, hereafter called the Point of Beginning, along I-49 to the apparent intersection of Murray Street; along Murray Street to the intersection of Foisy Street; along Foisy Street to the intersection of Jackson Street; along Jackson Street to the intersection of 6th Street; along 6th Street to the intersection of Beauregard Street; along Beauregard Street and centerline extension thereof to the apparent intersection with the centerline of the Red River; along the centerline of the Red River to the apparent intersection with the extension of Broadway Avenue; along Broadway Avenue to the Point of Beginning. The resulting area being approximately 1.05 square miles.

Area D-20

Map: - Area D-20

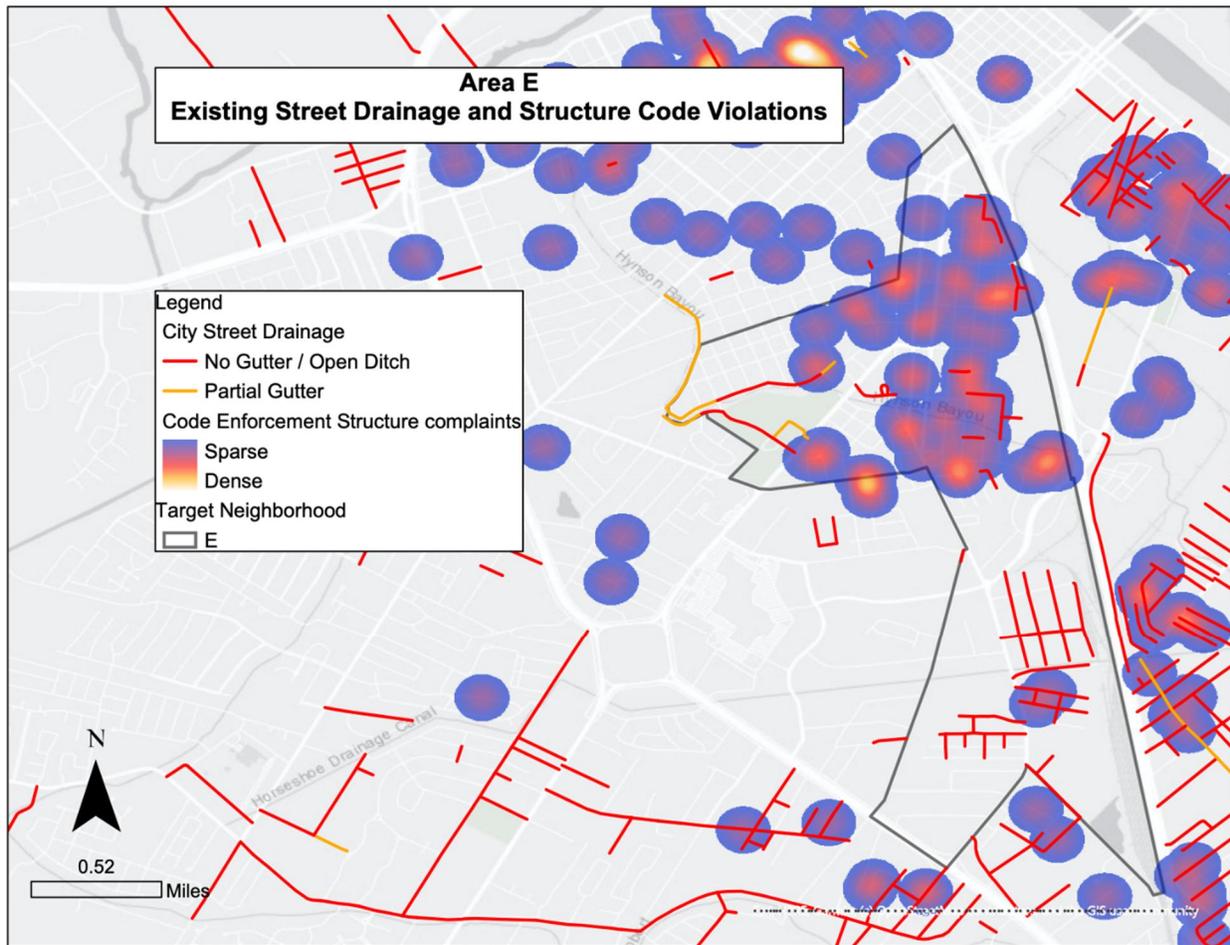

Date of Designation: April 2020

That area incorporated by the City of Alexandria, LA southeast of a line commencing at the apparent intersection of the extension of Broadway Avenue and the centerline of the Red River; along Broadway Avenue to the intersection of the Kansas City Southern Railroad; along the Kansas City Southern Railroad to the intersection of the City limits (31.26877 N, 92.41056 W); along the City limit line to the intersection with the centerline of the Red River. The resulting area being approximately 2.97 square miles.

Area E-20

Map: – Area E-20

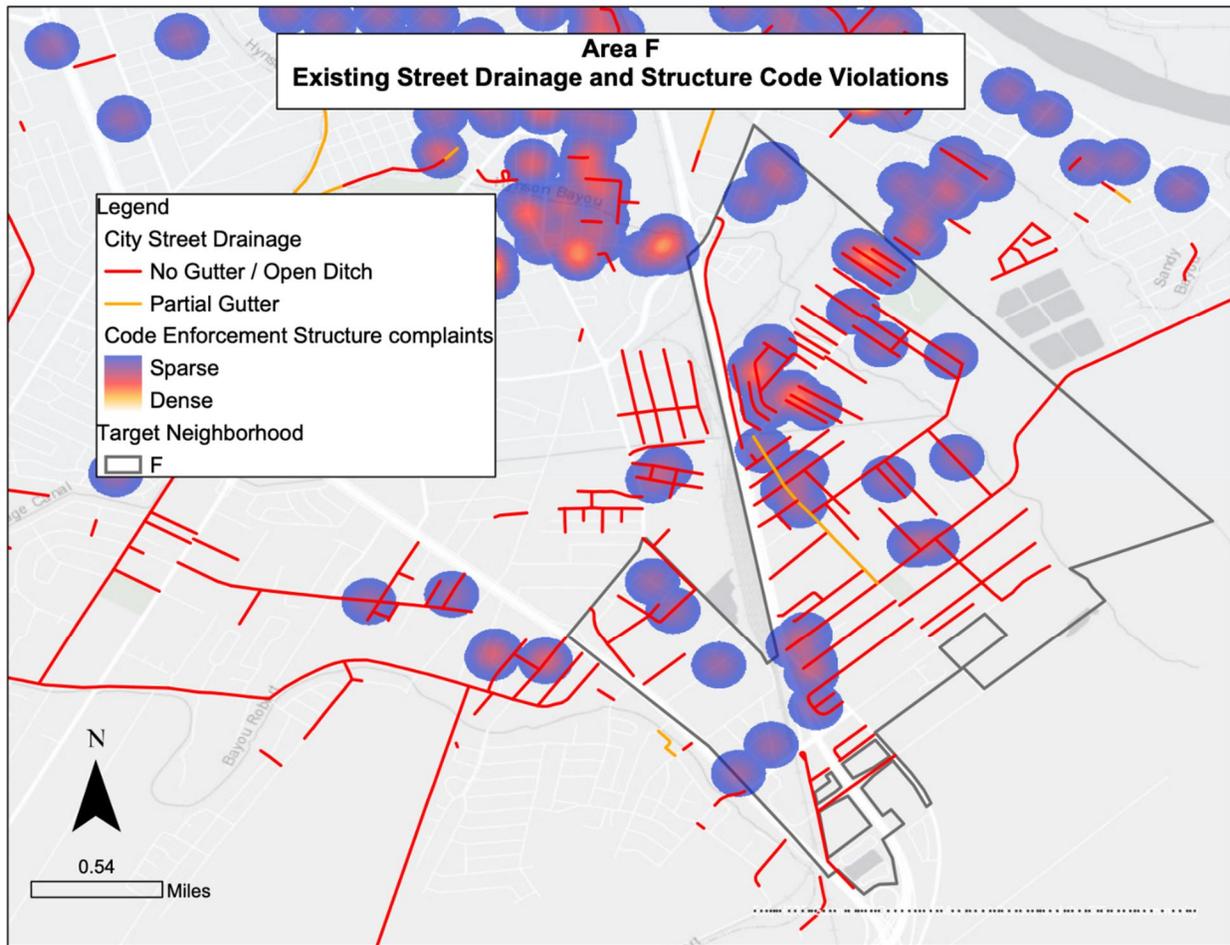

Date of Designation: April 2020

That area incorporated by the City of Alexandria, LA bounded by a line commencing at the intersection of Lee Street and Thorn Road, hereafter called the Point of Beginning, along Lee Street to the intersection of Vance Avenue; along Vance Avenue to the intersection of City Park Boulevard; along City Park Boulevard to the intersection of South City Park Boulevard; along South City Park Boulevard to the intersection of Marigold Street; along Marigold Street to the terminus of Marigold Street; along the City Park property line to Texas Avenue; along Texas and East Texas Avenue to the intersection of Lee Street; along Lee Street to the intersection of Memorial Drive; along Memorial Drive to the intersection of Sterkx Road; along Sterkx Road to the intersection of South MacArthur Drive; along South MacArthur Drive to the intersection of Lee Street; along Lee Street to the intersection of Duhon Lane; along Duhon Lane to the apparent intersection with an extension of Hudson Boulevard; along the extension of Hudson Boulevard to the intersection with I-49; along I-49 to the Point of Beginning. The resulting area being approximately 1.90 square miles.

Area F-20

Map: - Area F-20

Date of Designation: April 2020

That area incorporated by the City of Alexandria, LA bounded by the line commencing at the intersection of Broadway Avenue and the Kansas City Southern Railroad, hereafter called the Point of Beginning, along Broadway Avenue to the apparent intersection with I-49; along I-49 to the apparent intersection with an extension of Hudson Boulevard; along the extension of Hudson Boulevard to the centerline of Duhon Lane; along Duhon Lane to the intersection of Lee Street; along Lee Street to the intersection of South MacArthur Drive; along South MacArthur Drive to a point along the City Limits at approximately 31.2476 N, 92.4335 W; along the City Limits to the intersection of the Kansas City Southern Railroad; along the Kansas City Southern Railroad to the Point of Beginning. The resulting area being approximately 2.86 square miles.

Qualifying Areas

HUD Criteria 1: Does the designated area in which the activity occurs meet the definition of a slum, blighted, deteriorated or deteriorating area under state or local law;

The City affirms the designated areas meet the definition of slight, blighted, deteriorated under state and local law.

Reference:

Parish Redevelopment Law, Section RS: 33: 4625 of Louisiana State Law says that areas become slum and blighted when the following factors are present: unsafe, unsanitary inadequate or overcrowded condition of the structures.

Further defined as:

(8) "Slum area" means an area in which there is a predominance of buildings or improvements, whether residential or nonresidential, which by reason of dilapidation, deterioration, age or obsolescence, inadequate provision for ventilation, light, air, sanitation, or open space, high density of population and overcrowding, or the existence of conditions which endanger life or property by fire and other causes, or an area of open land which, because of its location and/or situation, is necessary for sound community growth, by replatting and planning development, for predominantly residential uses, or any combination of such factors is conducive to ill health, transmission of disease, infant mortality, juvenile delinquency, or crime, and is detrimental to the public health, safety, morals or welfare.

(i) "Blighted area" means an area which by reason of the presence of a substantial number of slum, deteriorated or deteriorating structures, predominance of defective or inadequate street layout, faulty lot layout in relation to size, adequacy, accessibility or usefulness, insanitary or unsafe conditions, deterioration of site or other improvements, diversity of ownership, tax or special assessment delinquency exceeding the fair value of the land, defective or unusual conditions of title, or the existence of conditions which endanger life or property by fire and other causes, or any combination of such factors substantially impairs or arrests the sound growth of the municipality, retards the provision of housing accommodations or constitutes an economic or social liability and is a menace to the public health, safety, morals, or welfare in its present condition and use; but if the area consists of any disaster area referred to in Subsection C(5),⁶ it shall constitute a "blighted area."

HUD Criteria 2: Does the area meet either one of the two conditions specified below:

The City predominately used factor B criteria below to determine slum and blight areas.

A. Public improvements throughout the area are in a general state of deterioration; or

North 16th Street Bridge, built in 1978, connects North 16th and Stracener Streets as they merge over Bayou Rapides. It was closed due to severe deterioration in the original wooden substructure more than three years ago. A project to replace the bridge is fully funded from the City and the Metropolitan Planning Organization. Plans have been submitted to the Department of Transportation and Development and are awaiting clearance to proceed.

Industrial Park Road connects HWY 1 to the industrial sites in the north of Area A&B. Constant, heavy-weighted traffic has negatively impacted the surface of the road. Plans to reconstruct the road have been submitted to the Department of Transportation and Development for further review and bid document preparation.

B. At least 25 percent of the properties throughout the area exhibit one or more of the following:

- *Physical deterioration of buildings/improvements;*
- *Abandonment of properties;*
- *Chronic high occupancy turnover rates or chronic high vacancy rates in commercial or industrial buildings;*
- *Significant declines in property values or abnormally low property values relative to other areas in the community; or*
- *Known or suspected environmental contamination.*

Summary of Determination:

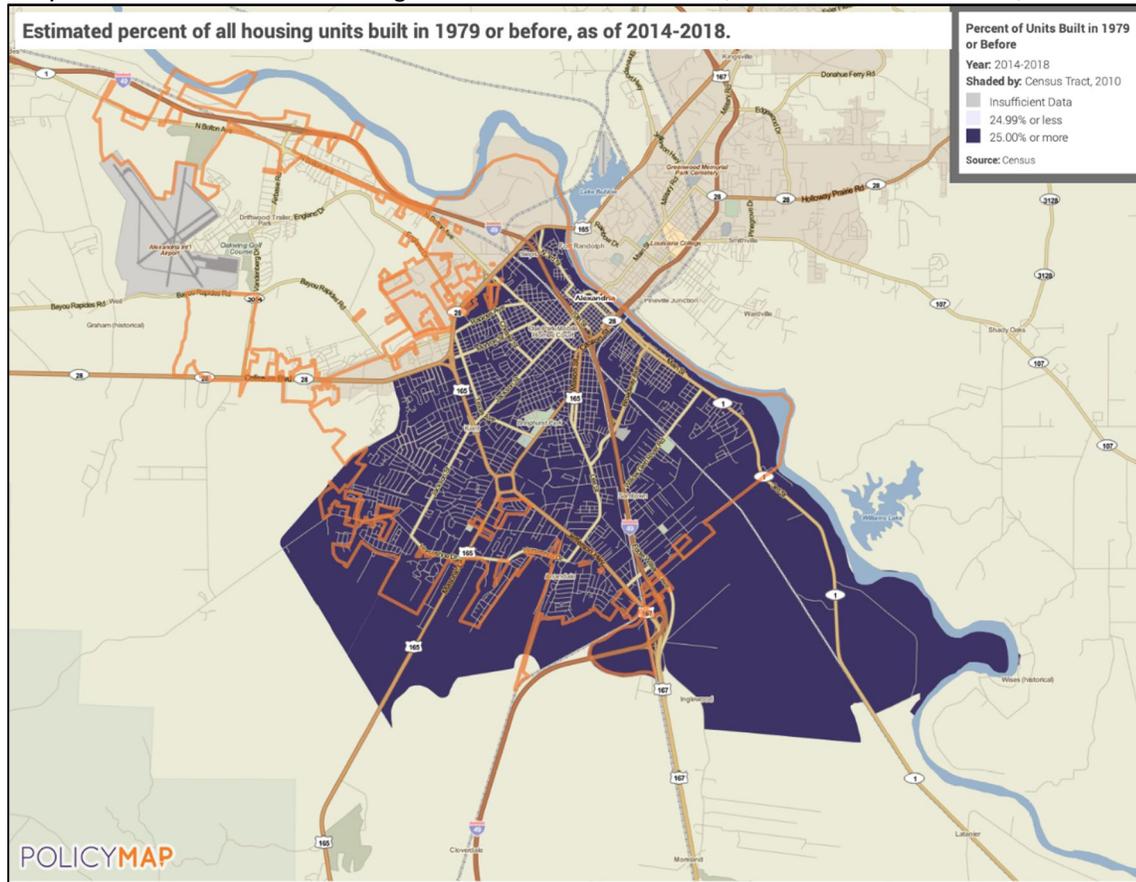

To determine which areas had at least 25% of the properties exhibiting the above issues, we used ACS 2014-2018 data to determine each identifier. The analysis was done at the census tract level using the following data sets:

- Estimated percentage of all housing units built in 1979 or before (2014-2018)
- Estimated percentage of all housing units that were vacant (2014-2018)
- Percentage of all business addresses that were vacant in Fourth quarter 2019
- Estimated percent of all owner-occupied homes valued at less than \$60,000 (2014-2018)
- Estimated percent of all owner-occupied homes valued at less than \$80,000 (2014-2018)

The below maps were overlaid with the city's previous 2010 J-Quad Study of designated slum and blighted areas to determine which areas still met one or more of the above determination factors. By combining city data of code violations with the ACS data that indicated HUD required guidance for slum and blight threshold, the City was able to confirm the target areas. A breakdown of each indicator is listed below. The target areas are still eligible for SBA designation based on the need for housing rehabilitation to reduce lead-based paint exposure risk and other safety factors, high vacancy rate, chronic increase of vacant businesses, and abnormally low home values compared to the citywide home values. The factors are all indicators of slum and blight and an unhealthy housing stock. Further, they are present in very concentrated areas that would be best addressed by the City with an SBA designation.

Physical deterioration of buildings

Map: – Over 25% of All Housing Units Built Before 1980 (Source ACS 2014-2018)

Physical deterioration of buildings is rampant throughout the city resulting in high levels of structure code violations that is monitored by the city. The high density of code enforcement complaints in the eastern side of this area as depicted in individual area maps below.

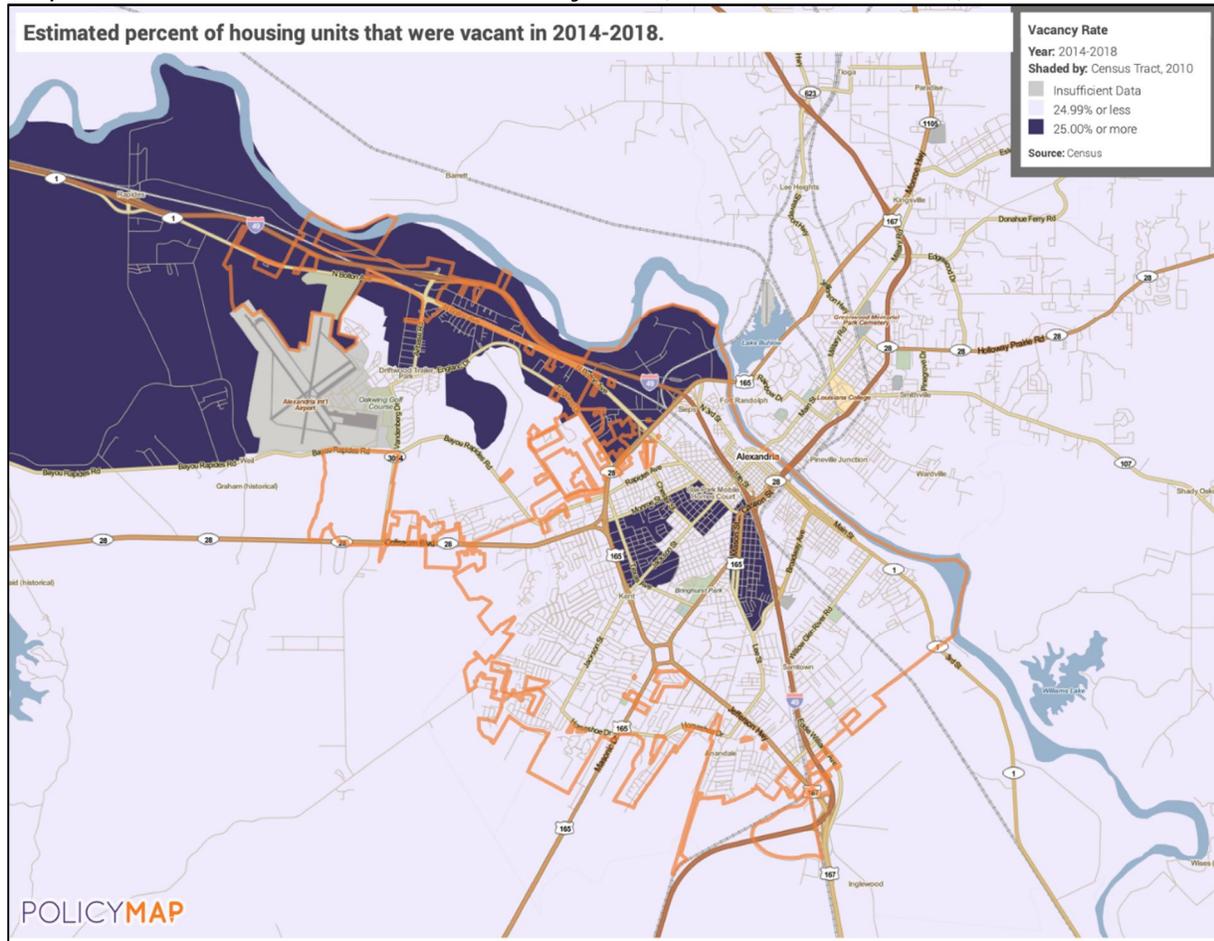

Communities with an older housing stock are likely in need of support and may not have the supply of homes necessary to meet demand. Units built prior to 1978 have the risk of lead-based paint and special care must be taken when addressing these properties. The median year built for the proposed slum and blight areas determination ranges from 1959 to 1970. The map above shows this area is rated with the highest level of risk for lead-based paint exposure as well as likely need of major rehabilitation or demolition given the significant age of the housing.

The following areas have portions or the whole area within this overlay:

- Area AB
- Area C
- Area D
- Area E
- Area F

Abandonment of Properties

Map: – Census Tracts with Over 25% Vacancy Rate (Source ACS 2014-2018)

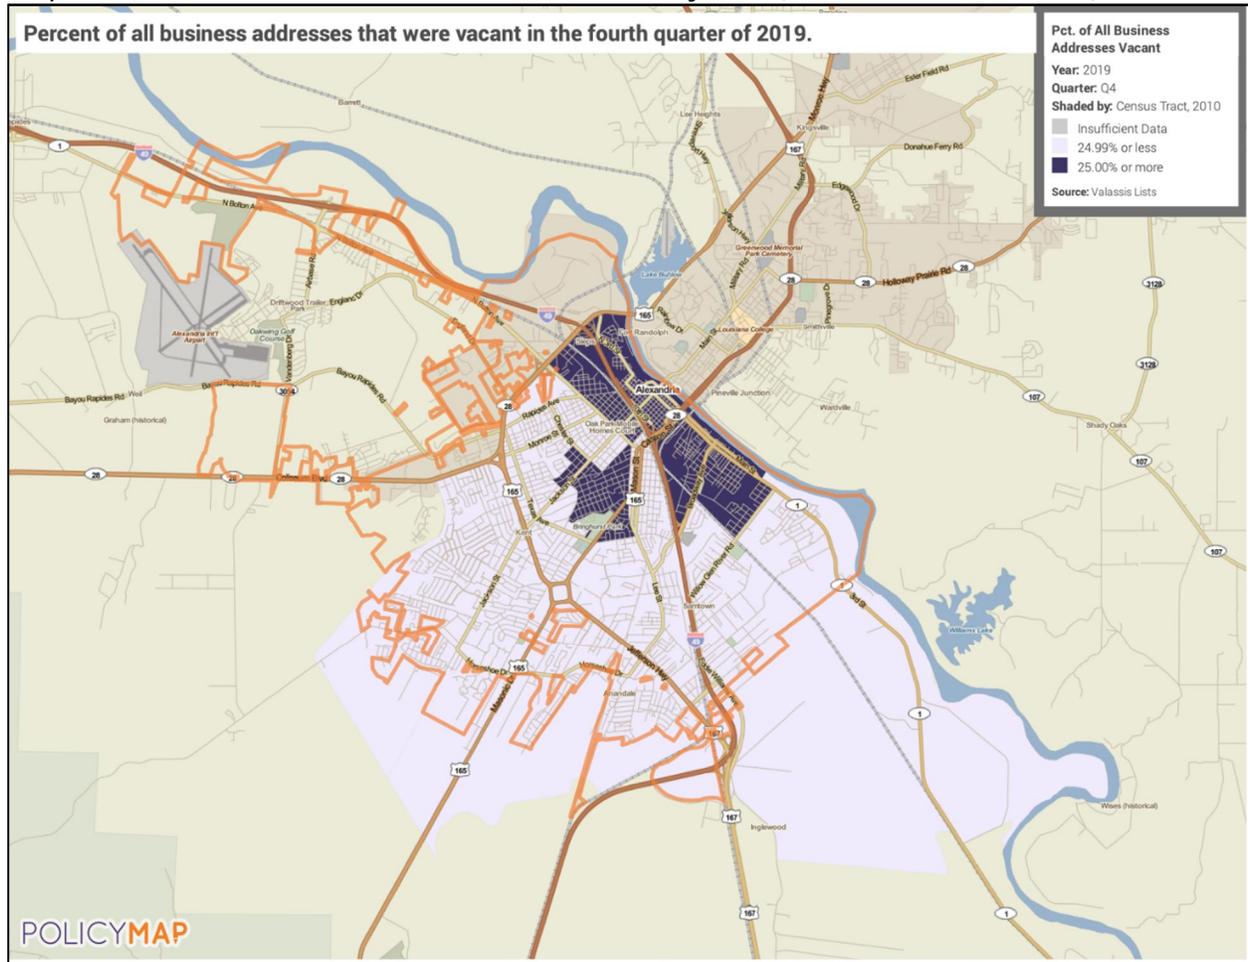

Abandonment of properties is examined through the vacancy rate. A property is considered vacant if no one is living in it and it is available for occupation. It does not include any structures that are damaged to a point where it would be deemed unfit for occupation. According to Census data between 2014-2018, the proposed areas had an estimated vacancy rate over 25%. This rate is almost double the respective vacancy rate across the state of Louisiana at just over 15%. The map above illustrates that this issue is felt throughout the entire Area AB as well as portions of Area E. With a housing stock experiencing deterioration and high vacancy rates, the areas are presumably unattractive to existing and new or potential residents.

The following areas have portions or the whole area within this overlay:

- Area AB
- Area E

Chronic High Vacancy Rates in Commercial or Industrial Building

Map: – Census Tracts with Over 25% Business Vacancy Rate (Source ACS 2019 4th Qtr)

Chronic high vacancy in commercial buildings and places of businesses is examined through the business address vacancy rate. The map above shows this vacant business addresses that denote a high vacancy rate in commercial buildings. Percentage calculated as the number of business addresses that were vacant, divided by the total number of valid postal addresses, including vacant and no-stat addresses.

The following areas have portions or the whole area within this overlay:

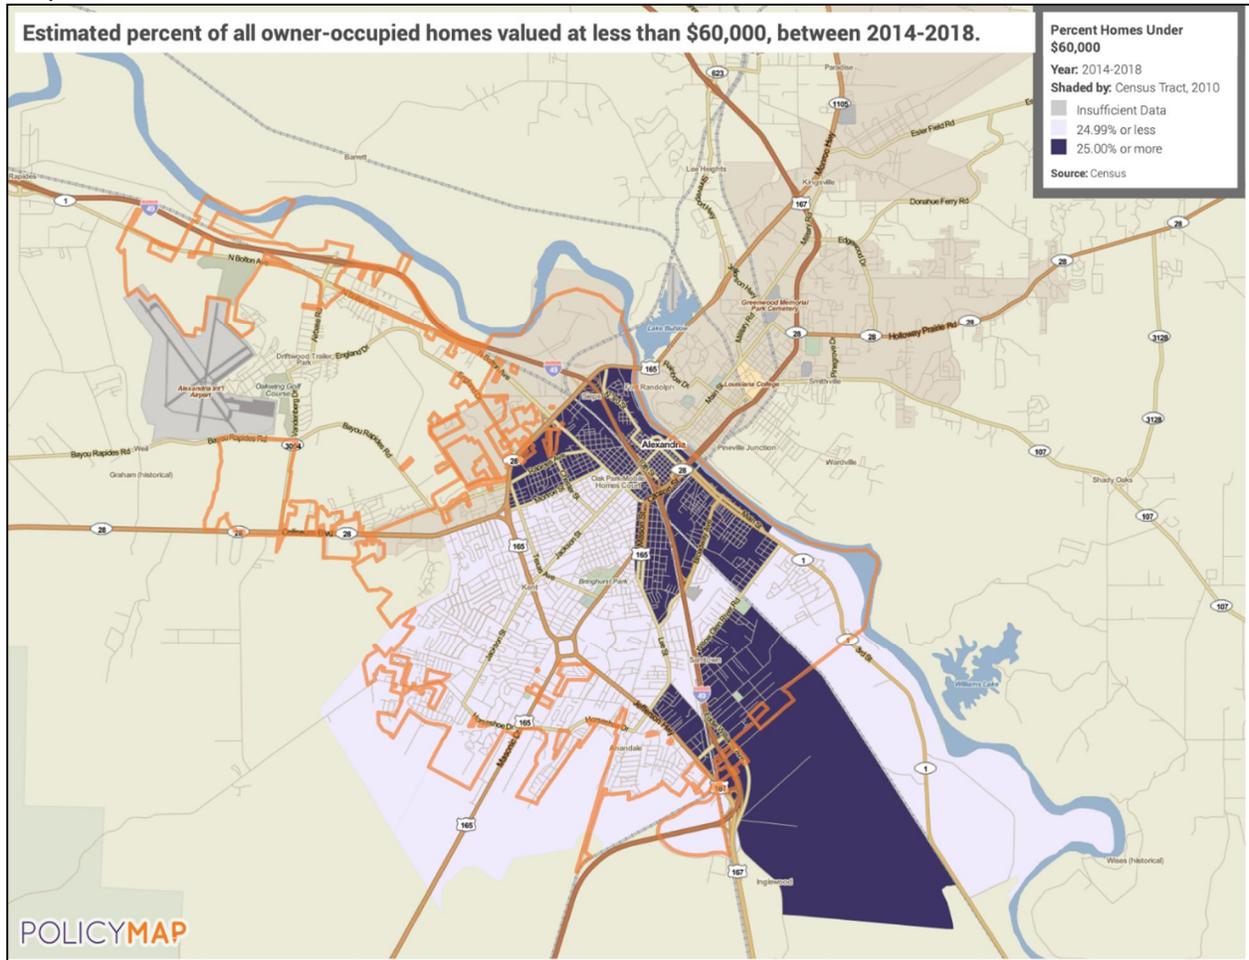

- Area AB
- Area C

Abnormally Low Property Values Relative to Other Areas in The Community

From 2014-2018, the median value of owner-occupied housing units throughout the City of Alexandria was \$140,200. We examined census tracts that had over 25% of the home valued at less than \$60,000 (less than 50% citywide median home value) and census tracts that had over 25% of the homes valued at under \$80,000 (less than 40% citywide median home value)

The two maps below illustrate that the various areas in the city that exhibit having abnormally low property values based on this analysis.

Map: – Census Tracts with Over 25% of Homes Valued below \$60,000 (Source ACS 2014-2018)

The following areas have portions or the whole area within this overlay:

- Area AB
- Area C
- Area E
- Area F

Area Basis Records to be Maintained

Under the categories of Area Basis and Spot Blight, the presence of blight has to be evidenced in record keeping. In documenting the presence of blight, the use of pictures is encouraged.

Records to be maintained include:

1. Area designated (i.e., boundaries) and date of designation

See above section "City of Alexandria 2020 Target Areas" for boundary description and date of designation.

2. Documentation and description of blighted conditions that meet the criteria identified at 570.208(b)(1)(ii)(A) or (B) (e.g., photographs, structural surveys, or development plans)

As complaints are received about vacant and abandoned structures, an address specific project file is created our web based MPN software. The file holds photographs, site visit deficiency assessment inspection reports, correspondence with owner, Tax Assessors record and other relevant data. These files can be accessed from anywhere and reports can be run to provide a list of properties that are valid complaints that need to be resolved.

City of Alexandria Community Development's (CmDv) first action is to try to get the owner to take responsibility to make repairs or demolish the structure with personal funds, however, if that is ignored, CmDv proceeds to address the issue with Code Enforcement and Demolition strategies at the City's expense. The Code Enforcement and Demolition Program Procedures and Guidelines are available on the City's webpage at:

www.cityofalexandriala.com/Community-Development

From there go to the gray tab link on the right side to open the document.

3. For residential rehabilitation:

- *Local definition of substandard,*

CmDv's definition for substandard is any structure that is not safe for human occupancy or habitation to the extent that the structure endangers life, health, property, safety or welfare of the public and/or occupants. This structure detracts from the appearance of the immediate neighborhood, reduces the value of property in the immediate neighborhood and/or is a nuisance that has not been remedied for an unreasonable (+/- 1 year) amount of time. This structure has excessive code violations related to plumbing, electrical, mechanical, fire, weatherproof and/or structural issues, that prevents the structure from being in compliance with the most current version of the State adopted International Property Maintenance Code and/or City ordinances.

- *Pre-rehabilitation inspection report qualifying the building as substandard and work plan describing deficiencies,*

CmDv enforces the most current version of the State adopted International Property Maintenance Code. Inspection checklists are built and defined by the IPMC. Once a complaint concerning a vacant and abandoned structures, a Deficiency Site Inspection is made to determine validity. The inspection checklist is provided to the owner specifically listing all the items that are deficient within the IPMC and require remedy. Depending on the type of notice, the owner is provided 10 or 30 days to respond, then another 30 days to secure a Rehab or Demolition Permit.

During the same site visit, a Complaint Verification Inspection is also completed to rank the severity of the structure from 1 to 5, with 1 being high priority and 5 being low priority. For example, burned or collapsed structures are a priority 1, but a structure with a broken window that needs painting may rank as a priority 5. This ranking system provides CmDv with the ability to run a report to prioritize the most dangerous structures that need attention.

- *Scope of work performed, by structure, with documentation that substandard elements were addressed first; and*

Once CmDv notifies the owner of a valid complaint, the owner has the option to either rehab or demolish the structure within a prescribed period of time. Deficiency Assessment Inspection checklist is provided to the owner specifically listing all the items that are deficient within the IPMC and require remedy.

When no response or action is taken by the owner, the priority 1 structures are taken to City Council to be condemned and later demolished with City general fund and/or CDBG funds. The Code Enforcement and Demolition Program Procedures and Guidelines are available on the City's webpage at:

www.cityofalexandriala.com/Community-Development

From there go to the gray tab link on the right side to open the document.

- *Evidence that the activities undertaken address one or more of the conditions that contributed to the deterioration of the area.*

CmDv has limited funding for Code Enforcement and Demolition activity funding. HUD CDBG funding is capped at an adjusted 30% maximum for Slum and Blight national objective because the City does not own these properties so there is no defined reuse to qualify as Low Mod Area Benefit. The City general fund typically provides a small amount to assist the HUD CDBG dollars; however, based on the estimates that over 50% of the City qualifies as low to moderate income and over 50% also qualifies as Slum Blight, the demand for abatement far exceeds the financing needs to provide those services.

For the last 10 years, CmDv has managed a CDBG Minor Rehab and a HOME Major Rehab program. While the applicants are specifically qualified as low to moderate income households, 90% of all the homes qualified for assistance are located within the Target Neighborhoods defined on page 2 of this document. These homes are 35-50+ years old and are severely lacking in general maintenance and life expectancy of appliances and equipment necessary to continue its useful life. A very high percentage of these homes are also positive for lead and abatement is needed.

These programs for rehab, code enforcement and demolition work to arrest the decline in properties and provide healthy, habitable occupancy. However, the need is too great for the size of the City, the average household incomes and aging population. Opportunities for employment are limited and skilled trade workers is equally limited. Major economic development reform is needed for systemic change.

DRAFT – REVISED VERSION #2

City of Alexandria

Community Development Department

Citizen Participation Plan (CPP)

for

U.S. Department of Housing
and Urban Development Grants

This Citizen Participation Plan was adopted on {ENTER DATE]

by the City Council via resolution # _____

Introduction

Each year, the City of Alexandria receives funding allocations from the U.S. Department of Housing and Urban Development (HUD). These include the Community Development Block Grant (CDBG), the HOME Investment Partnerships Grant (HOME) and in 2020, the CDBG CARES Act (CDBG-CV). As a condition of receiving these allocations, the City must satisfy annual planning and reporting requirements outlined in the federal regulations at 24 CFR Part 91. This Citizen Participation Plan outlines the City’s policies and procedures for obtaining public input in the planning and decision-making processes associated with these HUD grants. These citizen participation policies and procedures shall also be followed for the City’s Analysis of Impediments to Fair Housing Choice (AI) and any application for additional funding through the HUD Section 108 Loan Guarantee Program.

It should be noted that the federal programs covered by this guidance are designed to primarily benefit “low and moderate-income” persons, who are defined as those earning less than 80% of the area median income. Given this, these policies and procedures will focus on gathering input and feedback from this demographic and other populations specifically identified by HUD, including minorities, non-English speaking persons, and persons with disabilities.

In regard to non-English speaking persons, the City has conducted a Four-Factor Analysis to identify Limited English Speaking Persons (LEP). HUD Entitlement Grant recipients are required to take reasonable steps to ensure meaningful access to LEP persons. According to the 2013-2017 American Community Survey 5-Year Estimates prepared by the U.S. Census, less than 2% of households within the City are considered to be Limited English Speaking households. Among Limited English Speaking Households, the languages spoken are divided amongst Spanish (57 households), other Indo-European languages (57 households), Asian and Pacific Island languages (80 households), and other languages (85 households). Based on this analysis, the City will not provide outreach materials in languages other than English, but will provide translation services upon request during public hearings.

Section I: Annual Schedule of Outreach for Planning and Reporting

The schedule of citizen outreach and opportunities for participation is included below. Details about each outreach component, like public hearings and public notice, are included below.

Month	Outreach and Consultation Efforts
January	Citizen Advisory Committee meeting on Annual Action Plan
February	Begin 30 calendar day Public Comment Period for proposed Five Year Consolidated Plan and/or Annual Action Plan Hold Public Hearing on proposed Five Year Consolidated Plan and/or Annual Action Plan
March	15 th : Deadline for submission of Annual Action Plan to HUD
April	30 th : End of City’s Program Year Public Hearing at City Council to adopt Five Year Consolidated Plan and/or Annual Action Plan
May	1 st : Start of City’s Program Year Citizen Advisory Committee meeting on CAPER – previous year’s performance results
June	Begin 15 calendar day Public Comment Period for CAPER Hold Public Hearing on proposed CAPER

City of Alexandria Citizen Participation Plan (CPP)

July	Public Hearing at City Council to adopt CAPER 30 th : Deadline for submission of Annual Report to HUD
August	Notice of Funding Availability
September	Execute grant award contracts and return to HUD
October	Public Notice of citizen participation Opportunities
November	Consultations with local partners Community Meetings in Target Neighborhoods for input on upcoming Annual Action Plan
December	Compile survey results from Neighborhood meetings

Section 2: Planning Processes

Every five years, the City is required to draft a Consolidated Plan. The Consolidated Plan includes an assessment of community needs related to community development, homelessness, and affordable housing. The Five Year Consolidated Plan also sets forth a number of strategies that the City will follow to address those needs deemed to be high priorities. Each year, the City is required to create an Annual Action Plan that budgets available resources to projects that will meet the goals set forth in the Five Year Consolidated Plan.

The City is also responsible for preparing an Analysis of Impediments to Fair Housing Choice (AI). The AI is prepared simultaneously with the Consolidated Plan. The AI is a separate document that includes an analysis of fair housing data, issues and contributing factors, and an identification of fair housing priorities and goals to increase fair housing choice. Fair housing choice means that individuals and families have the information, opportunity, and options to live where they choose without unlawful discrimination and other barriers.

These documents will guide the City's actions and use of federal resources for a five year period. It is important for the City to receive quality citizen input on both the Consolidated Plan and the AI. In regard to the Consolidated Plan, citizen input is helpful on the needs assessment and the strategic plan. Outreach itself can help increase the level of fair housing choice within the City. Citizen input can help identify sources of discrimination. It is especially important to receive input from members of the protected classes under the Fair Housing Act, including race, color, religion, sex, familial status, national origin, sexual orientation, gender identity or disability.

All aspects of citizen's participation will be conducted in an open manner, with freedom of access for all interested person and at handicapped accessible locations. The City will take the following actions to encourage citizen input in the planning process:

- Notice of Resources and Expected Activities
The City will publicize the amount of assistance the City expects to receive, including any program income expected to be generated, unspent money to be re-allocated from a previous year, and the type of activities it plans to undertake. The City will also estimate the amount of funds that will benefit persons of low- and moderate-income.
- Targeted Outreach
The City will provide a schedule of the planning process, including key dates such as public hearings, publication of the proposed plan, and comment periods, via email correspondence and City website postings, to the following groups:

- Interested Parties List
- Public Housing
- Alexandria Citizen Advisory Committee
- Continuum of Care

The City will sponsor a Citizen's Advisory Committee to hold meetings on the use and evaluation of CDBG and HOME funds, and any additional funding resources granted from HUD. Additionally, the City may send written requests via email to local non-profits, businesses and government agencies working in the fields of community development, affordable housing, and homelessness to identify ways to improve coordination and if needs have changed since the last needs assessment. The City may elect to schedule additional meetings or hold focus groups based on request. The purpose of these meetings will be to obtain citizens views on the use of CDBG, HOME and any other HUD funding resources. The meetings will be held at times and locations convenient to potential and actual beneficiaries, and with accommodation for persons with disabilities.

- Targeted Areas

The City may identify geographic areas where the majority of Community Development funds will be targeted. In order to solicit information from residents in these areas, the City will include the geographic areas as part of its Consolidated Plan draft.

- Technical Assistance for Interested Parties

The City will provide technical assistance upon request to groups and organizations that serve low and moderate income persons within the City. To request technical assistance, please call the City Community Development Department at 318-449-5072 or email cda@cityofalex.com. The City will provide a timely written response to all written proposals submitted within thirty (30) calendar days stating the reasons for the action taken by the City.

- Public Comment Period

The City will hold a thirty (30) calendar day public comment period to receive written comments on the contents of the Five Year Consolidated Plan and/or the Annual Action Plan, unless a shorter time period is allowed by HUD. Notice of the comment period will be posted in the local newspaper. The City will post a draft of the proposed Consolidated Plan to its website, which will be available for free download. The document will also include copies or links to the data sets referenced and analyzed when creating the plans. Summaries and full versions of the Five Year Consolidated Plan and/or Annual Action Plan will also be available for review at the Community Development Department, located at 625 Murray Street, 3rd floor. Please allow 3 business days to print the report after the date of the request for a copy. Any comment received during the public comment period will be included in a summarized response incorporated into the plan submitted to HUD.

- Public Hearings

The City will hold two public hearings during the planning process to receive public comment on the Five Year Consolidated Plan and/or the Annual Action Plan. The public hearing may be shared via livestream on the internet to expand participation. Any comments received during the public comment period will be included in a summarized response incorporated into the plan submitted to HUD.

- The first public hearing will be held at the start of the planning process in November with the purpose of soliciting input on community need. An advertisement will be placed in the local

newspaper for the public hearing at least seven (7) calendar days before the hearing date, unless a shorter time period is allowed by HUD.

- The second public hearing will be held during the thirty-day public comment period. Notice for this meeting will be given in the local newspaper advertisement announcing the public comment period itself, but this second public hearing shall not be held earlier than seven (7) calendar following the notice, unless a shorter time period is allowed by HUD.
- Adoption of the Plan
Following the public comment period and finalization of the Plan, it will be presented to and adopted by City Council during a Public Hearing. The public hearing date can be confirmed by contacting the City Clerk 318-449-5090. Attendance is open to the public and the hearing is televised on the local City channel 4 for viewing.
- Publication of Final Adopted Plan
After submission to HUD, the City will post the final adopted Consolidated Plan and AI on the City's website.

Section 3: Amendments

From time to time, the City will need to amend the information contained in the Consolidated Plan and/or Annual Action Plan. Depending on the nature of the change, the amendment will be considered to be a substantial amendment¹ or a minor amendment. Substantial amendments will trigger additional public participation processes outlined below. If an amendment does not meet the definition of a substantial amendment, it shall be considered a minor amendment and will be included in the annual report. Interested parties wishing to comment on minor amendments may do so during the review of the annual report.

A. Reasons for Substantial Amendments to the Consolidated Plan or Annual Action Plan

The City will consider the following changes to constitute a substantial amendment to a Consolidated Plan or Annual Action Plan:

- Changes to priorities in how funds are allocated;
- Use of federal funds to undertake a project not previously described in the action plan;
- Changes in the use of CDBG funds from one eligible project to another if such changes exceed 25% of the total CDBG annual allocation.
- Changes in the use of HOME funds from one eligible project to another if such changes exceed 10% of the total HOME annual allocation.

B. Substantial Amendment Process for the Consolidated Plan and Annual Action Plan

The City will take the following actions to encourage citizen input for substantial amendments to the Consolidated Plan or Annual Action Plan:

- Notice of Substantial Amendment
The City will post a draft of the proposed substantial amendment to its website and follow the public comment requirements in Section 2 above.

¹ In regard to the AI, HUD uses the term "significant material change." For the purposes of this document, the City will use term substantial amendment for "significant material change" to the AI.

- Targeted Outreach
Targeted outreach will follow the process described in Section 2 above.
- Public Comment Period
Public Comment Period will follow the process described in Section 2 above.
- Submission to HUD
Upon completion of the public participation process, the City will send a written notice to HUD of the amendment and update the IDIS reporting system accordingly. Letters transmitting copies of amendments will be signed by the Community Development Administrator and the Mayor.
- Notice to Public Housing Authority
For changes to the Analysis of Impediments to Fair Housing Choice, the City will forward a copy of the amendment to the Alexandria Housing Authority so that the agency may reflect those changes accordingly in their planning efforts.
- Publication of Adopted Substantial Amendment
After submission to HUD, the City will post the final adopted plan on the City's website.

C. Amendment Process for Citizen Participation Plan

The City will review this Citizen Participation Plan annually to ensure it complies with HUD requirements and meets the needs of the community. If an amendment to the Citizen Participation Plan is needed, then the City shall follow this process to provide reasonable notice to the public:

- Public Comment Period
The City will hold a fifteen (15) calendar day public comment period to receive written comments on the contents of the amended or new Citizen Participation Plan, unless a shorter period is allowed by HUD. Notice of the comment period will be posted in the local newspaper. The City will post a draft of the amended Citizen Participation Plan to its website, which will be available for free download. Any comments will be considered before adoption of the plan. Summaries and full versions of the Citizen Participation Plan will also be available for review at the Community Development Department, located at 625 Murray Street, 3rd floor. Please allow 3 business days to print the report after the date of the request for a copy. Any comment received during the public comment period will be included in a summarized response incorporated into the plan submitted to HUD.
 - When amending the Citizen Participation Plan in conjunction with the preparation of the Five Year Consolidated Plan or Annual Action Plan, the City may publish the Citizen Participation Plan along with the Five Year Consolidated Plan or Annual Action Plan for the full thirty (30) calendar day period required for those documents.

Section 4: Performance Reports

The City will prepare an annual report at the end of each Program Year (April 30th) called the Consolidated Annual Performance and Evaluation Report (CAPER). The CAPER report summarizes the use of funds and evaluates the City's performance in regard to meeting its goals during the program year ending (May 1st to April 30th).

- Targeted Outreach
The City will follow the targeted outreach process described in Section 2 above.
- Public Comment Period
The City will hold a fifteen (15) calendar day public comment period to receive written comments on the contents of the CAPER, unless a shorter period is allowed by HUD. Notice of the comment period will be posted in the local newspaper. The City will post a draft of the CAPER to its website, which will be available for free download. Summaries and full versions of the CAPER will also be available for review at the Community Development Department, located at 625 Murray Street, 3rd floor. Please allow 3 business days to print the report after the date of the request for a copy. Any comment received during the public comment period will be included in a summarized response incorporated into the plan submitted to HUD.
- Public Hearing
The City shall hold a public hearing on the draft CAPER and provide notice to the public of the hearing. This public notice shall be posted at the same time the notice for the public comment period is published, but the public hearing shall not be held earlier than seven (7) calendar following the notice. The public hearing may be shared via livestream on the internet to expand participation.
- Submission to HUD
Upon completion of the public participation process, the City will submit the final version of the CAPER report to HUD and update the IDIS reporting system accordingly. The plan must be submitted within ninety (90) calendar days (July 31st) of the end of the program year (April 30th).
- Publication of Final CAPER Report
After submission to HUD, the City will post the final version of the annual CAPER report on the City's website.

Section 5: Methods of Citizen Outreach

A. Public Notice

The main method for providing notice of opportunities to participate in planning and reporting processes will be the local newspaper and City's website. The City's website will provide a consistent source of finding information related to Community Development that can be accessed at any time. The website can be found at:

www.cityofalexandriala.com

Click on Services Tab near the upper right, then click on Community Development on the upper center.

The City will publicize all HUD required public hearings at least seven (7) calendar days ahead of time. The public hearing may be shared via livestream on the internet to expand participation. Reasonable notice will be given for the commencement of any comment period. This will include the following notices:

- Notice of Resources and Expected Activities
- Notice of Funding Availability (NOFA)

- Notice of Public Hearings
- Notice of Citizen Comment Period

B. Citizen Outreach

The City will sponsor a Citizen's Advisory Committee to gather citizen input on the use of CDBG and HOME funds. The Committee will be composed of ten (10) members. The composition of the Committee will be as follows:

- One resident of Target Neighborhood A-B-North Alexandria
- One resident of Target Neighborhood D-South Alexandria.
- One resident of Target Neighborhood E-South Alexandria.
- One resident of Target Neighborhood F-Samtown/Woodside.
- One member of the Business Community or representatives who reside in Target Neighborhood C-Central Business District.
- One representative of elderly and handicapped citizens
- One representative for homeless persons
- One representative for youth
- One representative for persons with AIDS/HIV.
- One representative for person who is mentally/physically disabled

The Mayor shall appoint all members subject to City Council confirmation. All members will serve for a two-year term. Committee members should be active community leaders who are aware of the needs of their neighborhood and who will assist in obtaining citizen input concerning CDBG and HOME activities, and/or any other HUD funding resources, which principally benefit low and moderate income persons. If a member has three (3) consecutive unexcused absences, this member will be replaced.

The Community Development Administrator will serve as the Administrator to the Citizen Advisory Committee to provide support as needed and to provide continuity of citizen participation throughout all stages of the program including the development of needs, the review of proposed activities and review of program performance. The Administrator will not be a voting member of the committee.

Community Development will directly notify, via email or phone call, persons on the Citizen Advisory Committee of upcoming meetings since this is targeted group.

Other Interested Parties may request to attend the Citizen Advisory Committee and/or to be added to the Interested Parties List, please call the City's Community Development Department at (318) 449-5072 or email cda@cityofalex.com.

City also will make reasonable efforts to outreach via the local newspaper, email, City website postings, local churches and through the efforts of the representatives on the Citizen Advisory Committee.

Notice will also be provided to the following groups to directly outreach to minorities, non-English speaking persons, persons living in low and moderate income neighborhoods, and persons with disabilities.

- Neighborhood Meetings in CDBG Target Areas
- Citizen Advisory Committee
- Public Housing Authority
- Members of Continuum of Care

- Recently funded subrecipients

C. Public Hearings

These public hearings contemplated under this plan will be held in Human Resources Conference Room or another accessible City building to ensure accessibility for persons with physical disabilities. The City will attempt to accommodate translation for non-English speaking residents and persons with disabilities if a request is made at least three (3) days in advance. If the City cannot accommodate a request, the City will make alternative opportunities available for non-English speaking persons and persons with disabilities to participate.

D. Publication and Review

The City will post summaries and full versions of each plan and report to its website. Summaries and full versions of the plans and report can be made available for review at the Community Development Department, located at 625 Murray Street, Third Floor. Please allow 3 business days to print the report after the date of the request for a copy.

The website will also include copies or links to the data sets referenced and analyzed when creating the plans. Primary sources include:

- HUD-provided fair housing data;
- HUD-provided low and moderate income data;
- HUD-provided CHAS/ACS data sets; and
- Supplemental information used by the City in its analysis and funding decisions.

E. Public Comments

Written comments received during the formal comment periods described in this draft and those received orally at public hearings will be included in a summarized response incorporated into the documents submitted to HUD.

Comments may be emailed to cda@cityofalex.com or submitted in writing to:

City of Alexandria Community Development
Attention: Administrator
625 Murray Street, Suite 7
Alexandria, LA 71301-8022

F. Access to Records

To assure public access to all records, the City will make the following documents available for review on the City's website at www.cityofalexandrialala.com and at the Community Development Department, located at 625 Murray Street, Third Floor, during normal business hours:

- Current version of the City's proposed or adopted Citizen Participation Plan;
- Current version of the proposed or adopted Five Year Consolidated Plan and Annual Action Plan;
- Current version of the proposed or adopted Section 108 Loan Guarantee Fund applications and related documents, if applicable;
- Current version of the proposed or adopted Analysis of Impediments to Fair Housing Choice; and
- Current version of the proposed or adopted annual CAPER performance report.

Additional records related to the grant programs may be available for public review. However, it is the City's duty to protect the personal information of their beneficiaries. Requests for records other than those listed above will be subject to City approval and may require a Freedom of Information Act (FOIA) request.

G. Technical Assistance

The City will provide technical assistance upon request to groups and organizations that serve low and moderate income persons within the City. To request technical assistance, please call the City Community Development Department at 318-449-5072 or email at cda@cityofalex.com. The City will provide a timely written response to all written proposals submitted within thirty (30) calendar days stating the reasons for the action taken by the City.

Section 6: Response to Disasters and Unforeseen Events

In the event HUD provides opportunity for waiver of the requirements within this plan during a federally-declared disaster or upon any other unforeseen circumstance, the City will follow applicable amended procedures for public notice, public review and comment, and citizen participation to enable the City to redirect resources to the most immediate community needs. The City will comply with all requirements accompanying the allocation of federal funds in these circumstances, including the requirements of statutes, regulations, or HUD administrative guidance with respect to citizen participation and the amendment or adoption of the Consolidated Plan, Annual Action Plan, or CAPER. If needed, the City will request appropriate waivers from HUD to take advantage of any flexibility offered by HUD.

The City may modify its procedures as follows, notwithstanding HUD guidance to the contrary.

- The public review and comment period for amendments may be shortened to five (5) days.
- In-person public hearings for the Consolidated Plan, Annual Action Plan, or any amendment may be held by virtual public hearings only if:
 1. national/local health authorities recommend social distancing and limiting public gatherings for public health reasons; and
 2. virtual hearings provide reasonable notification and access for citizens in accordance with the grantee's certifications, timely responses from local officials to all citizen questions and issues, and public access to all questions and responses.

Section 7: Complaints

Any complaint regarding the City's planning efforts must be in writing and shall be addressed to the Community Development Administrator. The City will evaluate the merit of each complaint and will make every effort to understand the reasons for such complaints and resolve them as soon as possible. The City will respond in writing to all written complaints within fifteen (15) calendar business days of the receipt of the complaint.

Section 8: Relocation and Displacement

Community Development will make every effort to minimize relocation and displacement of persons, families, and businesses in activities funded by HUD funds. In this effort, Community Development will carry out its activities in accordance with the Uniform Relocation Act of 1970, as amended, the applicable federal regulations (49 CFR Part 24), and the requirements of the Section 104(d) of Title I of the Housing and Community Development Act of 1974, as amended.

When the health and safety concern is an issue, Community Development will make efforts to assist the property owner(s) in bringing the housing up to Housing Quality Standards, remove such substandard housing, or recommend temporary or permanent displacement of the person(s) residing in them. In such events, Community Development will provide relocation assistance, to the extent permitted, to the families displaced as a direct result of programs assisted by HUD funds.

Nonetheless, in certain areas identified as urban renewal areas or targeted districts, Community Development may carry out revitalization initiatives aimed at removing urban blight or foster redevelopments. These initiatives on occasions will require relocation. In such cases, prior to any action that will result in displacement, Community Development will notify all affected residents of the intended displacement action, as well as the extent of the benefits that will be available to each impacted person as outlined in 42 U.S.C. 4601 and 5304(d), and 49 CFR 24 and the most recent approved State laws.

DRAFT
