

## **PRESS RELEASE**

FOR IMMEDIATE RELEASE  
June 10, 2023

### **AUS CREWS WORK TO RESTORE POWER AFTER SEVERE THUNDERSTORMS**

AUS crews are assessing damage and working to restore service to Alexandria Utility System customers who remain without power after a severe thunderstorm swept through the area late Saturday afternoon. The major cause of outages was strong winds and fallen tree limbs.

The storm caused scattered outages across the service area. AUS is currently aware of outages in the following areas:

Richmond Drive  
Greenfield Drive  
North Drive  
Post Oak Blvd.  
Ridgewood Blvd.  
Sweetbriar Drive  
Idlewood Drive  
Castle Village area  
Heyman Lane  
Coliseum Blvd. @ Heyman Lane

Maywood Street  
Kirkpatrick Street  
Twin Bridges Road  
Bruyninckx Road  
Hill Street  
Cambridge Drive  
Habeeb Drive  
Mimi Loop  
Vesta Street  
Hera Street

Estimated time of restoration in these areas is early morning Sunday, June 11, 2023. Crews will work through the night to bring these areas online. Much of the work will require accessing power lines located at the rear of residences which may prove difficult at night.

Remember to stay away and keep children and pets away from downed lines. Treat all downed power lines as if they are energized and dangerous.

To report a power outage call: 318-473-1301. For updates, follow City of Alexandria, Louisiana – Government on Facebook.
