

## PRESS RELEASE ALEXANDRIA, LOUISIANA

### THE CITY OF ALEXANDRIA RELEASES 100-DAY REPORT CARD

*The City of Alexandria Reports to Citizens about Where We Stand on 100-Day Goals for Basic Services and Opportunity  
Part II*

**March 15, 2023**

Alexandria, Louisiana —“Public safety is a basic service; it is a fundamental civil right,” Mayor Jacques Roy has stated with regard to how Alexandria must see the community. “Well run basic services, cost-effective dependable utilities, and real commitments to infrastructure are the key elements of a City’s success,” continued Mayor Roy. “In a short time, 100 days, we have restored electricity security to our ratepayers, cleaned out a massive amount of drainage and diversion bodies, and ‘just plain’ cleaned up trash around the City. We have completed our plans, on time, to get the City ready for opportunities—stand by for our post 101-day plans.”

Chief Administrative Officer, Kay Michiels, cautioned, “While we are proud of the unprecedented successes of our team and city employees in the first 100 days, we are not ready to celebrate. We have successfully triaged and have our arms around city operations, yet much remains to be done to provide our citizens the first-class services and public safety they deserve. We commit to continue our unrelenting efforts on their behalf and look forward to day 101 and every day after.”

1. Operation Cleanout 2.0 budgeted, commenced, and documented with the need for a few more months because of weather delays. View our progress on city social media.
2. Project **RESTOR** was set up to aid at least 3,500 households to overcome this extraordinary financial challenge through a public-private funded assistance pool. In short, it has been a pleasure to work with citizens.
3. Commenced and made initial stakeholder decisions regarding our new energy and capacity resourcing plan for the city’s current energy (electric and natural gas) risk profile.

Criteria	Metrics
Capital Funding	\$M of Financing
Sustainability	% of Carbon Free Energy
Resiliency (local generation)	Ability to supply critical loads
Economic Growth / PILOT	Job Creation / Local Taxes
Reliability	Meet LOLE / Reserve Margin
Market Exposure	% Market Purchases
Fuel Diversity	Reliance on fuel sources
Expected Power Cost	PV of Revenue Req.
Potential Cost Volatility	Range of Volatility / Std Dev

**THE CITY OF ALEXANDRIA RELEASES 100-DAY REPORT CARD - Basic Services and Opportunity**

4. Completed and modified the functionality and performance of the city's meter reading and utility billing assets; completed strategic operations plan to bring 100+ day billing cycles to under 30 days.
5. Created the RFP to begin design of technical upgrades and specifications to fully automate the city's meter reading functions by June 2024. Met with several top AMR companies.
6. Reviewed and made necessary changes to the current Utility Capital Projects Budget for backlogs, capital improvements, operating status of D.G. Hunter Units 5-11, and staffing shortages in Electric Distribution, Gas, Water, and Wastewater operations.
7. Completed reviews of staffing needs and succession and training plans; the Utility Division's emergency operations plan and resources to ensure timely restoration of service in the event of natural disaster or other significant operational impairments; and compliance with law.
8. Fixed busing issues; met with local officials about workforce transit planning.
9. Picked up the trash!
10. Met with local officials and examined data on euthanasia and animal practices; much more to do here!
11. Re-established city-wide grantsmanship.
12. Reviewed and updated development and zoning; reorganized leadership of division.
13. Studied land banks and "dusted off" our AURA plan toward modern land bank planning.
14. Re-established the Recreation plan; updated the existing detailed plan of work.
15. Met with Interfaith; meeting with all neighborhood watch heads; met with the superintendent of schools; met with and working on expansion with Blue Cliff College.
16. Commenced ministerial alliance plan and completed initial agenda and plan of work.
17. Restructured and completing new organization and resource plan for IT departments.
18. Reviewed all memoranda of understanding-Intergovernmental Agreements ("MOU-IGA") and completed multi-day round up of cooperative endeavors, their public purposes, and assessment of deliverables.
19. Commenced audit of the entire city, not limited to the budget, but including provision of service, losses, program efficacy, retirement system, provision of legal services, waste, provision of engineering services, and planning.
20. Completed review and making structural changes to vacancies and pay planning.
21. Revoked executive orders and policies regarding traffic ticketing investigations and similar intrusions into personal, non-work-related, inconsequential private matters with employees; and review all claims of retaliation for decisions and mediation.
22. Re-established team for Diversity in Action and created the Nehemiah Initiative.
