

## PROJECT STATUS

**PROJECT NAME:** RIVERFRONT IMPROVEMENTS  
PHASE I - BAND SHELL INSTALLATION

**DESCRIPTION:** PHASE I IS UNDER WAY WITH THE INSTALLATION OF THE BAND SHELL AT THE ALEXANDRIA RIVERFRONT AMPHITHEATER. THE BAND SHELL WILL ENHANCE CONCERTS AND OTHER PERFORMANCES AT THE VENUE AS WELL AS EXTEND THE TIME OF USE BY GIVING COVER TO PERFORMERS. THIS IS A JOINT PROJECT BETWEEN THE CITY OF ALEXANDRIA AND THE REDD RIVER WATERWAY COMMISSION

**CURRENT STATUS:** CONSTRUCTION HAS BEGUN WORK AND THE CONCRETE ANCHORS THAT WILL SUPPORT THE BAND SHELL COVER ARE NOW COMPLETE.

**PROJECT COMPLETION:** THE BAND SHELL CONSTRUCTION IS ESTIMATED TO BE COMPLETE BY FALL OF THIS YEAR (2022).

**PROJECT ESTIMATED BUDGET:** \$1.7 MILLION

**CONTRACTOR:** TUDOR CONSTRUCTION

*Tudor Construction has completed the foundation structures for the Band Shell at the Alexandria Riverfront Amphitheater. The six concrete blocks make up the footing to hold the band shell.*

*This photo shows three of the large concrete structures that make up one half of the footing to hold the band shell. When complete the band shell will have lighting and sound and protect performers during inclement weather*
